## Protection, convenience, comfort and elegance

---

If you are wondering what characterizes a good, universal laptop bag - the answer is simple - MODECOM MARK 2 meets all needs. Protection, convenience, comfort and elegance comes together in one bag, providing high security for your laptop. In addition, the lightweight of the bag makes it easy to carry a laptop and documents.

# Zippers

## Space for a laptop 15.6".

---

With the laptop safety in mind, a dedicated compartment has been placed inside the bag. Its task is to separate the computer from the other elements in the bag and to reduce potential damage during a possible fall from a height or other accidental impact.

# Practicality and organization.

High practicality goes hand in hand with good organization.

MODECOM MARK 2

---

## Lightweight.

The bag is lightweight, which makes it easy to transport a laptop and documents.

## Good organization - two compartments

Notebook compartment closed with a zipper, and inside: a security strap, a compartment separating the computer from cables, a large pocket for a mouse or other peripherals.

Second main compartment for documents and all necessary accessories like mouse, tablet etc.

# Laptop safety

Thanks to dedicated compartment and being stiffened all around, the laptop is secured in a best possible way. The strap increases the safety of transporting the device.
