LANPARTY RGB

MECHANICAL KEYBOARD

MODECOM VOLCANO LANPARTY RGB is an offer of an advanced keyboard, designed for gamers looking for high quality hardware, which they can rely on during long hours of sessions in the virtual world of computer games. In a compact design of MODECOM VOLCANO LANPARTY RGB we used a number of advanced features that come in handy while playing the games requiring tactical skills.

DESIGN

The keyboard in TKL size, without the numeric section, is a design aimed strictly at players. The smaller keyboard format gives the mouse more space on the desk, allowing it to move freely, even during intense gaming.

The TKL size is also so universal that it will also work well while writing and surfing the Internet.

DESIGN

MODECOM Volcano Lanparty RGB keyboard shows the nature of gaming. Classic, but at the same time fashionable design perfectly complements the gamer's position. Now in black or white colors!

LANPARTY RGB

MODECOM Volcano Lanparty RGB is a tournament mechanical keyboard designed for gamers, which offers optimal solutions for the greatest pleasure of playing.

There are many advantages of having it - outemu switches, RGB LED backlight, TKL size are only some of its attributes.

Meet MODECOM Volcano Lanparty RGB

Enter the world of gaming and forget about the reality that surrounds you. Use the latest technological solutions and have fun. Or take advantage of its best features and spend your time comfortably while working or studying.

It's your choice, we only gave you the tool.

10 REASONS WHY YOU SHOULD HAVE IT

01. CONVENIENCE

The small size of the TKL keyboard means higher ergonomics. Wrists and hands are less tired, you can type or play the keyboard for much longer without unpleasant discomfort. There is also more space for the mouse.

02. LONGEVITY

Outemu Blue or Outemu Brown switches, indelible keys and high-quality materials - the keyboard will last for years.

03. DESIGN

RGB LED backlight 16.7 million colors allows you to define the appropriate color under your own preferences. Subtle backlight, or maybe a full range of colors? It is only your choice.

04. QUALITY

The use of high-class materials ensures the pleasure of using it.

05. ALUMINIUM

The upper part of MODECOM VOLCANO LANPARTY RGB keyboard case is covered with the layer made of high-quality aluminum, which stabilizes the structure of the keyboard and gives it a very attractive appearance.

10 POWODÓW DLA KTÓRYCH WARTO JĄ MIEĆ

06. WORK OR PLAY

The keyboard is designed for gamers, but it will also work well as a fun, study and work tool.

07. SOFTWARE

The software can be downloaded from the official website - www.modecom.com

Thanks to it, you can adjust the keyboard to your own needs.

08. CERTAINTY

Thanks to the rubberized, non-slip feet, the keyboard lies firmly on the desk - it does not move even during intense gaming.

09. LOTS OF FUNCTIONS

Windows key lock and full Anti-Ghosting are useful functions for gaming. First of all, you will not accidentally go to the desktop and you will not lock the keys while playing.

10. MEET LEGEND

Keyboards from the MODECOM Lanparty series are a living legend - this model has been successfully and appreciated for years on the market in various configurations.

ALUMINIUM

The upper part of MODECOM VOLCANO LANPARTY RGB keyboard case is covered with the layer made of high-quality aluminum, which stabilizes the structure of the keyboard and gives it a very attractive appearance.

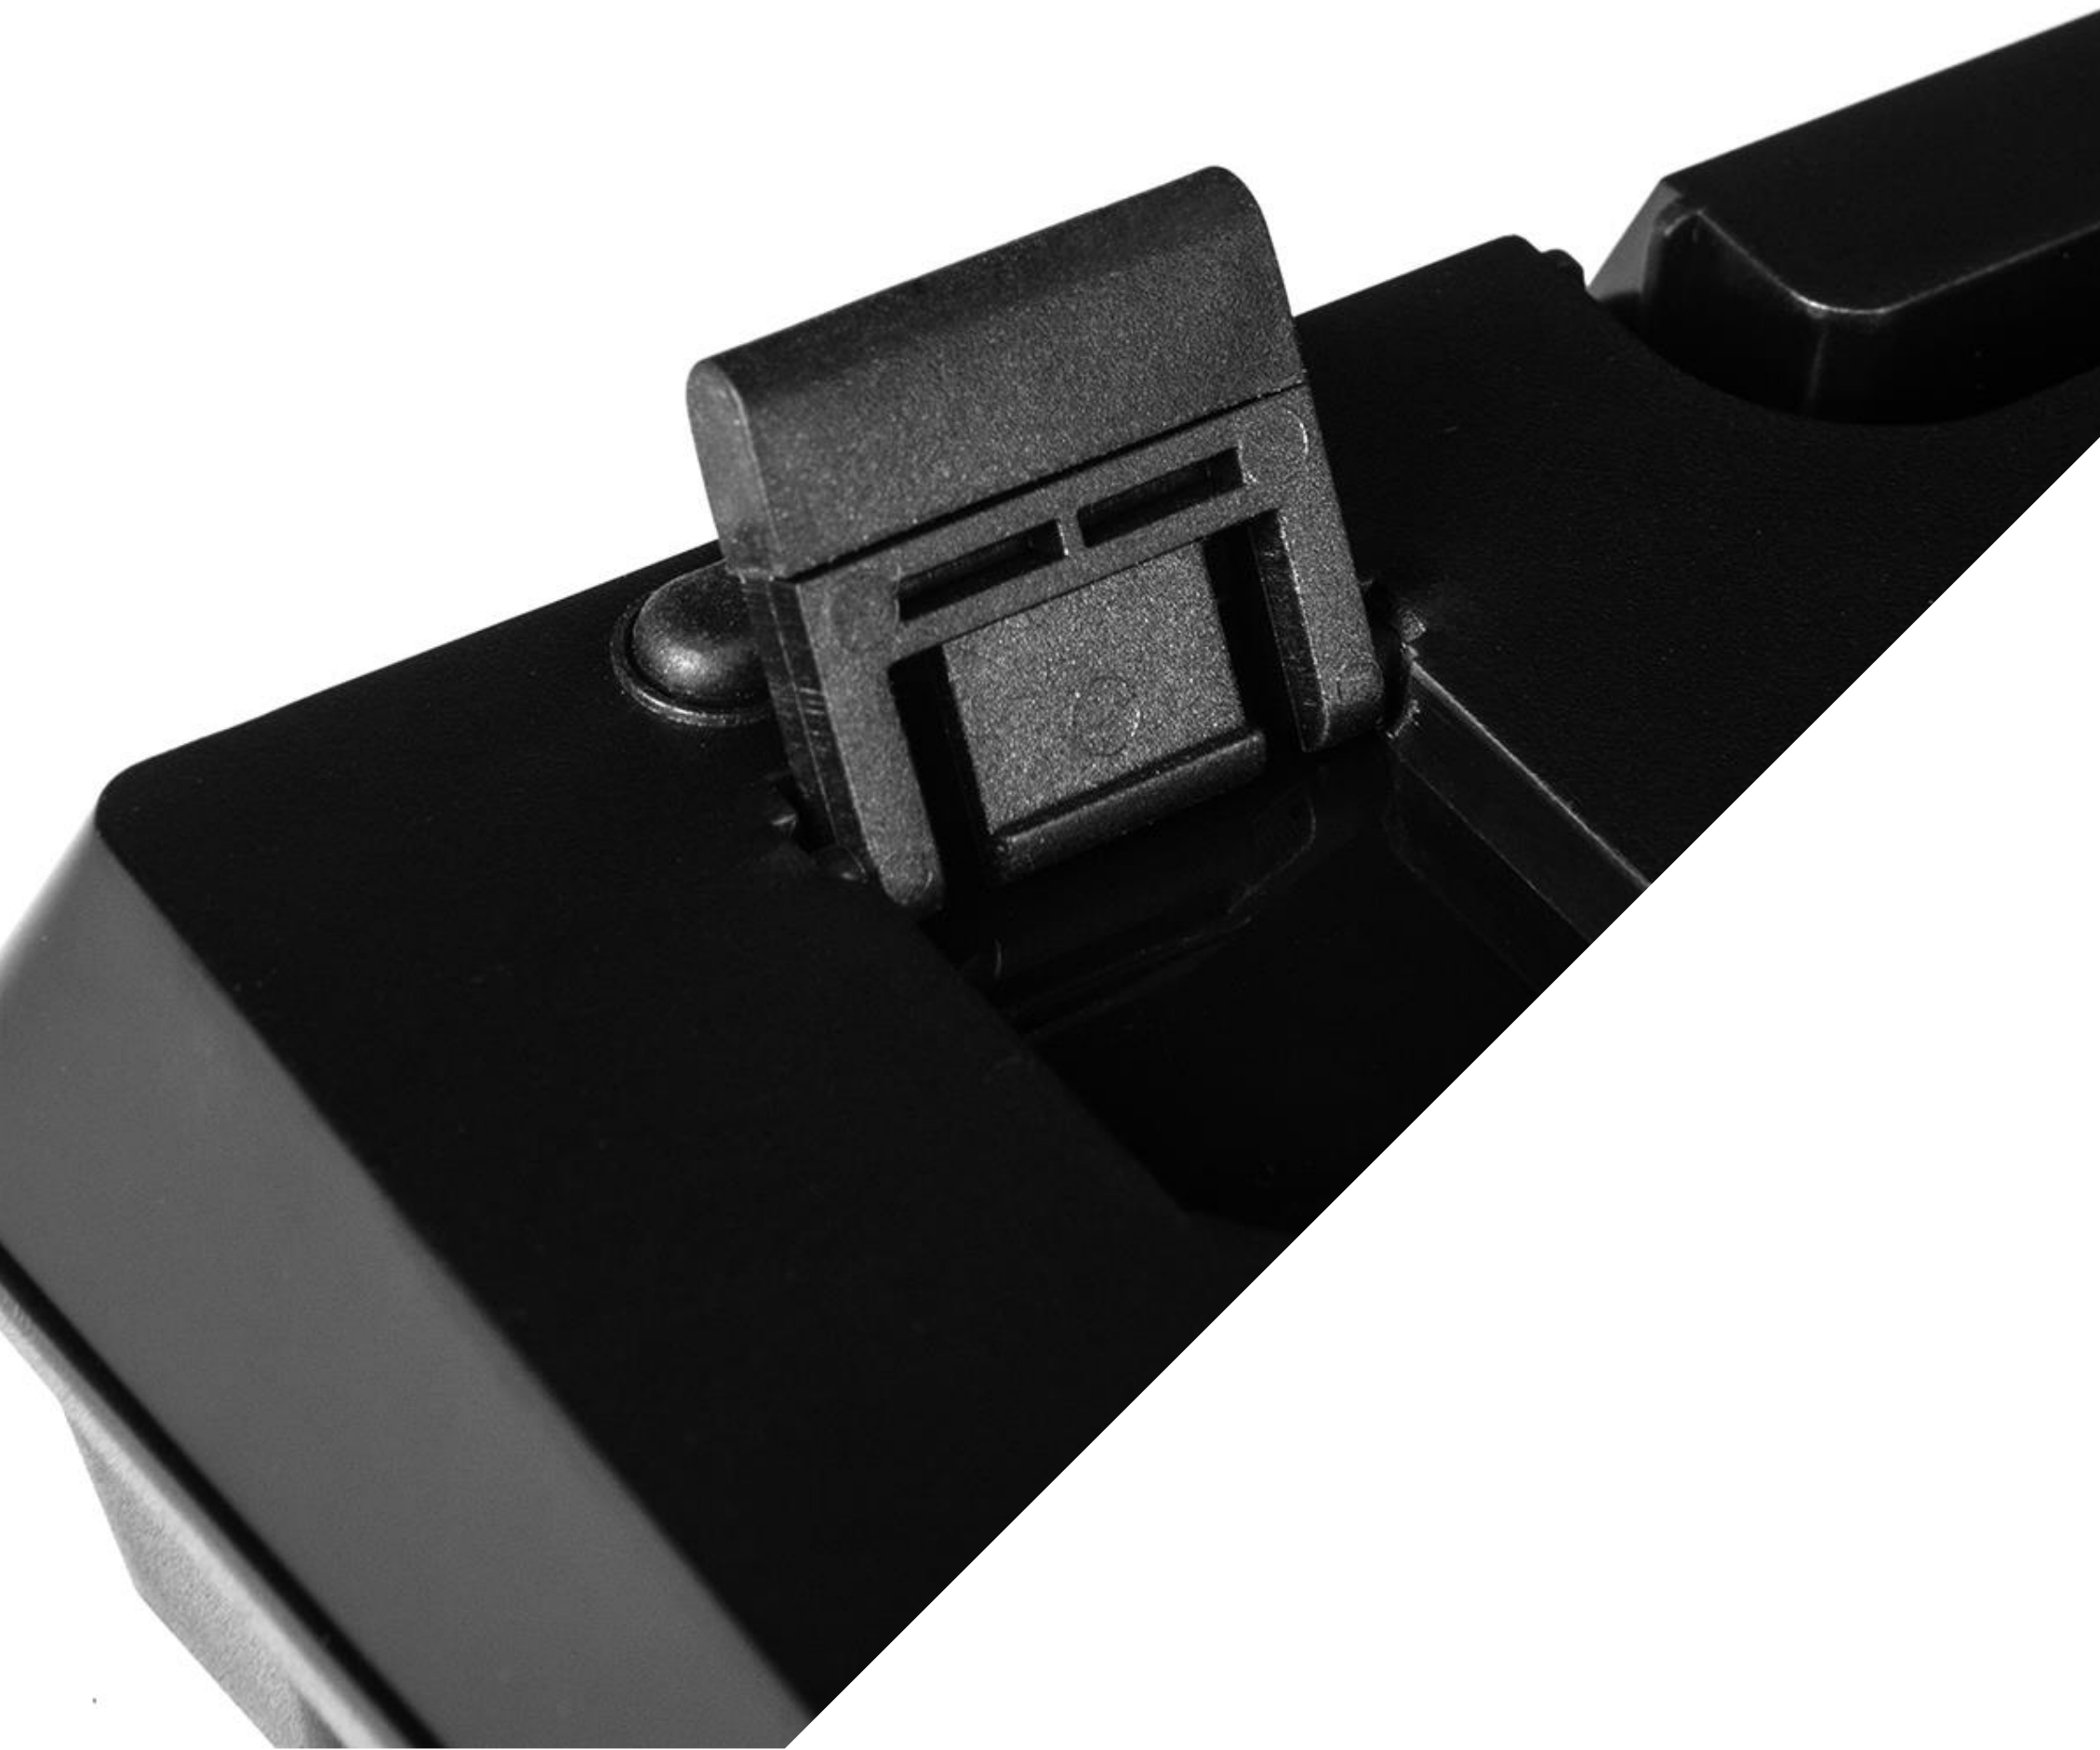

Gaming and long-lasting character

High-quality Outemu switches (Blue or Brown) with a lifetime of 50 million clicks allow you to reliably enjoy computer games. Due to their design, they ensure the longevity of the gaming keyboard.

The use of high-quality materials and components, the perfect fit of every detail is not only a pleasure to use, but also the certainty that MODECOM Volcano Lanparty RGB will be a keyboard for years.

NON-SLIP FEET

Non-slip feet on the bottom of the keyboard prevent it from sliding even during intense gaming.

01. WINDOWS KEY LOCK

Windows key lock prevents accidental pressing of the Windows key. Thanks to it, you will never see a situation where you will suddenly see your... desktop during the most exciting gaming situation. Remember that you decide when to end the game.

02. SOFTWARE

Thanks to the software you can record macros and program the keyboard backlight in any configuration. With these features, you can say the keyboard is REALLY YOURS.

03. FULL ANTI-GHOSTING

Most keyboards available on the market can detect just a few keys at a time. On keyboards with this restriction, gamers will not be able to use more key combinations that are required in many games. As a consequence, it limits the quality of entertainment and affects the results achieved in games. The keyboard is equipped with an advanced full anti-ghosting function, which gives the user unlimited freedom - with no limit to the number of simultaneously pressed keys. Thanks to it the keyboard is professional tournament equipment.

04. RGB LED

The keyboard is equipped with fully adjustable LED backlight in full RGB palette. You can create your own profiles in which only selected keys will be illuminated (adjusted to a specific game or to your own preferences).

05. RUBBER, NON-SLIP FEET

We have placed four non-slip feet, thanks to which the keyboard will be stable even during the most exciting games.

06. DUAL INJECTION

The keyboard uses high-quality double-injection keycaps. An overlay made with this method consists of two separate elements: external (translucent) and internal with an overprint. Thanks to this method, the print will not wear off even as a result of intensive use.
