The caps are made in the dual-injection technology. Wear-resistant and easy to replace or clean

BACKLIGHT COLORS

The backlight color can be freely configured, both from the keyboard key combination and software

GATERON

GATERON YELLOW SWITCHES

LANPARTY RGB BT

MECHANICAL KEYBOARD

MODECOM Volcano Lanparty RGB BT is a real command center, thanks to which not only the world of gaming will be open. The keyboard will not only be perfect as a gaming companion, but also in a practical and convenient way will allow you to remotely control up to five devices simultaneously via Bluetooth (TV, smartphone, laptop, etc.). Thanks to its small size, it is a perfect solution for people looking for a small and mobile device for all multimedia entertainment.

DESIGN

The number of keys in the keyboard, its layout and the convenient separation of ALT, FN, Back and Del buttons together with a separate arrow section allow you to comfortably play and type. This is especially important in slavic countries, where slavic letters occur very often. To maintain linguistic accuracy, or to type text quickly and communicate while gaming, the 65% keyboard is the optimal choice.

KEYBOARD 65%

MODECOM Volcano Lanparty RGB BT is a 65% keyboard, which means that its small size is the optimal choice not only for gamers (it allows to keep more space on the desk for the mouse), but also for people looking for a comfortable keyboard only for typing.

Meet MODECOM Volcano Lanparty RGB BT

Enter the world of gaming and forget about the reality that surrounds you. Use the latest technological solutions and have fun. Or take advantage of its best features and spend your time comfortably while working or studying.

It's your choice, we only gave you the tool.

10 REASONS WHY YOU SHOULD HAVE IT

01. COMFORT

The small size of the keyboard means higher ergonomics. Wrists and hands are less tired, you can type or play on the keyboard for much longer without unpleasant discomfort.

02. FOR YEARS

Gateron switches, indelible keys and high quality - the keyboard will serve for years.

03. DESIGN

RGB LED backlight of 16.7 million colors allows you to define the appropriate color under your own preferences. Gentle backlight, or maybe a full range of colors? It is only your choice.

04. BATTERY

The keyboard can work wirelessly - just detach the 180 cm long USB-C cable. Now you can write on it freely while sitting comfortably on the couch.

05. 5 DEVICES

Thanks to the Bluetooth module, you can remotely connect up to 5 devices. Would you like to conveniently enter the song title on your TV? It's easier and faster than before.

10 REASONS WHY YOU SHOULD HAVE IT

06. **WORK OR PLAY**

The keyboard is universal but has a gaming character. It will work as a tool for gaming, learning and working.

07. **SOFTWARE**

The software can be downloaded from the manufacturer's website - www.modecom.com

Thanks to it, you can configure the keyboard to your own needs.

08. **SECURE**

Thanks to the rubber feet, the keyboard rests securely on the desk - it does not move even during intense gaming.

09. **LOTS OF USEFUL FEATURES**

Windows key lock and full Anti-Ghosting are useful functions for gaming and work. First of all, you will not accidentally go to the desktop and you will not lock the keys while playing.

10. **MEET THE LEGEND**

MODECOM Lanparty is a living legend - this model has been appreciated by gamers for years on the market in various configurations.

GAMING CHARACTER

MODECOM Volcano Lanparty RGB BT has a real, gaming character. First of all, it's dedicated for everyone who love multimedia entertainment. It also allows you to immerse in the world of gaming. Gateron Yellow switches with a lifetime of 50 million clicks, full Anti-Ghosting, adjustable RGB LED backlight, Windows key lock, rubber, non-slip feet and durable keys made in the dual injection technology are proof of the gaming character of this keyboard. Thanks to its small size, it will be perfect as a comfortable tournament keyboard.

BE A GAMER

High-quality Gateron Yellow switches with a lifetime of 50 million clicks allow you to reliably enjoy virtual entertainment.

The use of high-quality materials and components is a proof that MODECOM Volcano Lanparty RGB BT will be a keyboard for years.

MODECOM VOLCANO LANPARTY RGB BT

Take advantage of its best features for work or study

MODECOM Volcano Lanparty RGB BT also has other functions, thanks to which you can successfully use all its advantages.

Thanks to the Bluetooth module, you can successfully connect up to 5 devices simultaneously. Imagine situation when, after playing your favorite game, you take the keyboard, go to the next room and sit comfortably on the couch and use it for the TV.

You can also use the keyboard for study or work by pairing it with a laptop. Just sit in the armchair and work wirelessly in the best possible way.

01. WINDOWS KEY LOCK

Windows key lock prevents accidental pressing of the Windows key. Thanks to it, you will never see a situation where you will suddenly see your... desktop during the most exciting gamingu situation. Remember that you decide when to end the game.

02. SOFTWARE

Thanks to the software you can record macros and program the keyboard backlight in any configuration. With these features, you can say the keyboard is REALLY YOURS.

03. FULL ANTI-GHOSTING

Most keyboards available on the market can detect just a few keys at a time. On keyboards with this restriction, gamers will not be able to use more key combinations that are required in many games. As a consequence, it limits the quality of entertainment and affects the results achieved in games. The keyboard is equipped with an advanced full anti-ghosting function, which gives the user unlimited freedom - with no limit to the number of simultaneously pressed keys. Thanks to it the keyboard is professional tournament equipment.

04. RGB LED

The keyboard is equipped with fully adjustable LED backlight in full RGB palette. You can create your own profiles in which only selected keys will be illuminated (adjusted to a specific game or to your own preferences).

05. RUBBER, NON-SLIP FEET

We have placed four non-slip feets, thanks to which the keyboard will be stable even during the most exciting games.

06. DUAL INJECTION

The keyboard uses high-quality double-injection keycaps. An overlay made with this method consists of two separate elements: external (translucent) and internal with an overprint. Thanks to this method, the print will not wear off even as a result of intensive use.
