# Convenience and practicality in motion.

MODECOM Smart 15 was created with the greatest possible comfort and practicality in mind. It will work great in any situation - in the city or while traveling. The backpack is full of useful solutions that make life easier nowadays. A dedicated laptop compartment, numerous pockets and a USB port for connecting a power bank - this is a new standard of mobility, convenience and practicality.

# Designed for maximum comfort.

# Perfect for a 15.6 "laptop.

This backpack will be perfect when you can't part with technology. A practical laptop compartment allows you to safely transport your computer. Regardless of whether you are taking your laptop for a trip, class or meeting, you know that it will be safely placed in your backpack.

**MODECOM SMART 15**

# Versatility and practicality.

**MODECOM SMART 15**

# Numerous pockets.

USB port for
connecting a
power bank.

**MODECOM SMART 15**

# Don't give up on your smartphone.

Thanks to a special USB port, you can keep the powerbank in your backpack and conveniently connect your smartphone to a power source. Many hours of walks, work or classes will become much easier, while also being able to use your smartphone outdoors.

# Material.

Waterproof material - rain or snow is no problem!

## Numerous pockets.

Practical solutions are needed - numerous pockets and compartments make it easy to transport a power bank, wallet, glasses, keys, a small bottle of water, a folding umbrella and even electronic equipment such as a computer mouse.

## Design.

Designed in a practical, gray color, it allows you to keep it easier to clean.

**MODECOM**

# Mesh on the back for better airflow.

# Comfortable shoulder straps.

The backpack must be comfortable and MODECOM Smart 15 is like that. Wide, comfortable and adjustable shoulder straps as well as a comfortable, thick grab handle are the same advantages.

# Anti-theft pocket backpack and a luggage strap.

Anti-theft pocket on the back allows you to hide the most valuable things, such as a wallet or keys. Hidden in a hard-to-reach place, it effectively protect wallet or smartphone from pickpockets. Above the pocket there is a luggage strap for transporting the backpack on the suitcase. It is a practical and safe way to travel or move around the airport.

# Practicality in any situation.

Regardless of whether you take it to the city and move by public transport or take it on a further journey - practical solutions in the MODECOM Smart 15 backpack will work in every situation.

**Daily tasks**

The backpack will be perfect for everyday tasks - you can pack a laptop, notebook, books and other things necessary for work or study.

**Journey**

Universal and practical solutions will prove themselves while traveling.
