

Logic K1 Computer Case

INTRODUCTION

Logic Concept presents a new modern **Midi Tower computer case in ATX standard**. All elements of **Logic K1** case were made with attention to detail. The final product has smart design and constitutes perfect protection for advanced computer sets.

Logic K1 Computer Case

ADDITIONAL SLOTS

Out of concern for maximum comfort, all slots that are used in daily work are placed on the top of the front panel. The construction enables connecting all necessary computer accessories very quickly and easily. The case is equipped with three USB slots (including one USB 3.0 slot) and audio slots for connecting various accessories using USB interface to communicate with computer. In addition, the case is equipped with 3.5mm audio slot and microphone slot for connecting headphones for listening to music and making internet calls.
