ESSENTIAL LIGHTNESS

-LOGIC BASIC 15

Light and comfortable

The Logic Concept Basic 15 bag is a light, weighing only 240 grams, and a very comfortable bag for transporting a laptop, designed for people who are looking for a functional solution at an affordable price.

The main feature is high practicality in transporting a laptop, especially in public transport, where the weight of luggage can be important when traveling to work or school.

Universal and practical bag

FEATURES

- Lightweight bag, only 240 grams weight.
- Space for a 15.6" laptop.
- Durable material.
- Made of nylon.
- Material that protects against water and moisture.
- Convenient zippers.
- Adjustable shoulder strap.
- Comfortable handle.

Plenty of space

The main compartment has space for a 15.6" laptop, charger, necessary cables and a mouse.

The flexible, nylon material from which the bag is made allows, depending on the thickness and model of the laptop and accessories, to fit inside the most necessary documents or other handy items.

PLACE FOR 15,6" NOTEBOOK

You can easily fit a 15.6" laptop in the main compartment. Depending on the model of the device and its thickness, you can also successfully fit accessories or necessary documents.

NYLON

The bag is made of nylon. It is characterized by high durability and quick drying. It is also characterized by high flexibility - it can stretch without cracking. Nylon is a non-absorbent material, which means that it does not absorb moisture and effectively protects the contents of the bag in the rain.

Work or study may be easier

With the Logic Basic 15 bag, work or study can be made easier. Low weight, only 240 grams, allows you to transport the laptop from home to work in a very convenient way. This is especially important when traveling by public transport, where it is not always possible to find a seat. The lightness of the bag in such cases is of great importance, affecting the comfort and well-being for the whole day of work or study.

SAFETY + COMFORT

A comfortable handle and an adjustable strap ensure the comfort and safety of transporting your laptop.

A detachable, adjustable shoulder strap with a cover and a rigid handle allow you to comfortably carry the bag both on your shoulder and in your hand.

—LOGIC BASIC 15

ZIPPERS

The bag is closed with a double-sided zipper. It is a convenient, quick and practical protection of the contents of the bag.

The advantage of zippers is also very easy to use.
