OUTEMU BOX

Shift

OUTEMU BOX SWITCHES – EASY TO
REPLACE ANY SWITCH

HAMMER 2

MECHANICAL KEYBOARD

MODECOM Volcano Hammer 2 is a full-size keyboard that is a great choice for casual gamers and people who want to have a keyboard with a numeric block, RGB backlight and replaceable Outemu switches at home.

Its biggest advantage are replaceable Outemu Box switches, so you can freely configure the keyboard for yourself and your needs. Although it is available by default in two versions - Blue (with a pleasant and distinct click) and Brown (a switch that is quieter than Blue), you can freely replace any switch. Nothing prevents you from replacing the WSAD keys with switches other than the default*.

MODECOM Volcano Hammer 2 has been designed not only for gamers, although they will find here a lot of useful functions, such as full anti-ghosting, Windows key lock or dedicated software. In addition, the effective RGB LED backlight emphasizes its gaming character. Nevertheless, the keyboard also works great as a writing or learning tool.

* Additional switches need to be purchased separately,, they are not included in addition to the keyboard

DESIGN

The full-size keyboard with a numeric section is a design aimed not only at gamers. Keyboard is a perfect tool for work and study. Any tasks performed in the MS Office environment are much easier to do, especially when it comes to working with numbers.

However, gamers will also appreciate the numeric section. Some of us are used to working with a full-sized keyboard, and in addition, the ability to use keys in numeric section in some games is an unquestionable advantage during multimedia entertainment.

HAMMER 2

MODECOM Volcano Hammer 2 combines the best features of classic and modern. The classic, full-size keyboard implements modern and practical solutions to obtain the best gaming experience. Replaceable Outemu Box switches, effective RGB LED backlight, dedicated software, full anti-ghosting and Windows key lock, all this contributes to the modern design and its usefulness every day while playing or working on a computer.

Meet MODECOM Volcano Hammer 2

Enter the world of gaming and forget about the reality that surrounds you. Use the latest technological solutions and have fun. Or take advantage of its best features and spend your time comfortably while working or studying.

It's your choice, we only gave you the tool.

10 REASONS WHY YOU SHOULD HAVE IT

01. VERSATILITY

The full-size keyboard is highly versatile. If you often work with numbers or type, a keypad with a numeric section will be an excellent choice.

02. LONGEVITY

Outemu Blue or Outemu Brown switches, indelible keys and high-quality materials - the keyboard will last for years.

03. DESIGN

RGB LED backlight 16.7 million colors allows you to define the appropriate color under your own preferences. Subtle backlight, or maybe a full range of colors? It is only your choice.

04. REPLACEABLE SWITCHES

All switches are freely replaceable. Thanks to this, you can adjust the keyboard to your own needs.

05. METAL TOP HOUSING

The metal top of the keyboard means greater stability of operation - the structure is stiffer.

10 REASONS WHY YOU SHOULD HAVE IT

06. WORK OR PLAY

The keyboard is universal, but has a gaming character. It will work as a tool for playing, learning and working.

07. SOFTWARE

The software can be downloaded from the manufacturer's website - www.modecom.com

Thanks to it, you can adjust the keyboard to your own needs.

08. CERTAINTY

Thanks to the rubberized, non-slip feet, the keyboard lies firmly on the desk - it does not move even during intense gaming.

09. LOTS OF FUNCTIONS

Windows key lock and full Anti-Ghosting are useful functions for gaming. First of all, you will not accidentally go to the desktop and you will not lock the keys while playing.

10. MASSIVE AND BEAUTIFUL

There's no accounting for taste, however MODECOM Volcano Hammer 2 has its charm. In addition, it is a massive keyboard, which will be appreciated by many gamers.

REPLACEABLE OUTEMU BOX SWITCHES

Each switch can be removed and replaced with another.

Thanks to this, you can freely configure the keyboard and adapt it to your own needs. Do you want the most frequently used gaming switches to have a blue switch and the rest to a brown switch? Yes - it is possible and you can do it yourself in a simple steps.

You don't need any special tools for this, and changing the switches is child's play.

Gaming and long-lasting character

Outemu Box switches (Blue or Brown) with a lifetime of 50 million clicks allow you to reliably enjoy virtual entertainment. Due to their design, they ensure the longevity of the gaming keyboard. Additionally, the possibility of independent replacement of each switch separately increases its service life.

The use of high-quality materials and components, good fitting of every detail is not only a pleasure to use, but also the certainty that MODECOM Volcano Hammer 2 will be a keyboard for years.

CHOOSE WISELY, CHOOSE AS YOU LIKE

The keyboard is available in two versions: with Outemu Blue Box or Outemu Brown Box switches.

Outemu Blue will be appreciated primarily by gamers - they most often choose the clear and pleasant click of the blue switch.

The brown switch, on the other hand, will be perfect in a room where users need silence. This type of switch will be great not only for gaming, but also for hours of typing.

01. WINDOWS KEY LOCK

Windows key lock prevents accidental pressing of the Windows key. Thanks to it, you will never see a situation where you will suddenly see your... desktop during the most exciting gaming situation. Remember that you decide when to end the game.

02. SOFTWARE

Thanks to the software you can record macros and program the keyboard backlight in any configuration. With these features, you can say the keyboard is REALLY YOURS.

03. FULL ANTI-GHOSTING

Most keyboards available on the market can detect just a few keys at a time. On keyboards with this restriction, gamers will not be able to use more key combinations that are required in many games. As a consequence, it limits the quality of entertainment and affects the results achieved in games. The keyboard is equipped with an advanced full anti-ghosting function, which gives the user unlimited freedom - with no limit to the number of simultaneously pressed keys. Thanks to it the keyboard is professional tournament equipment.

04. RGB LED

The keyboard is equipped with fully adjustable LED backlight in full RGB palette. You can create your own profiles in which only selected keys will be illuminated (adjusted to a specific game or to your own preferences).

05. RUBBER, NON-SLIP FEET

We have placed four non-slip feet, thanks to which the keyboard will be stable even during the most exciting games.

06. DUAL INJECTION

The keyboard uses high-quality double-injection keycaps. An overlay made with this method consists of two separate elements: external (translucent) and internal with an overprint. Thanks to this method, the print will not wear off even as a result of intensive use.
