

DELIGHTS WITH ITS LIGHTNESS

LOGIC REST

-LOGIC REST

ALWAYS WITH YOU...

Sometimes you just need to catch up on work. At the same time, when you go on vacation or for a weekend trip, you probably need to have your laptop with you.

To make sure that this transport will be pleasant and comfortable, use the solutions offered by the light (**only 330 grams, which is often less than a cup of tea!**) and practical Logic Rest laptop bag.

This model is characterized by a **simple and minimalist design** with numerous advantages such as main and front pockets with zippers, strong handle, adjustable shoulder strap and dedicated strap for a travel bag. It is also made of a material that limits water absorption.

Logic Rest is the perfect choice for practical people who value simple but effective solutions.

—LOGIC REST

SPACE NOT ONLY FOR LAPTOP

A **spacious bag** in which you can pack not only a laptop, but also your favorite book, a mouse and a charger. It's up to you what you take with you to work or study, or for a short weekend trip.

SIMPLE MEANS GOOD!

MAIN COMPARTMENT AND FRONT POCKET

Everything is simple and well thought out here. This is the biggest advantage of the bag - you don't have to look for a pen or business card in the pockets and try to remember which one they are in. The main compartment and front pocket are all you need, because you always have the most necessary things at hand.

REST

ZIPPERS

Zippers secure the contents of the main compartment and front pocket, and at the same time allow you to quickly and conveniently access their contents. **Great solutions for people who value high practicality.**

Spiral zippers with a metal slider are used.

— LOGIC REST

SHOULDER STRAP

A comfortable shoulder strap will allow you to transport even a heavy laptop in the best possible way - distributing the weight on the strap not only improves carrying comfort, but also "frees" both hands.

COMFORTABLE HANDLE

Comfortable and strong handle - a quick and secure grip when you get out of the car or any public transport. Laptop safety is important!

QUALITY AND SAFETY

STRONG PARTS

The quality of the bag and the safety of its contents are the most important here - that's why it has a strong and durable (also adjustable) strap with a strong buckle.

We have used simple and proven solutions tested in many situations, allowing for the highest safety of your laptop.

MATERIAL

The bag is made of polyester. It is characterized by high durability and quick drying. Polyester is a material that does not absorb liquids, which means it effectively protects the contents of the bag during small rain.

The strip on the front of the pocket just above the zipper is covered with eco-leather. It gives the bag elegance while covering the pocket zipper.

Logic Rest is an example of simplicity and minimalist design that will not go out of fashion in the office environment.

—LOGIC REST

READY TO GO!

A strap on the back allows you to attach Logic Rest to a larger travel bag. Practical solutions translate into the greatest possible travel comfort.

—LOGIC REST

PRACTICAL AND LIGHTER THAN MUG OF TEA

Optimal, practical and simple solutions are its strength and advantage. Thanks to this, you get a bag that is perfect for work, study or travel.

Only 330 grams in weight, so less than a mug of favorite drink. You may not even realize you have it with you!

**Minimalism with
numerous
advantages - a bag
for every day**
