✓ For Home & Office computer

✓ Four USB ports, two USB 3.0 included

✓ 5.25" for CD/DVD or card reader

III LOGIC
USB and audio ports

5.25" for CD/DVD or card reader

Ventilated part of the panel

**LOGIC**

PSU mounting location

Optimal interior organization

Space for installation of two 120 mm fans in the front and one 120 mm or 80 mm fan on rear panel.

LOGIC

The construction of this PC case is so practical that it will work in any office. Possibility to mount a CD / DVD drive, a card reader in a 5.25" drive bay and a small size - this case has everything you need to build a computer for office work.

HOME & OFFICE

FRONT PANEL

Convenient arrangement of four USB ports, including two USB 3.0 and audio inputs on the front panel.

DECORATIVE ELEMENTS IN ORANGE

POWER button in orange color and a decorative element on the front of the PC case - details that make the appearance of the case more attractive.

Why you should choose Logic Concept J23 case?

- The optimal solution to build a computer for study and work.

- The front and side panels of the case are partially ventilated, which makes it easier to provide air flow for cooling computer components.

- Convenient arrangement of USB and audio ports.

PC case Logic J23

A computer for work and study should be characterized by components properly selected for the tasks set before it. Working in the MS Office environment or in CRM systems does not require high-performance configurations. For this purpose, the Logic J23 PC case was created. This design will work great in most energy-efficient computers with integrated graphics.

Practical solutions to optimize your work also take place here. Convenient access to USB ports (including 2 x USB 3.0), audio/microphone ports and space for a CD/DVD drive or expansion card reader in a 5.25" drive bay - all this adds up to a well-thought-out PC case design.

The front and side panels of the case are partially ventilated, which makes it easier to provide air flow for cooling computer components. On the other hand, mounting the power supply on the top of the case means that the fan of the power supply supports heat transfer to the outside.

For more demanding configurations, you can install additionally fans (not included in case). The case allows you to install two 120 mm fans in the front and one 120 or 80 mm on rear panel.

The whole is complemented by the POWER button and a decorative element that makes the design of the computer more attractive in a vivid orange color.

Specifications:

- **4 x USB slot (2 x USB 3.0 and 2 x USB 2.0)**
- **microphone slot**
- **headphones slot**
- **HD audio slot**
- **Optional fans:**
front: 2 x 120 mm,
rear 1 x 120 mm or 80 mm
- **Mounting places:** external 5.25'' x 1, internal
3.5" x 1, internal 2.5'' SSD x 1
- **Expansion** card x 7
- PSU Slot: on top (max. 200 mm long)

Dimensions of chassis without front panel:
410 x 300 x 180 mm (H x L x W)
Dimensions: 412 x 363 x 207 mm (H x L x W)
Motherboard standard: ATX
Possibility to mount video card up to 325 mm
Maximum CPU cooler height: 150 mm
Available colors: black

EAN: 5903560980070
Part number: AT-J023-10-0000000-0002
Carton size: 456 x 392 x 230 mm
Net/gross weight: 2,0 kg / 2,6 kg
