THE LEGEND RETURNS IN ITS BEAUTIFUL EDITION

MODECOM VOLCANO LANPARTY is a keyboard that has been proven on the market for years, which has gained recognition not only of gamers, but also can be proud of many valuable awards. High-quality workmanship and small size are just some of the features for which the product has gained such popularity. Now it's even better with the pudding switches.

"The quality of the device is good, the backlight allows for many interesting combinations, and the buttons work quite soft, thanks to which the migration from the membrane will be easier"

MODECOM VOLCANO LANPARTY RGB review

The leader of tournament models PC Format 1/2018

MODECOM VOLCANO LANPARTY RGB review

"It is a very good choice if someone is looking for a good, short keyboard for gaming,,

MODECOM VOLCANO LANPARTY RGB review

Awards granted to the MODECOM VOLCANO LANPARTY RGB BT version:

BEAUTY OF PUDDING

The amazing appearance of the keyboard obtained thanks to the pudding keycaps reflects the beauty of gaming. RGB backlight even "spills" all over the keyboard thanks to translucent material. The best effect is obtained after dark - this is when the keyboard most often impresses with its appearance. If you like RGB LED backlight, the pudding keycaps will meet your expectations.

THE MATERIAL MAKES THE DIFFERENCE

The keycaps up to 2/3 of their height are made of translucent material. Thanks to this design, the RGB LED backlight gains strength - the translucent material distributes the colors evenly over the keyboard. If you value aesthetics - pudding keycaps will be an excellent choice on a gaming desk.

PUDDING

Pudding keycaps give the keyboard a unique look. They emphasize the appearance of the gaming stand in the best possible way.

SWITCHES

Outemu switches (brown or blue) lifetime 50 mln clicks. The blue switches are great for gaming, while the brown switches will be perfect for typing and working.

DUAL INJECTION

The caps are made in the dual-injection technology. Wear-resistant and easy to replace or clean.

BACKLIGHT

The backlight color can be freely configured, both from the keyboard and software.

OUTEMU

OUTEMU MECHANICAL SWITCHES

LANPARTY RGB

Pudding edition

MECHANICAL KEYBOARD

MODECOM VOLCANO LANPARTY RGB Pudding Edition is a gaming keyboard designed for all gamers looking for high-quality equipment that they can rely on during many hours of sessions in the virtual world of computer games.

In the compact design of MODECOM VOLCANO LANPARTY RGB Pudding Edition, we have used a whole range of advanced functions that will be useful when playing games that require tactical skills. The small, tournament-size keyboard (TKL) also means more room on the desk for the mouse.

What's more - the beautiful appearance of the pudding keycaps emphasizes the gaming purpose of the keyboard.

DESIGN

The keyboard in the TKL format without the numeric section, is a design aimed strictly at gamers.

The smaller keyboard format gives the mouse more space on the desk, allowing it to move freely, even during intense gaming.

The TKL format is so universal that it will also work well while writing and surfing the Internet.

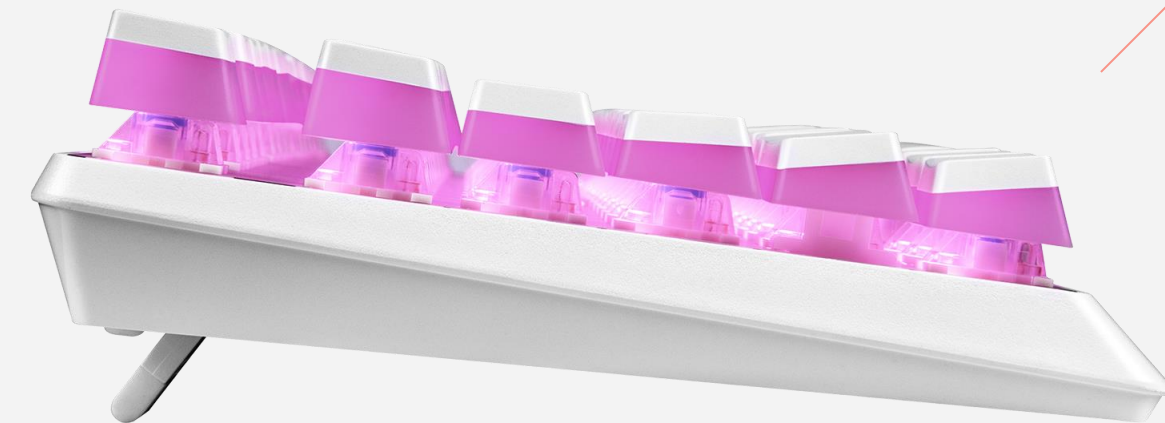

MODECOM VOLCANO LANPARTY RGB Pudding Edition

MODECOM Volcano Lanparty RGB Pudding Edition is a tournament mechanical keyboard designed for gamers, which offers optimal solutions for the greatest pleasure of gaming.

There are many advantages to having it - mechanical switches, TKL size, pudding keycaps and RGB LED backlight are just some of its attributes.

Meet MODECOM Volcano Lanparty RGB Pudding Edition

Enter the world of gaming and forget about the reality that surrounds you. Use the latest technological solutions and have fun. Or take advantage of its best features and spend your time comfortably while working or studying.

It's your choice, we only gave you the tool.

10 REASONS WHY YOU SHOULD HAVE IT

01. **CONVENIENCE**

The small size of the TKL keyboard means higher ergonomics. Wrists and hands are less tired, you can type or play the keyboard for much longer without unpleasant discomfort. There is also more space for the mouse.

02. **LONGEVITY**

Outemu Blue or Outemu Brown switches, indelible keys and high-quality materials - the keyboard will last for years.

03. **PUDDING**

RGB LED backlight of 16.7 million colors allows you to define the appropriate color under your own preferences. Delicate backlight, or maybe a full range of colors? It is only your choice. Plus beautiful pudding keycaps. This keyboard is amazing!

04. **QUALITY**

The use of high-class materials enhances the pleasure of communing with the product.

05. **ALUMINIUM**

Aluminium top of keyboard.

10 REASONS WHY YOU SHOULD HAVE IT

06. **WORK OR PLAY**

The keyboard is universal, but has a gaming character. It will work as a tool for playing, learning and working.

07. **SOFTWARE**

The software can be downloaded from the manufacturer's website - www.modecom.com
Thanks to it, you can adjust the keyboard to your own needs.

08. **CERTAINTY**

Thanks to the non-slip feet, the keyboard lies firmly on the desk - it does not move even during intense gaming.

09. **LOTS OF FUNCTIONS**

Windows key lock and full Anti-Ghosting are useful functions for gaming. First of all, you will not accidentally go to the desktop and you will not lock the keys while playing.

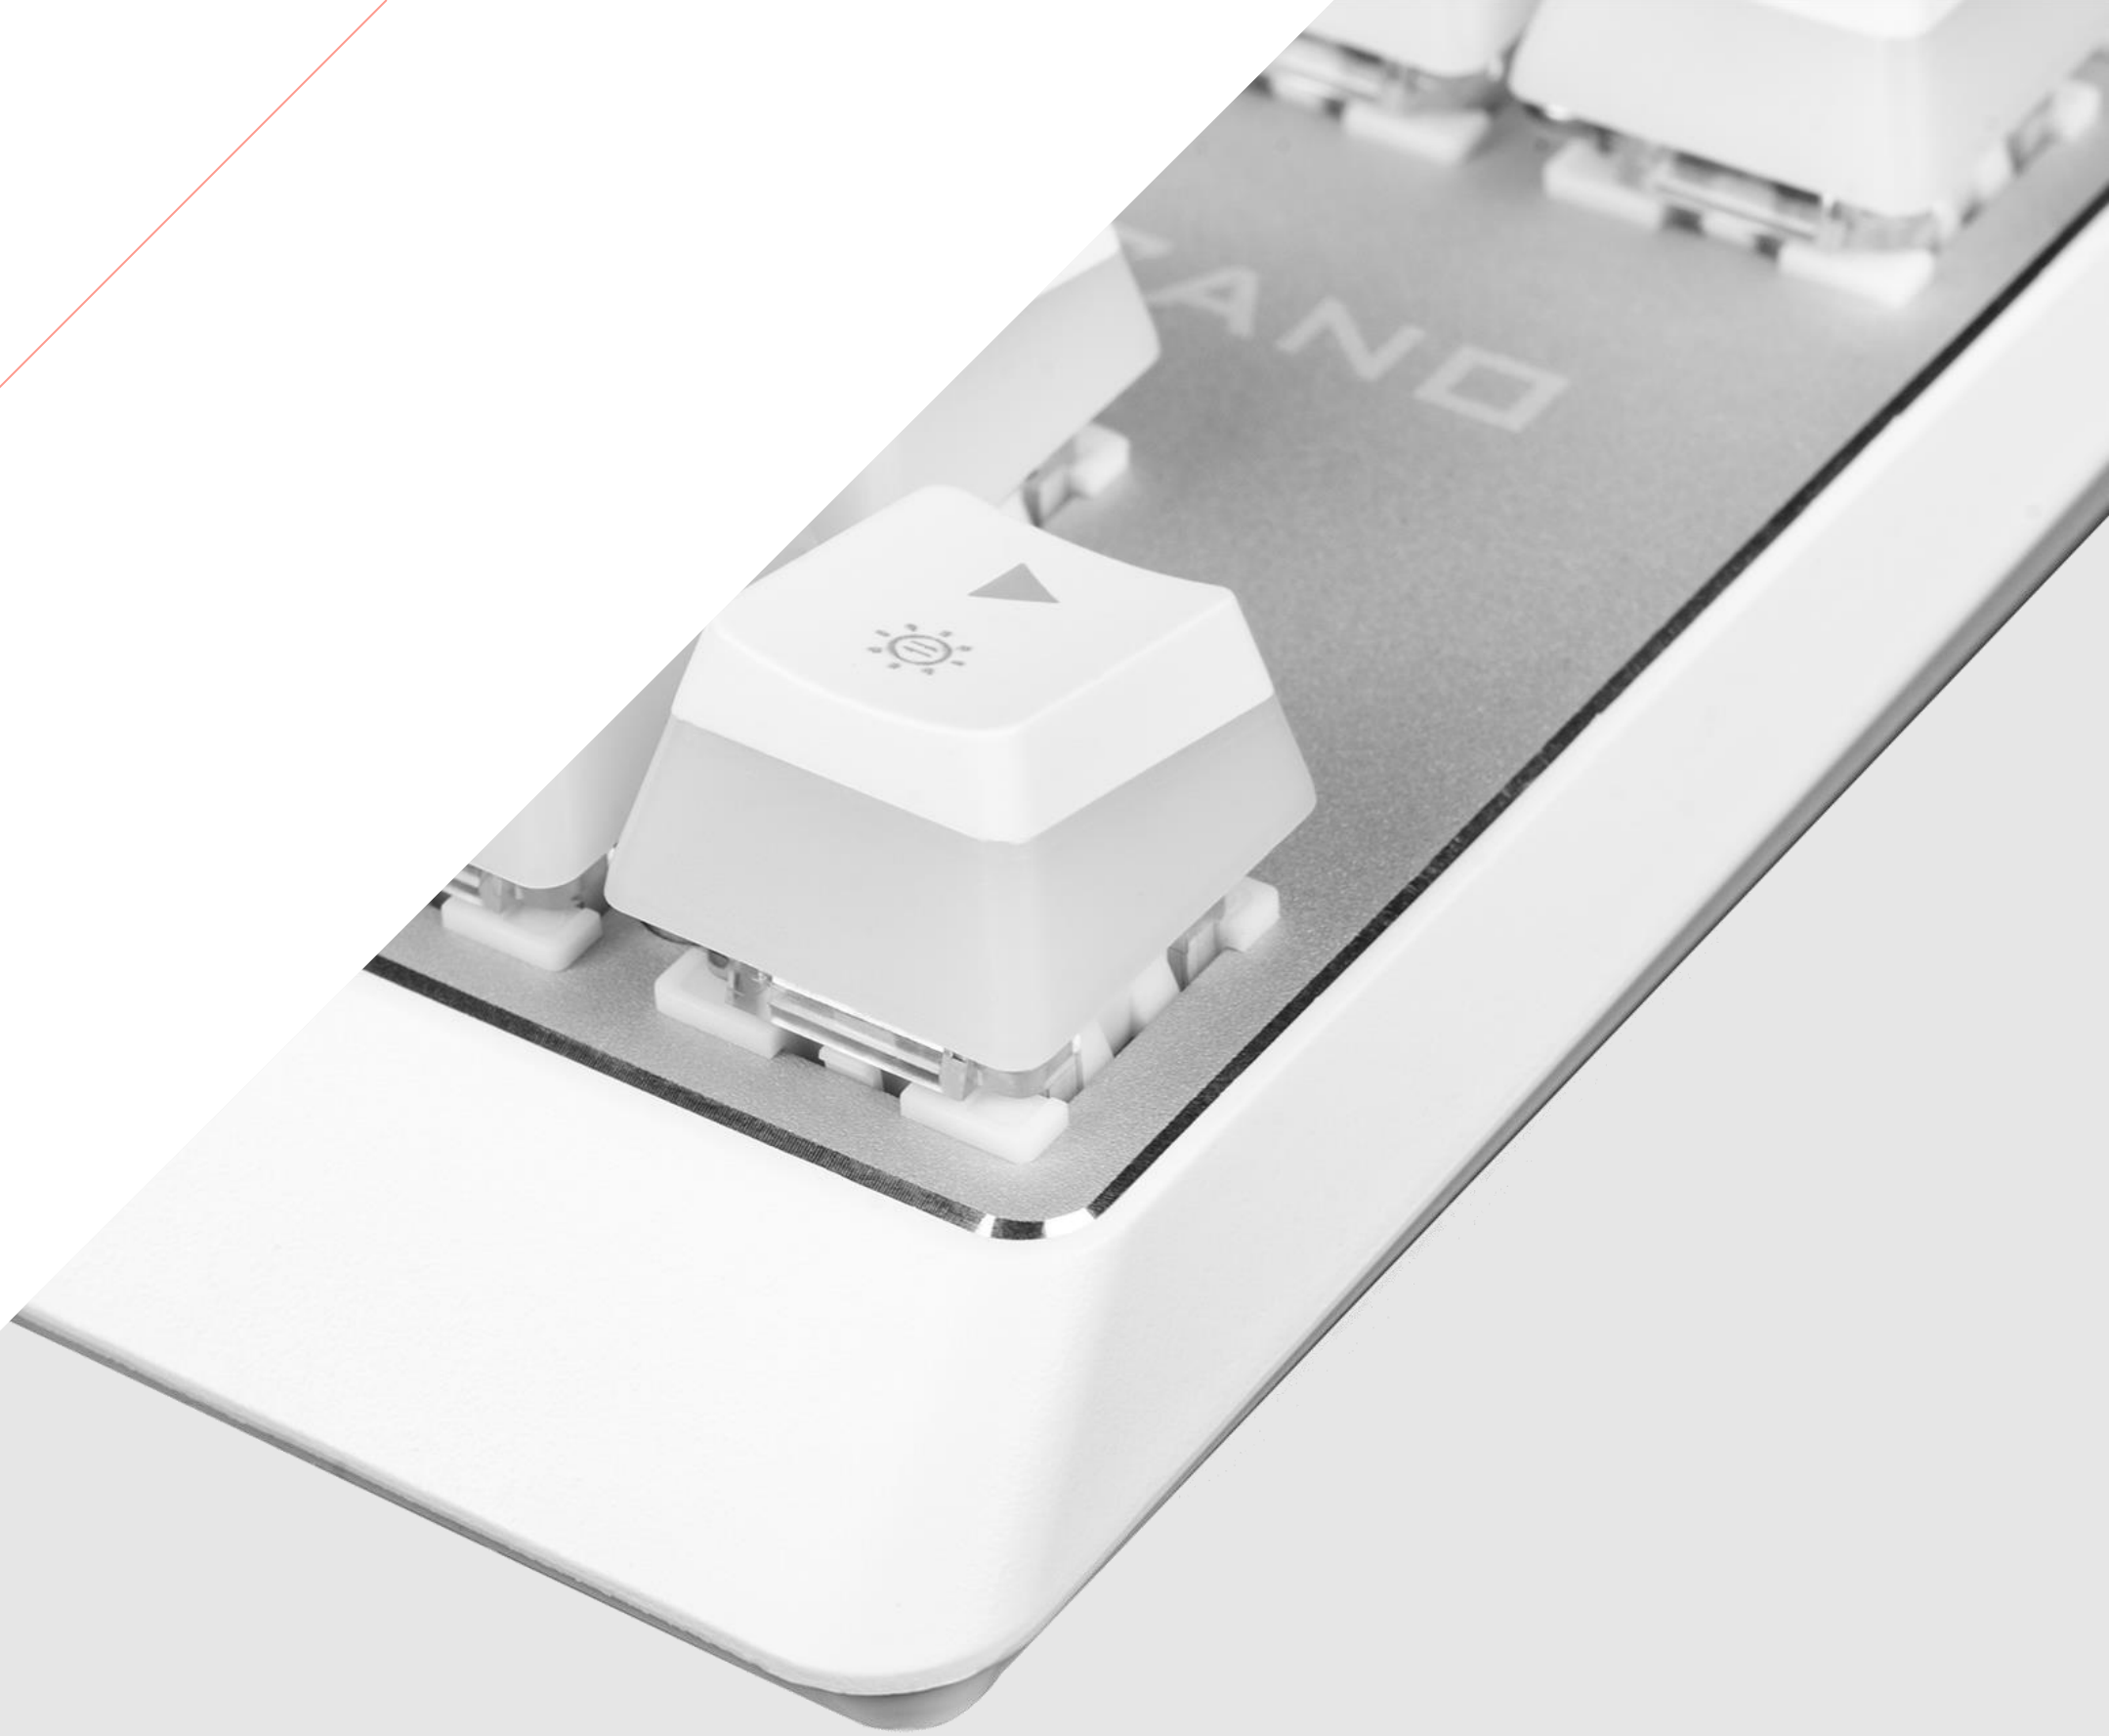

10. **MEET LEGEND**

Keyboards from the MODECOM Lanparty series are a living legend - this model has been successfully and appreciated for years on the market in various configurations.

ALUMINIUM

The upper part of the MODECOM LANPARTY RGB Pudding Edition is made of high-quality aluminum, which stabilizes the keyboard structure and gives it a very attractive appearance.

Gaming and long-lasting character

Outemu switches (Blue or Brown) with a lifetime of 50 million clicks allow you to reliably enjoy computer games. Due to their design, they ensure the longevity of the gaming keyboard.

The use of high-quality materials and components, the perfect fit of every detail is not only a pleasure to use, but also the certainty that MODECOM Volcano Lanparty RGB Pudding Edition will be a keyboard for years.

NON-SLIP FEET

On the bottom of the keyboard, we have placed four non-slip feet, thanks to which the keyboard will be stable even during the most exciting game.

It is possible to adjust the keyboard tilt in very easy way.

01. WINDOWS KEY LOCK

Windows key lock prevents accidental pressing of the Windows key. Thanks to it, you will never see a situation where you will suddenly see your... desktop during the most exciting gaming situation. Remember that you decide when to end the game.

02. SOFTWARE

Thanks to the software you can record macros and program the keyboard backlight in any configuration. With these features, you can say the keyboard is REALLY YOURS.

03. FULL ANTI-GHOSTING

Most keyboards available on the market can detect just a few keys at a time. On keyboards with this restriction, gamers will not be able to use more key combinations that are required in many games. As a consequence, it limits the quality of entertainment and affects the results achieved in games. The keyboard is equipped with an advanced full anti-ghosting function, which gives the user unlimited freedom - with no limit to the number of simultaneously pressed keys. Thanks to it the keyboard is professional tournament equipment.

04. RGB LED AND PUDDING

The keyboard is equipped with fully adjustable LED backlight in full RGB palette. You can create your own profiles in which only selected keys will be illuminated (adjusted to a specific game or to your own preferences). The backlight looks even better with pudding keycaps.

05. NON-SLIP FEET

We have placed four non-slip feet, thanks to which the keyboard will be stable even during the most exciting games.

06. DUAL INJECTION

The keyboard uses high-quality double-injection keycaps. An overlay made with this method consists of two separate elements: external (translucent) and internal with an overprint. Thanks to this method, the print will not wear off even as a result of intensive use.
