MODECOM OBERON PRO

MODECOM

MODECOM OBERON PRO

MODECOM OBERON PRO was designed for those who like spacious and functional interiors combined with nice and modern design. Well worked-out construction of this gaming case interior combined with perfectly developed details of the front panel make up for a flagship product among newly launched MODECOM computer cases. OBERON PRO BLACK stands out thanks to its elegant and minimalistic design highlighted with classic black colour while OBERON PRO WHITE is made in classic but modern white colour. **The OBERON PRO version is the most advanced construction based on the experience of earlier versions of the OBERON series. MODECOM OBERON PRO was made as a response to the expectations of the users regarding the functional computer case.**

Key features

- ✓ construction for demanding gamers
- ✓ multiple organisation solutions
- ✓ modified interior with long PSU tunnel – 240 mm
- ✓ toolless design for an easy PCI / PCIe installation
- ✓ rubber flanges for cable entry holes
- ✓ modern design of the front panel
- ✓ functional interior with a tunnel for power supply unit and HDD 3.5" hard drives
- ✓ three dedicated drive bays for SSD 2.5" hard drives
- ✓ HDD 3.5" hard drives tool-free mounting
- ✓ extension cards tool-free mounting
- ✓ two pre-mounted black 120 mm fans
- ✓ anti-dust filters
- ✓ space for video cards up to 395 mm
- ✓ possibility of mounting CPU cooling up to 163 mm

Computer case

Cooling system

OBERON PRO has two pre-mounted black 120 mm fans (front and back), which is a great solution preventing the components from blocking the airflow. Maximum height of CPU cooler is 163 mm.

Space organisation system

OBERON PRO enables extension cards tool-free mounting, and convenient wiring organisation system makes it easy to keep the interior well-organised. Space for video card is extended up to 395 mm.

Functional and modern design

OBERON PRO lets you organise its interior in whatever way you like according to your own preferences with the use of high-end components and keep the good airflow at the same time. The interior will stay clean thanks to easily dismantlable filters: magnetic filter on the top, on the front and on the bottom under the power supply unit.

SSD/HDD drive bays

You can mount three SSD 2.5" and two HDD 3.5" hard drives tool-free in OBERON PRO case. Power supply unit and 3.5" hard drives are placed in a tunnel on the bottom of the case. SSD hard drives are mounted on both sides, which makes it easy to keep the good airflow.

Computer case

Practical solutions

The housing has rubber flanges for cable entry holes. The rubber sealing ring is designed to protect the cables from damage.

Toolless design

toolless design for an easy PCI / PCIe installation. This allows you to re-arrange the components and restore the casing to its original appearance.

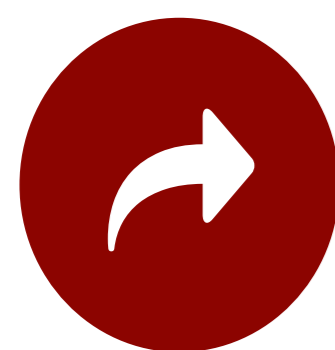

Long PSU tunnel

The interior has a large space (240 mm) for the power supply. This allows the installation of long power supplies and easy wiring arrangement. Now it is even easier to install the power supply without modular cabling.

Additional information

MODECOM OBERON PRO

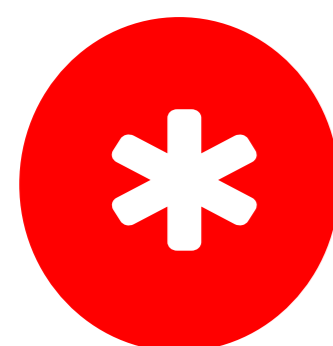

Long video cards

Mount long video cards up to 395 mm inside.

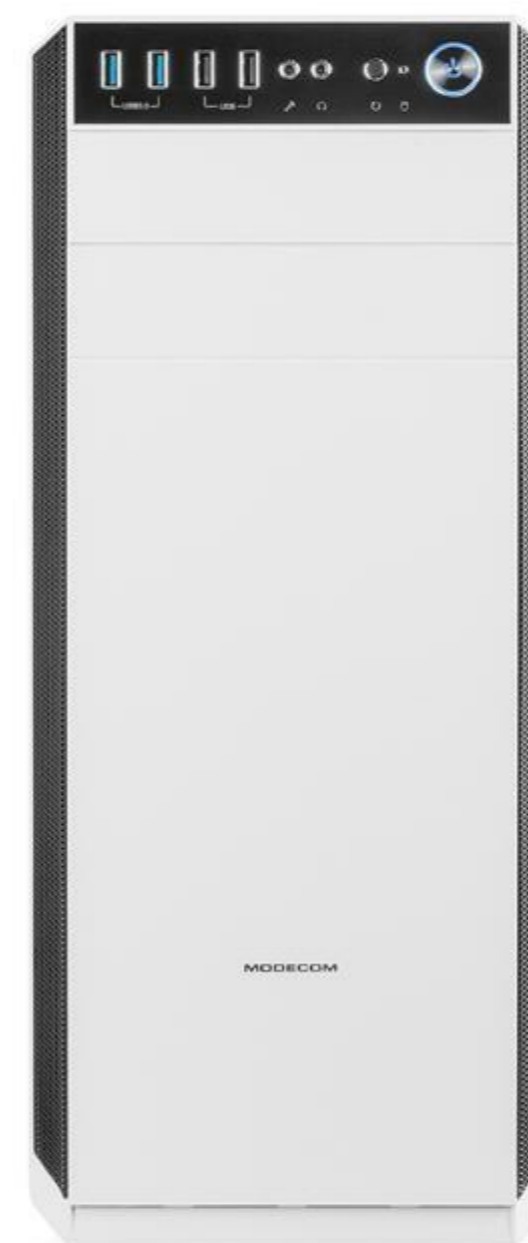

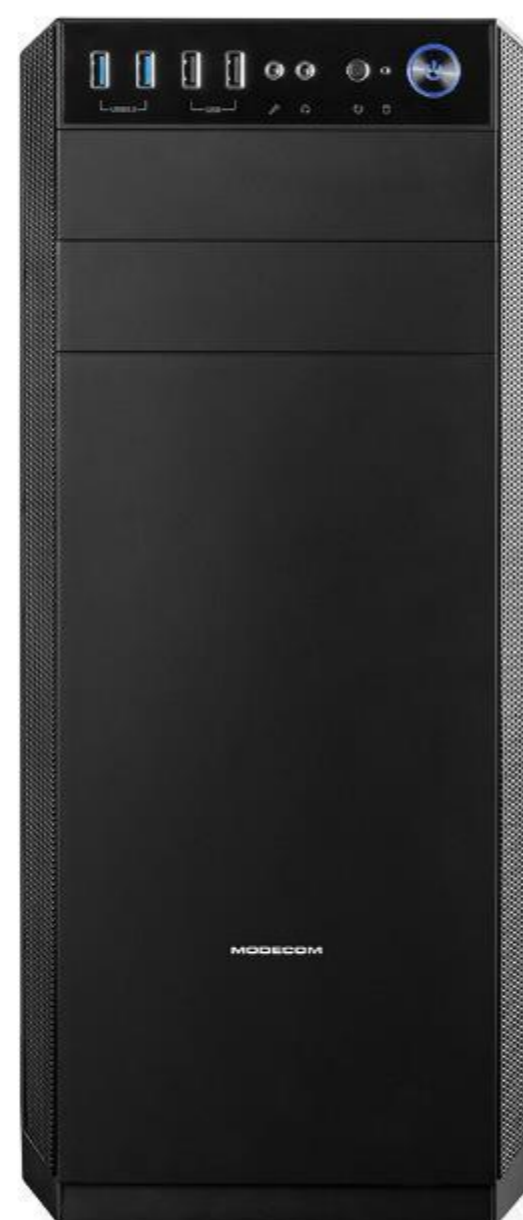

Solid and durable frame

The frame of the case is made of high-quality black-painted SPCC steel of 0.7 mm thickness.

CPU cooler

Possibility of mounting CPU cooler up to 163 mm height.

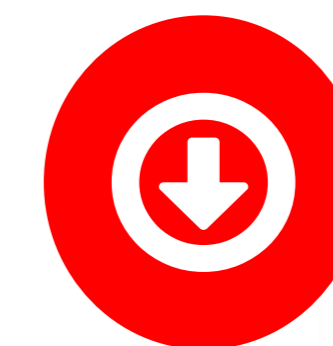

Power supply unit mounting

For better airflow, the power supply unit is mounted on the bottom of the case in a dedicated tunnel.

Side panel

OBERON PRO is equipped with classic side panel

Anti-dust filters

Filters placed directly under the power supply unit, on the front panel and on the top panel will prevent the dust from getting inside the case.

Technical specifications

MODECOM OBERON PRO

TECHNICAL SPECIFICATIONS	MODECOM OBERON PRO
Type	MIDI TOWER
Recommended for	Home / office
Dimensions:	455*205*475 mm (L*W*H)
Motherboard standard	ATX/ Micro ATX/ ITX
Ports on the front/top panel:	
• USB 3.0	2
• USB 2.0	2
• Microphone output	YES
• Earphones input	YES / HD AUDIO
• SD/TF card slot	NO
Tool-free mounting	YES
Drive bays:	
• external 5.25"	1
• external 3.5"	0
• internal HDD 3.5"	2
• internal SSD 2.5"	3
Maximum number of fans	5
Number of pre-mounted fans:	
• front	1 x 120 mm
• back	1 x 120 mm
• side	0
• top	0
Fan(s) velocity control	NO
Place for extension cards	7
