

MODECOM MC-M10S

- ✓ QUIET, COMFORTABLE MOUSE
- ✓ COMFORTABLE AND ERGONOMIC FOR WORKING AND LEARNING

Material

The surface of the mouse is made of a pleasant-to-touch material, the advantage of which is the absence of fingerprints after use. This will be appreciated by all those who value aesthetics and work culture.

Ergonomics above all

The mouse must be comfortable. This is what the MC-MIOS is like. It is a device that does not fatigue your hands or fingers after many hours of use.

Palette of colours

The mouse not only has to function reliably and not tire your hands. It must also please the eye and that is why we offer it in one of the four available colors.

Ultra quiet work

The microswitches used in the mouse are characterized by absolute silence. The user can be 100% sure that working on the MC-M10S will not disturb the surrounding silence. If you work at home in the evenings, or you just do not want to disturb other co-workers or household members - this mouse will be a great choice.

SENSOR

MODECOM MC-M10S has been equipped with a 1200 DPI sensor. The operation of an optical mouse means precision on almost every surface. Regardless of whether you work on a mousepad or without it - the sensor will work reliably.

Classic Universal Quiet

The modern MODECOM MC-M10S optical mouse is based on many years of experience in providing computer accessories to the market. In the case of the MC-M10S, we focused on the comfort of using ultra-quiet microswitches. This significantly increases the comfort of use in relation to mice with traditional switches. Thanks to the use of this technology, you can use the mouse silently in public places such as a reading room, or at home, with 100% certainty that working on the MC-M10S will not disturb the surrounding silence. When creating the universal and practical MC-M10S mouse, we have not forgotten the importance of button durability and ergonomics of use.

Its classic appearance in the available four-color palette of colors (black, white, red, blue) meets the tastes of demanding users who appreciate classics in a modern edition.

Quality of materials

The surface of the mouse is made of a pleasant-to-touch material, the advantage of which is that no fingerprints are left after use. MODECOM MC-MIOS combines the best features of a classic, solid and ergonomic design with modernity, quality of workmanship and high durability of the microswitches.
