

LAPTOP BAG

MODECOM PORTO

IT'S HARD TO MAKE A BETTER CHOICE

Every laptop, regardless of brand, class and manufacturer, is valuable. Especially when you have important files and other materials saved in its storage. Frequent transportation of the laptop (not only in crowded places) increases the risk of damage to it. Sure, you can always pack your equipment in any bag you find. But **to be sure of high protection and comfort at the same time, the choice is obvious** - the MODECOM Porto bag. It has everything a good bag should have: optimal weight for minimum fatigue, a shoulder strap and another for a travel bag, protective and reinforced materials around the laptop area, a comfortable and strong handle with a velcro fastening. Everything is complemented by an external zippered pocket, water-resistant material and... a USB port. It's hard to imagine a better choice.

-
- ✓ Comfortable, reinforced and fastened handle.
 - ✓ Space for a 15.6" laptop.
 - ✓ Material: polyester and eco-leather.
 - ✓ Minimalist, elegant design with a decorative element made of eco-leather.
 - ✓ USB port.

-
- ✓ Large main compartment for a laptop and documents.
 - ✓ Two pockets for accessories inside the bag.
 - ✓ Zippers.
 - ✓ Reinforced material around the bag increasing the safety of the laptop with a protective mat.

-
- ✓ Detachable and adjustable shoulder strap.
 - ✓ External pocket closed with a zipper.
 - ✓ Travel bag strap.

MODECOM PORTO

PROTECTIVE MATERIAL

Protecting your laptop is crucial. That's why we used a special material on the inside side part to minimize possible damage to the laptop. Traveling by bus, tram or subway and accidentally hitting the bag against protruding elements will spread the impact force and absorb it to best protect the laptop.

MODECOM PORTO

OPTIMAL SOLUTIONS

You don't have to be an expert to tell at first glance that this is a good product. The strong Velcro-closed handle is wide and fits comfortably in the hand. This works great when the bag is filled with heavy content...

The reinforced material around the bag increases the stiffness of the entire structure, increasing the safety of its contents. This way you can be sure that your expensive laptop is well protected.

All the advantages are complemented by an adjustable shoulder strap, a travel bag strap and a front pocket with a zipper.

It's simply fantastic!

MODECOM PORTO

ALWAYS BE „SMART“

Thanks to a special USB port, you can keep the powerbank in your bag and conveniently connect your smartphone to a power source. Many hours of walking, working or learning will become much easier, while still being able to use your smartphone outdoors.

COMFORT & PROTECTION

A laptop bag doesn't have to be boring. Of course, it should fulfill its basic function - safe transport of the laptop from one place to another, but it can play different roles every day.

In the bag you can carry not only a laptop, but also documents and computer accessories. High versatility translates into high practicality and usability, when all the necessary things are organized in one place.

Interesting design with decorative elements made of eco-leather, make a fashionable and comfortable bag, which is MODECOM Porto.

IN ANY SITUATION

Working at home or in the office? Or you simply need a comfortable, durable and practical laptop bag? MODECOM PORTO is the answer to your needs.

HANDLE

STRONG HANDLE WITH VELCRO. COMFORT AND SAFETY

HANDLE WITH VELCRO

You have probably carried heavy things in a bag many times and more than once the handle "cut" into your hands, causing discomfort.

At MODECOM Porto you will find a wide and reinforced handle fastened with Velcro. Thanks to this design, the weight of a heavy bag is perfectly distributed on the handle, minimizing the effect of "sticking" into the fingers and hand. At the same time, the Velcro allows you to connect both handles for maximum security of the bag's contents.

MODECOM PORTO

QUALITY AND SAFETY

Laptop safety is very important. After all, it is the contents of the bag that are most valuable.

That is why we have used proven and reliable solutions for the safe transport of the bag.

We know that you expect not only quality and interesting design, but also want to be sure that we have made every effort to ensure the best possible durability of the strap or handle.

WATERPROOF POLYESTER

The bag is made of polyester. It is characterized by high durability and quick drying.

Polyester is a material that does not absorb liquids, which means it does not absorb moisture and effectively protects the contents of the bag during light rain.

MODECOM PORTO

DOUBLE-SIDED ZIPPERS

The bag is closed with a double-sided zipper. It is convenient, quick and practical to secure the contents of the bag.

Another advantage of zippers is that they are very easy to use.

Spiral zippers with a metal slider are used.

PRACTICALITY

HIGH
FUNCTIONALITY

PRACTICAL AND SAFE INTERIOR

The interior of the bag is optimally designed for maximum usability. There is plenty of space in the main compartment for a laptop and, for example, A4 documents. Additionally, there are two pockets for accessories (mouse, smartphone). The Velcro strap makes it easier to transport the laptop and increases its safety.

MODECOM PORTO

IN JOURNEY!

A specially placed strap on the back allows you to attach the bag to a larger travel bag. Practical solutions translate into the greatest possible travel comfort.

DOCUMENTS

The front pocket with a zipper is perfect place for A4 documents, catalogues, a notebook or a book calendar. Always at hand and in a conveniently accessible place.

MODECOM PORTO

LAPTOP 15,6"

Space for a 15.6" laptop. And there is space for documents and other necessary accessories.

MODECOM PORTO
