Key features

MODECOM VOLCANO LANPARTY PLUS RGB

✓ Unique design

The keyboard design allows the user to change mechanical switches independently (Outemu blue and brown switches). Modifications to the popular predecessor also resulted in a design that even better protects switches against dust and external contaminants.

✓ Keys

Mechanical keyboard (blue switch), 87 keys, Windows key lock, multimedia hotkeys.

✓ Special features

Full anti-ghosting, red backlight, anti-slip rubber feet.

✓ Specification

180-long braided cable, gold-plated connector.

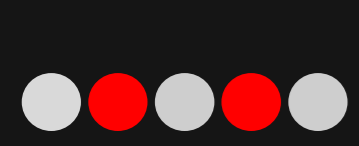

✓ LED RGB backlight

The **keyboard** can be highlighted in any color from the full RGB 16,7 m color palette. Keyboard has a driver for controlling the backlight available for download from the manufacturer's website.

Element	Feature	Advantage	Benefit
Keys	Mechanical, fully removable Outemu blue and brown switches	Each key is equipped with separate mechanism increasing the accuracy, precision and convenience in use.	Mechanical keys are in demand among gamers because of their instant response and highest quality.
Anti-ghosting	Full anti-ghosting	Full anti-ghosting lets you press all keys at the same time.	What it means is that even the most demanding game in terms of complex commands can be enjoyed in full thanks to full anti-ghosting.
Rubber feet	Anti-slip	Anti-slip rubber feet stabilize the keyboard during the most exciting battle.	The game won't be suddenly stopped because of the unexpected keyboard slip.
Backlight	RGB 16,7 mln color	The keyboard can be highlighted in any color from the full RGB color palette.	Adjust the keyboard and its backlight to your preferences.

Major features of mechanical keyboard

Mechanical keyboard is a perfect solution for professional gamers. In mechanical keyboards, each key is equipped with separate mechanism increasing response time, accuracy, precision and convenience in use. MODECOM VOLCANO LANPARTY PLUS RGB keyboard is equipped with two types of switches: the first type is blue, which provide exceptional sensitivity, comfort of work and characteristic sound when pressing keys. The other is a brown switch, which is clearly quieter than the blue switches and suits great for games and work.

MODECOM VOLCANO LANPARTY PLUS RGB

Full anti-ghosting

The majority of keyboards can register only a few commands actuated by your fingers. Such limitation prevents you from actuating some commands requiring more keys to be pressed in a game. Consequently, it limits the entertainment and influences your results. MODECOM VOLCANO LANPARTY PLUS RGB keyboard is equipped with full anti-ghosting function. This means that you can press any number of keys you want and they will all be registered. MODECOM VOLCANO LANPARTY PLUS RGB keyboard is professional tournament equipment.
