# Choose your color!

# The successor of the VOLCANO GM mouse series? VELES does everything better!

The MODECOM Volcano GM gaming mice series was created with the best possible solutions in mind at the lowest possible price.

The MODECOM Volcano Veles model is the successor of the GM series and a perfect example of a mouse that is designed to give you the greatest fun to use. Don't tense up! You don't have to be e-sports world champion.

What's more - mouse allows for comfortable "casual" gaming for many hours thanks to its ergonomic design. It will be helpful while studying or working, providing the desired precision and pleasure from every minute spent at the computer.

And when you get to know the mouse closer, you'll see how many great gaming adventures you can experience with it.

## 8 BUTTONS

The mouse has 8 buttons, thanks to which you can easily adjust them to your needs.

## FOR RIGHT-HANDED

For right-handed users. A comfortable place for the thumb and high ergonomics of the device translates into the high palm comfort.

## BACKLIGHT

Effective RGB LED backlighting with 16.7 million colors can be adjusted to your preferences. Choose your favorite color and enjoy a beautiful looking gaming station.

# COMFORT

The mouse was designed for right-handed players. A very comfortable design dedicated for gaming or working.

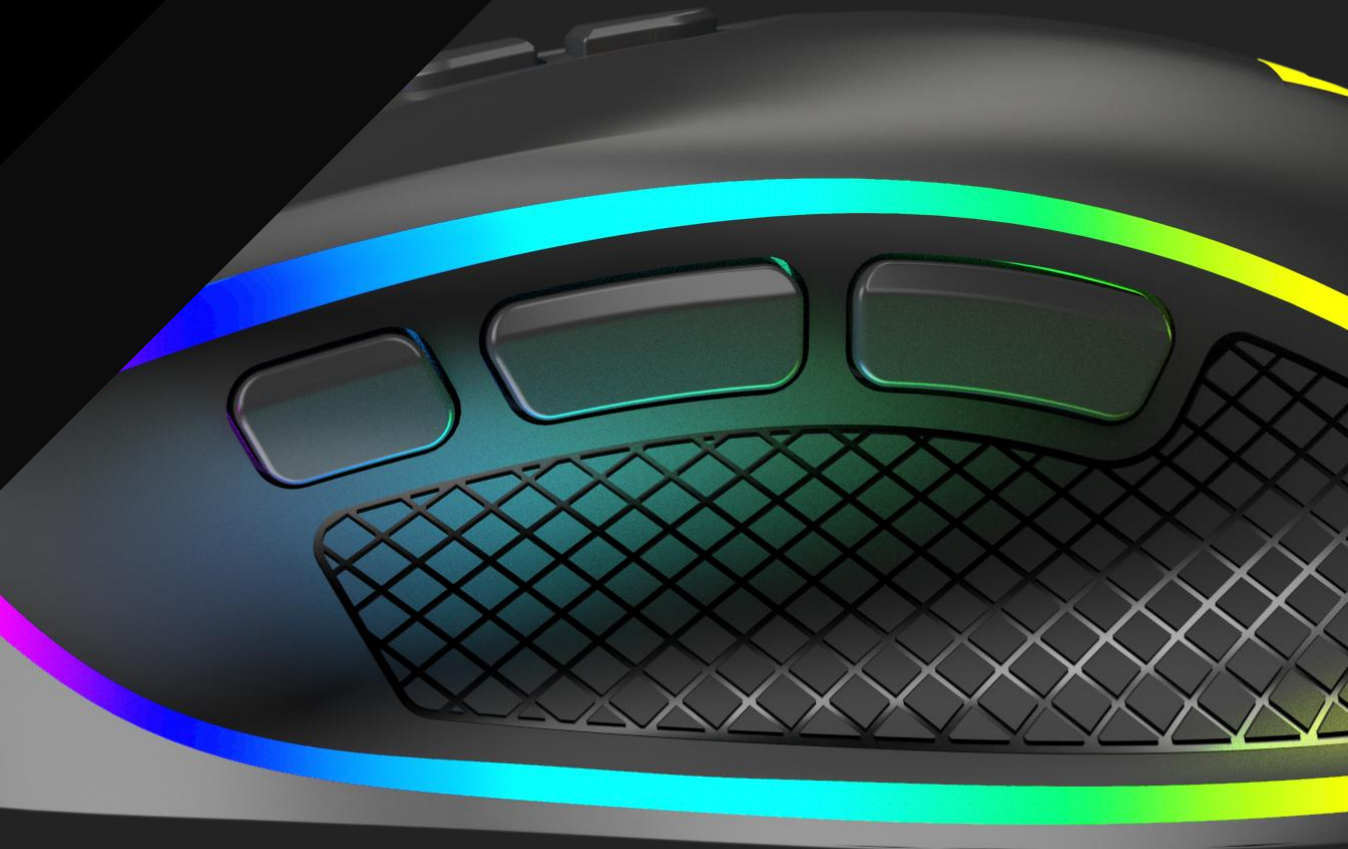

# VOLCANO VELES

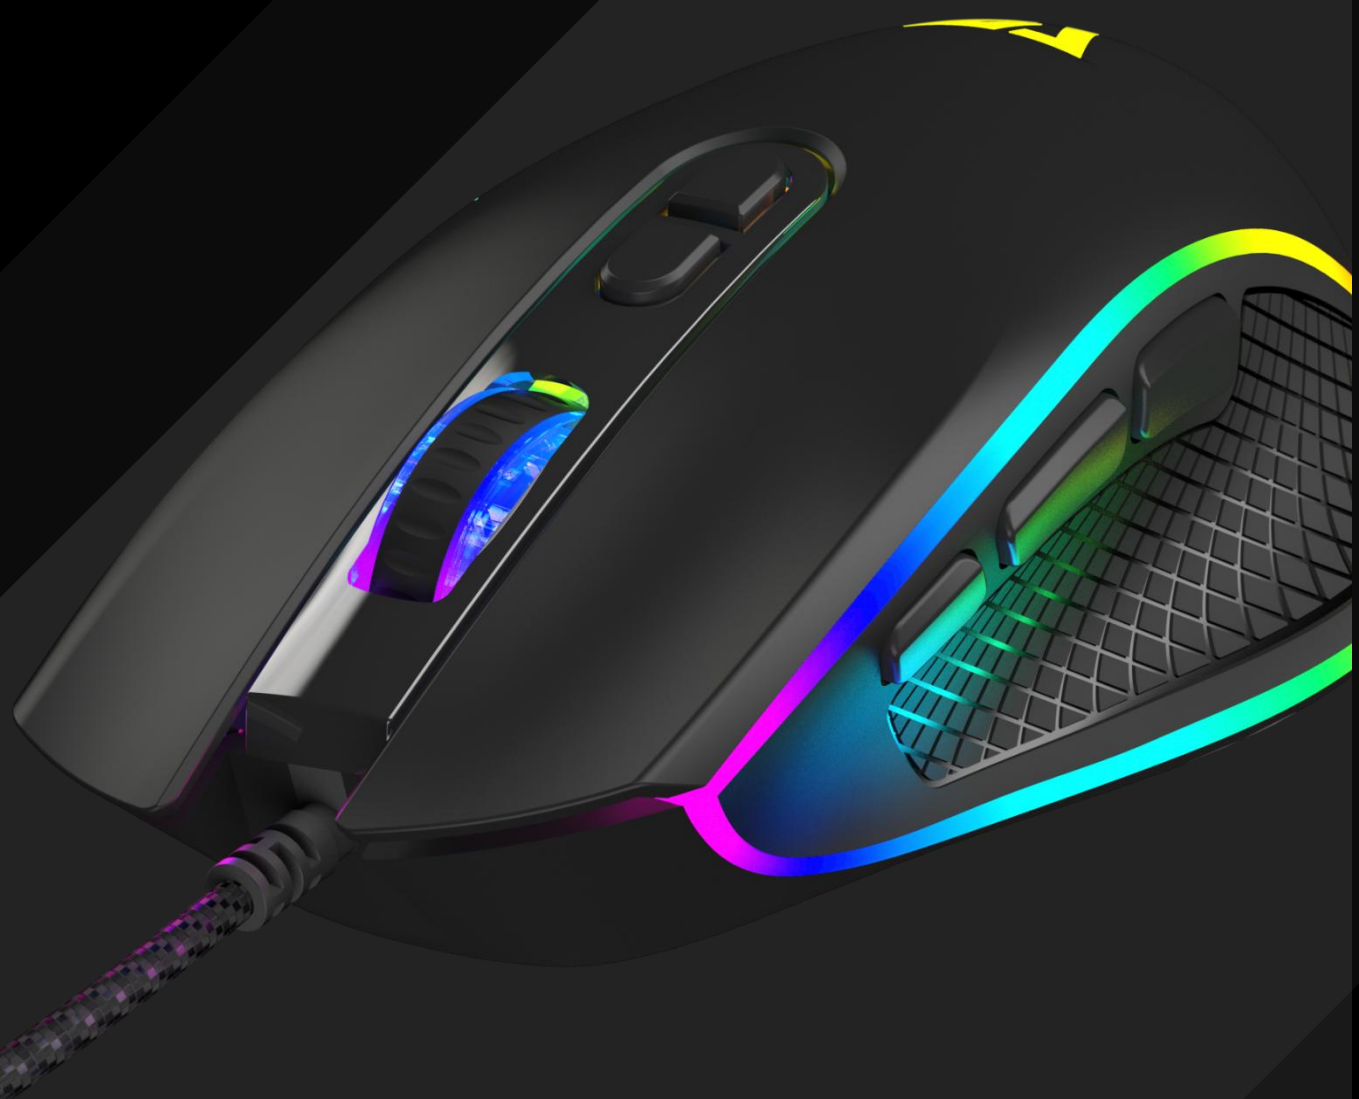

## LOTS OF BUTTONS

---

8 buttons. 8 buttons for gaming. 8 buttons for working. It's up to you how to use them. Thanks to dedicated software, the buttons can be configured according to your preferences, which makes it a great choice not only for gaming, but also for work or web browsing.

Three buttons located on the left side within the reach of the thumb will allow you to use the potential of the mouse in virtually any game.

**GAMING SOLUTIONS**

**STOP TENSING UP  
WHEN GAMING!**

**FOR THE PLEASURE  
OF GAMING**

**ALWAYS AFFORDABLE**

## DESIGN

---

An effective RGB LED backlight and a profiled shape with a comfortable place for the thumb for right-handed players.

Designed for maximum comfort during long gaming sessions.

# STOP TENSING UP WHEN GAMING!

## WHEN YOU PLAY FOR YOURSELF, NOT FOR RESULTS

---

You come home after work or school. You turn on your computer and launch your favorite game. You don't think about breaking new records, you just want to have a good time.

You don't need top technological achievements, those fractions of a second in games don't make much difference to you, because you play not for the results, but for yourself - the MODECOM Volcano Veles mouse is the best companion in your daily adventure with your favorite computer games.

# SENSOR

The A825 sensor with 800-12800 DPI is the optimal technological solution for gaming, learning or working at the computer. The reliability and precision that characterizes mouse sensor, works well in most situations. Here is a sensor that provides a lot of pleasure in games, allowing you to enjoy every minute spent in the virtual world of fun and adventures.

## DPI

---

Default DPI settings (can be changed in dedicated software):

Level-1: 800

Level-2: 1200 (default)

Level-3: 2400

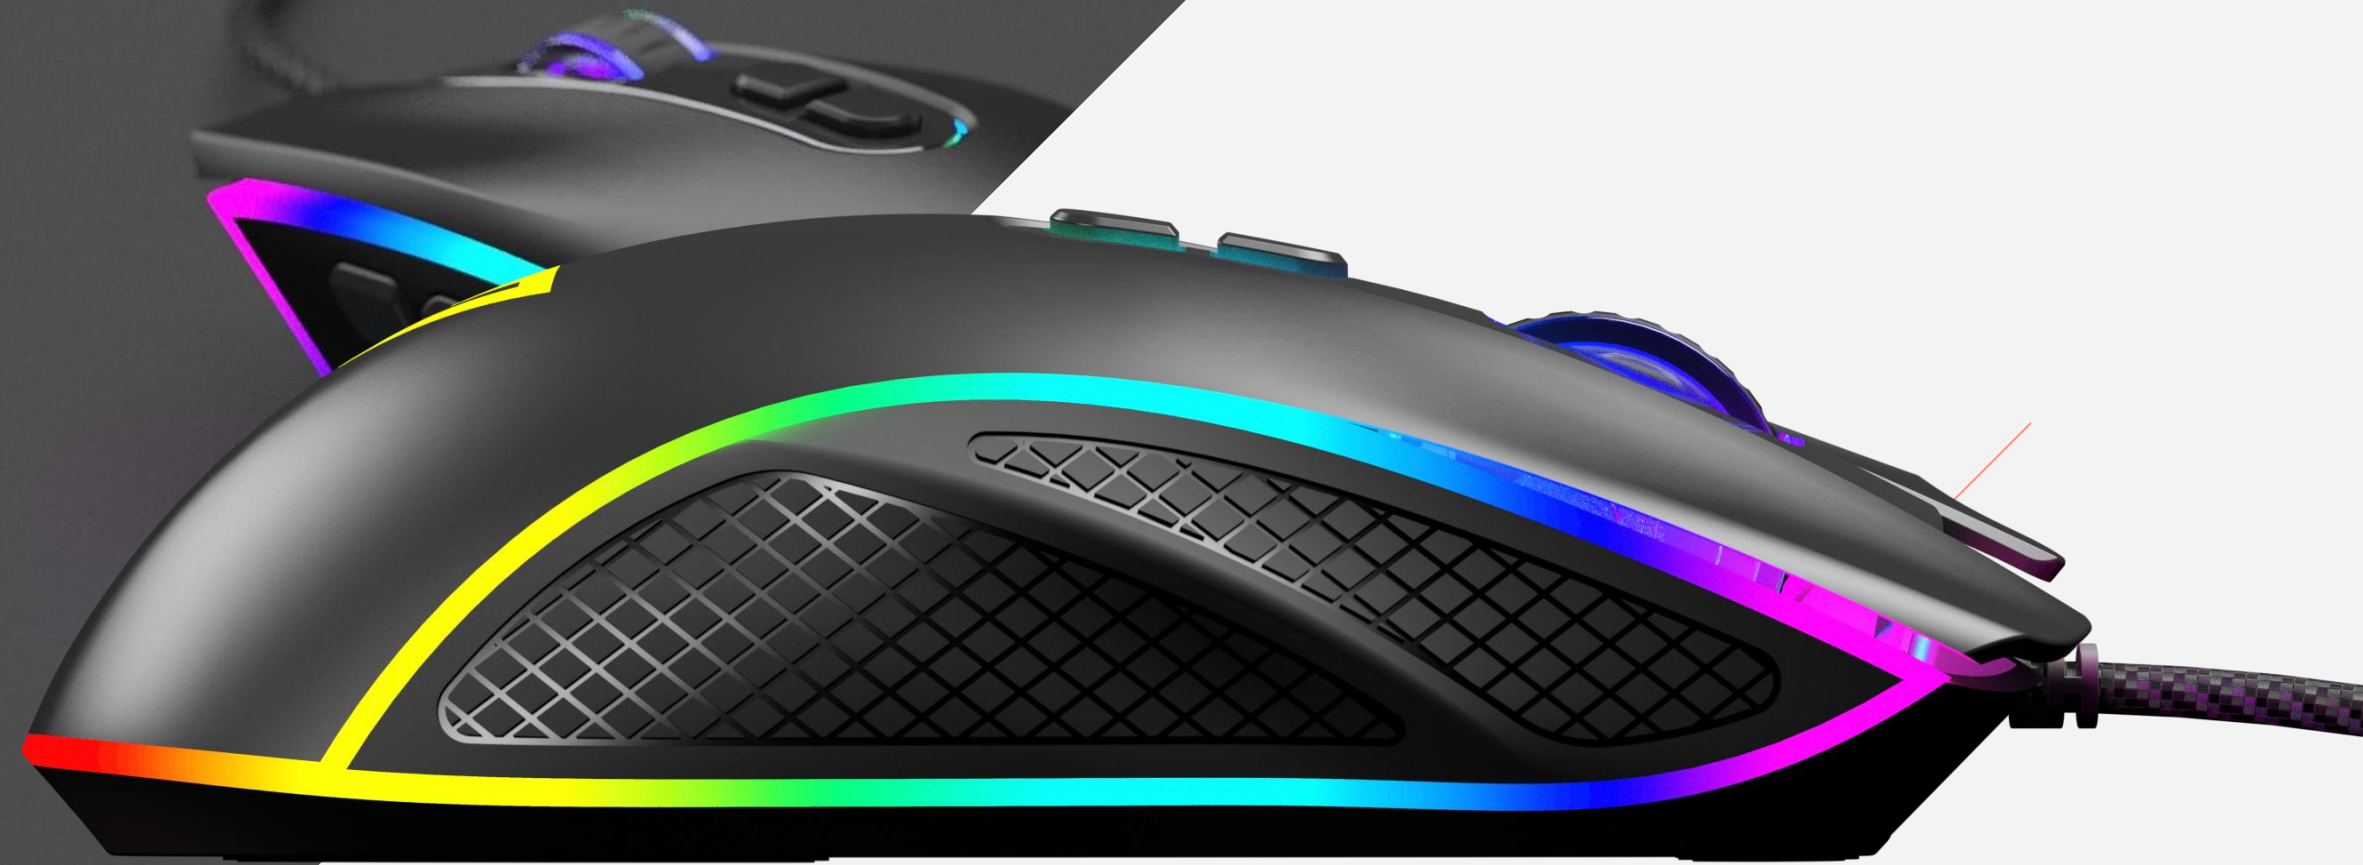

Level-4: 4800

Level-5: 9600

Level-6: 12800

# MODECOM VOLCANO VELES not only for gaming.

MODECOM VOLCANO VELES is a mouse designed to meet the needs of right-handed players. Modern and attractive design, impressive backlight, 8 programmable buttons - all this allows you to enjoy hours of fun in your favorite games.

Or maybe you want to use it for work? Don't let its gaming character fool you - the mouse is perfect not only for fun, but also for study and work.

# 10 REASONS WHY YOU SHOULD HAVE IT

01. **OPTIMAL WEIGHT** Optimal weight for the best possible work, study and gaming at the computer.

02. **FOR RIGHT-HANDED**  
**HANDED** Profiled - thanks to this design, it has been optimized for the specific needs of right-handed gamers.

03. **DESIGN** Modern design that will fit well into any gaming position.

04. **LED RGB** Effective LED RGB backlight.

05. **SOFTWARE** Software can be downloaded from the producer's website - [www.modecom.com](http://www.modecom.com)

# 10 REASONS WHY YOU SHOULD HAVE IT

- 
06. **COMFORT** A mouse that allows many hours of comfortable gaming.
07. **FOR YEARS** 10 million switch lifespan will allow you to use it for years.
08. **8 BUTTONS** 8 programmable buttons - adjust the mouse to your preferences.
09. **MACROS** Possibility to record macros.
10. **LONG CABLE** Long braided cable (180 cm).

## CABLE

---

MODECOM VOLCANO VELES is a wired gaming mouse.

A long 180-centimeter, and lightweight braided cable reduces the mouse's resistance to movement and ensures high comfort.

Thanks to this, working with the mouse is very pleasant, and the cable does not interfere even during intensive gaming.

## Play as you like with the software

Play freely - enjoy every minute spent at the computer and relax playing your favorite games.

You can freely program the buttons, and also set macros. You have a wide range of choices, thanks to which the mouse will serve you the way you like.

# WHY DO YOU NEED VOLCANO VELES MOUSE?

8 programmable buttons, RGB LED backlight, comfortable design, optimal weight, precise sensor, high quality sliders - in the MODECOM Volcano Veles mouse everything is as it should be for gaming, learning or working at the computer.

CHANGE GAME,  
CHANGE MOUSE

MODECOM Volcano Jager is mouse for those who want to have control over the game. High comfort, removable panels, the ability to replace switches with silent ones, only 69 grams of weight – it's the perfect mouse for every game.

# CASUAL GAMING

MODECOM Volcano Veles for everyone who expects, above all, good fun in front of the computer.

HONEYCOMB

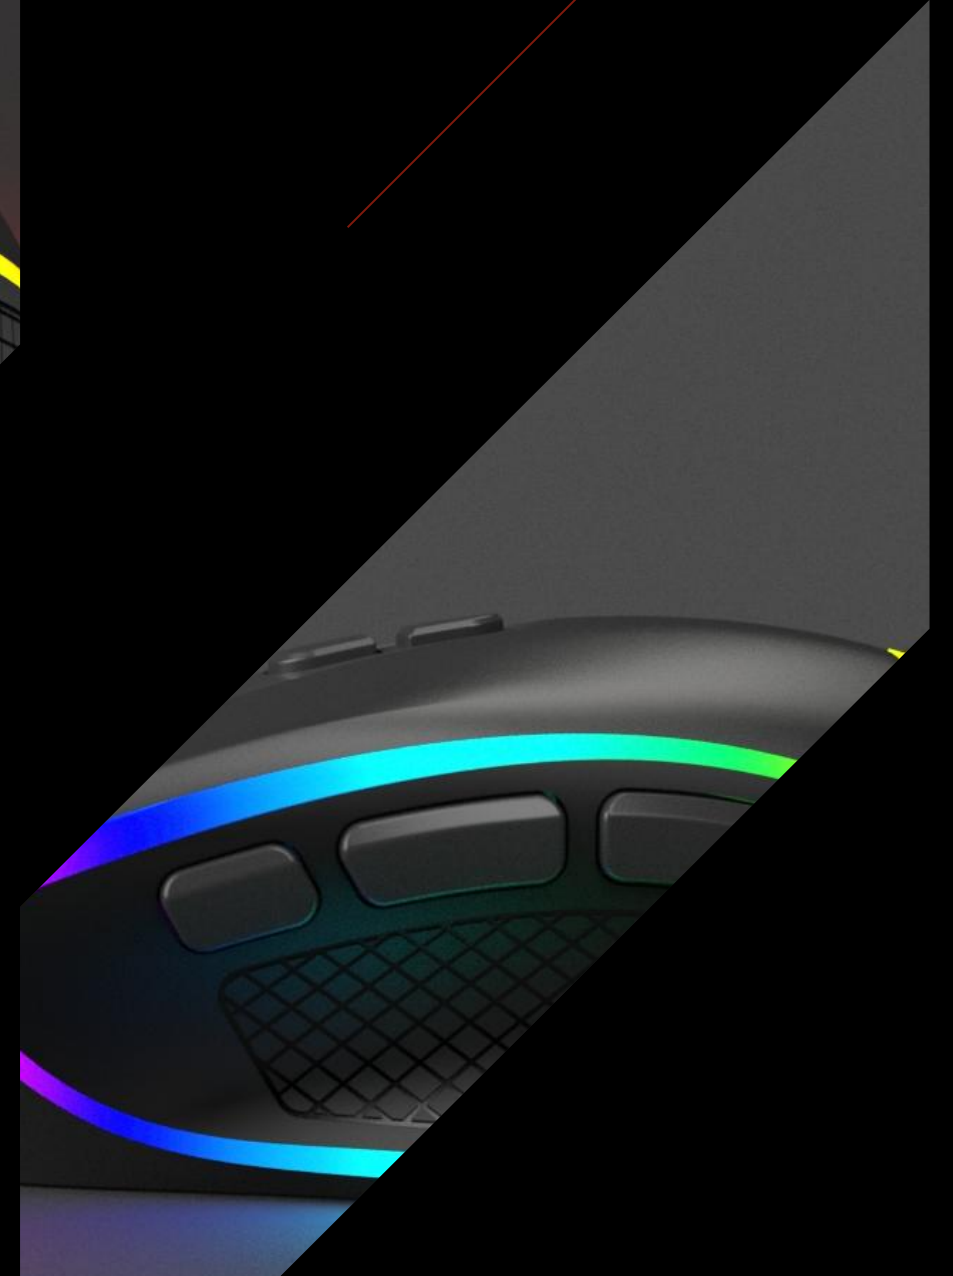

MODECOM Volcano Shinobi with PixArt 3327 or PixArt 3360 sensor for those who want to show off their gaming skills.
