- ✓ high-quality construction
- ✓ long range thanks to wireless radio technology

Scissor mechanism

The MODECOM MC-TPK1 keyboard is based on a scissor-type mechanism. The scissor mechanism owes its name to the movable and flexible handles, the shape of which resembles scissors. The key attached to the membrane with "scissor" handle, makes typing not only comfortable, but simply enjoyable. The keyboard user will have the impression that their fingers are flowing at an even pace on the soft and pleasant to touch keys. Scissor-type keys react very quickly to pressure. They also make a pleasant, very soft sound. This type of mechanism is commonly used in laptops.

High comfort

Wireless MC-TPK1 keyboard is a perfect solution for a living room or a mobile office. In spite of its small size and light-weight, the keyboard is equipped with all features that are necessary for convenient typing and computer use. MC-TPK1 keyboard is equipped with full set of keys and large integrated multi-touch trackpad. Thanks to these features, typing, swiping, zooming-in and clicking is easy and convenient. Multimedia functions makes it easy to surf the Internet, access your favourite video, image and music files.

Ergonomic and comfortable MODECOM MC-TPK1 keyboard will be a great choice for any office work and home entertainment.

KEYBOARD WITH TOUCHPAD

Wireless technology

The large range of wireless technology allows you to work with devices up to 7 meters (depending on the conditions).

Use it as you wish

Touchpad may be disabled by pressing Fn and space key simultaneously.

Touchpad

Built-in panel with a multi-touch function, thanks to which the use of the Internet or the functions of multimedia programs is very simple and intuitive. To ensure maximum comfort of work, the touchpad has large surface with dimensions: 93.2 x 80.4 mm. It can be used in two ways: as a computer mouse or in a function similar to the touch panel known from the screens of mobile devices.

Work in the highest comfort

Function keys

Function keys (from F1 to F12) enable e.g. using multimedia player, activating search tool function, switching between main display and external display.

Batteries

The keyboard works on two easily replaceable AAA DC 1.5V batteries.

Scissor mechanism

Low-profile keys ensure comfortable and pleasant work.

Versatile use

MODECOM MC-TPK1 is not an ordinary keyboard, or only a piece of computer equipment. Thanks to its features, you can use it to use various functions and entertainment applications. The keyboard works with a whole range of products, e.g. PCs, notebooks, tablets, mini PC sticks, mini PCs, Nuc PCs, or SmartTVs.

Office

Using the computer for everyday work is extremely convenient. At work, in the office or at home.

SmartTV

Connect your keyboard to a TV set and enjoy all Smart TV functions in your living room.

Miejsce

This keyboard may be employed in places with limited space.

Hotel

This product is perfect for business trip and a hotel room.

The product is easy for use and transportation

MODECOM MC-TPK1 keyboard is a "plug and play" type of device. After plugging nano receiver to USB slot, you only have to wait a few seconds for the product to be ready for work. Receiver storage is located next to the battery. The storage enables transporting the receiver together with the keyboard.

Long range thanks to wireless radio technology.

MODECOM MC-TPK1 keyboard operates basing on wireless radio technology operating at 2.4 GHz frequency. Radio technology provides reliable connection and long range up to 7 metres. Accordingly, you will be able to move around the room and move with your work without limits.
