MODECOM SQUID TABLET CASES

INTRODUCTION

MODECOM SQUID is a series made from the highest quality materials cover, which are dedicated to use with multimedia tablets. MODECOM SQUID are perfect combination of use-friendly, lightweight construction with a fashionable and modern design for most demanding users of modern design art.

Each part of MODECOM SQUID construction was designed to ensure maximum safety lever for your devices as well as to provide user with comfortable and pleasant work. It is worth mentioning, innovative tablet mounting system. In the construction of this unique system we used technology of adhesive suction cups. The structure of those suction cups features high coefficient of adhesion to the surface. Thanks to this system you could be sure, that your tablet would be mount in a safe and stable position during use and transport.

MODECOM SQUID TABLET CASES

FOLDED, COMFORTABLE CONSTRUCTION

Thanks to folded construction, MODECOM SQUID covers might be use in a tablet stand function. It provides user with maximum comfort, especially during activities such as: watching movies, reading or browsing the Internet. Inner part of covers is made from soft-touch materials, which also protects tablet's screen against accidental scratches. Moreover, made of the rubberized materials, outer layer of MODECOM SQUID provides its firm grip to hand and absorb an energy in case of accidental fall.

MODECOM SQUID are available in four colors: black, grey, blue and green, and four sizes - dedicated to tablets with: 7 ' 8' (7,85")9,7 ' 10,1" screen size.
