MODECOM HUB 3.0

MODECOM HUB 3.0

HUB 3.0 is an external passive 4-port USB hub. You do not need to worry about too little USB inputs on your PC any longer. With this device you can connect any equipment using the USB port on your computer. **HUB 3.0** enables instant transfer of photos, music and other data to a laptop or desktop.

It allows also to transfer data from various multimedia devices. It makes possible to connect a mouse, keyboard, MP3 player, printer, etc. USB 3.0 ports provides a much faster data transfer than USB 2.0. USB 3.0 is also backward comatible with USB 2.0.

HUB 3.0 does not require installation of drivers, it is enough to use the USB interface. A small LED indicates operation.

MODECOM HUB 3.0
