SCREEN

BIG SCREEN 7"

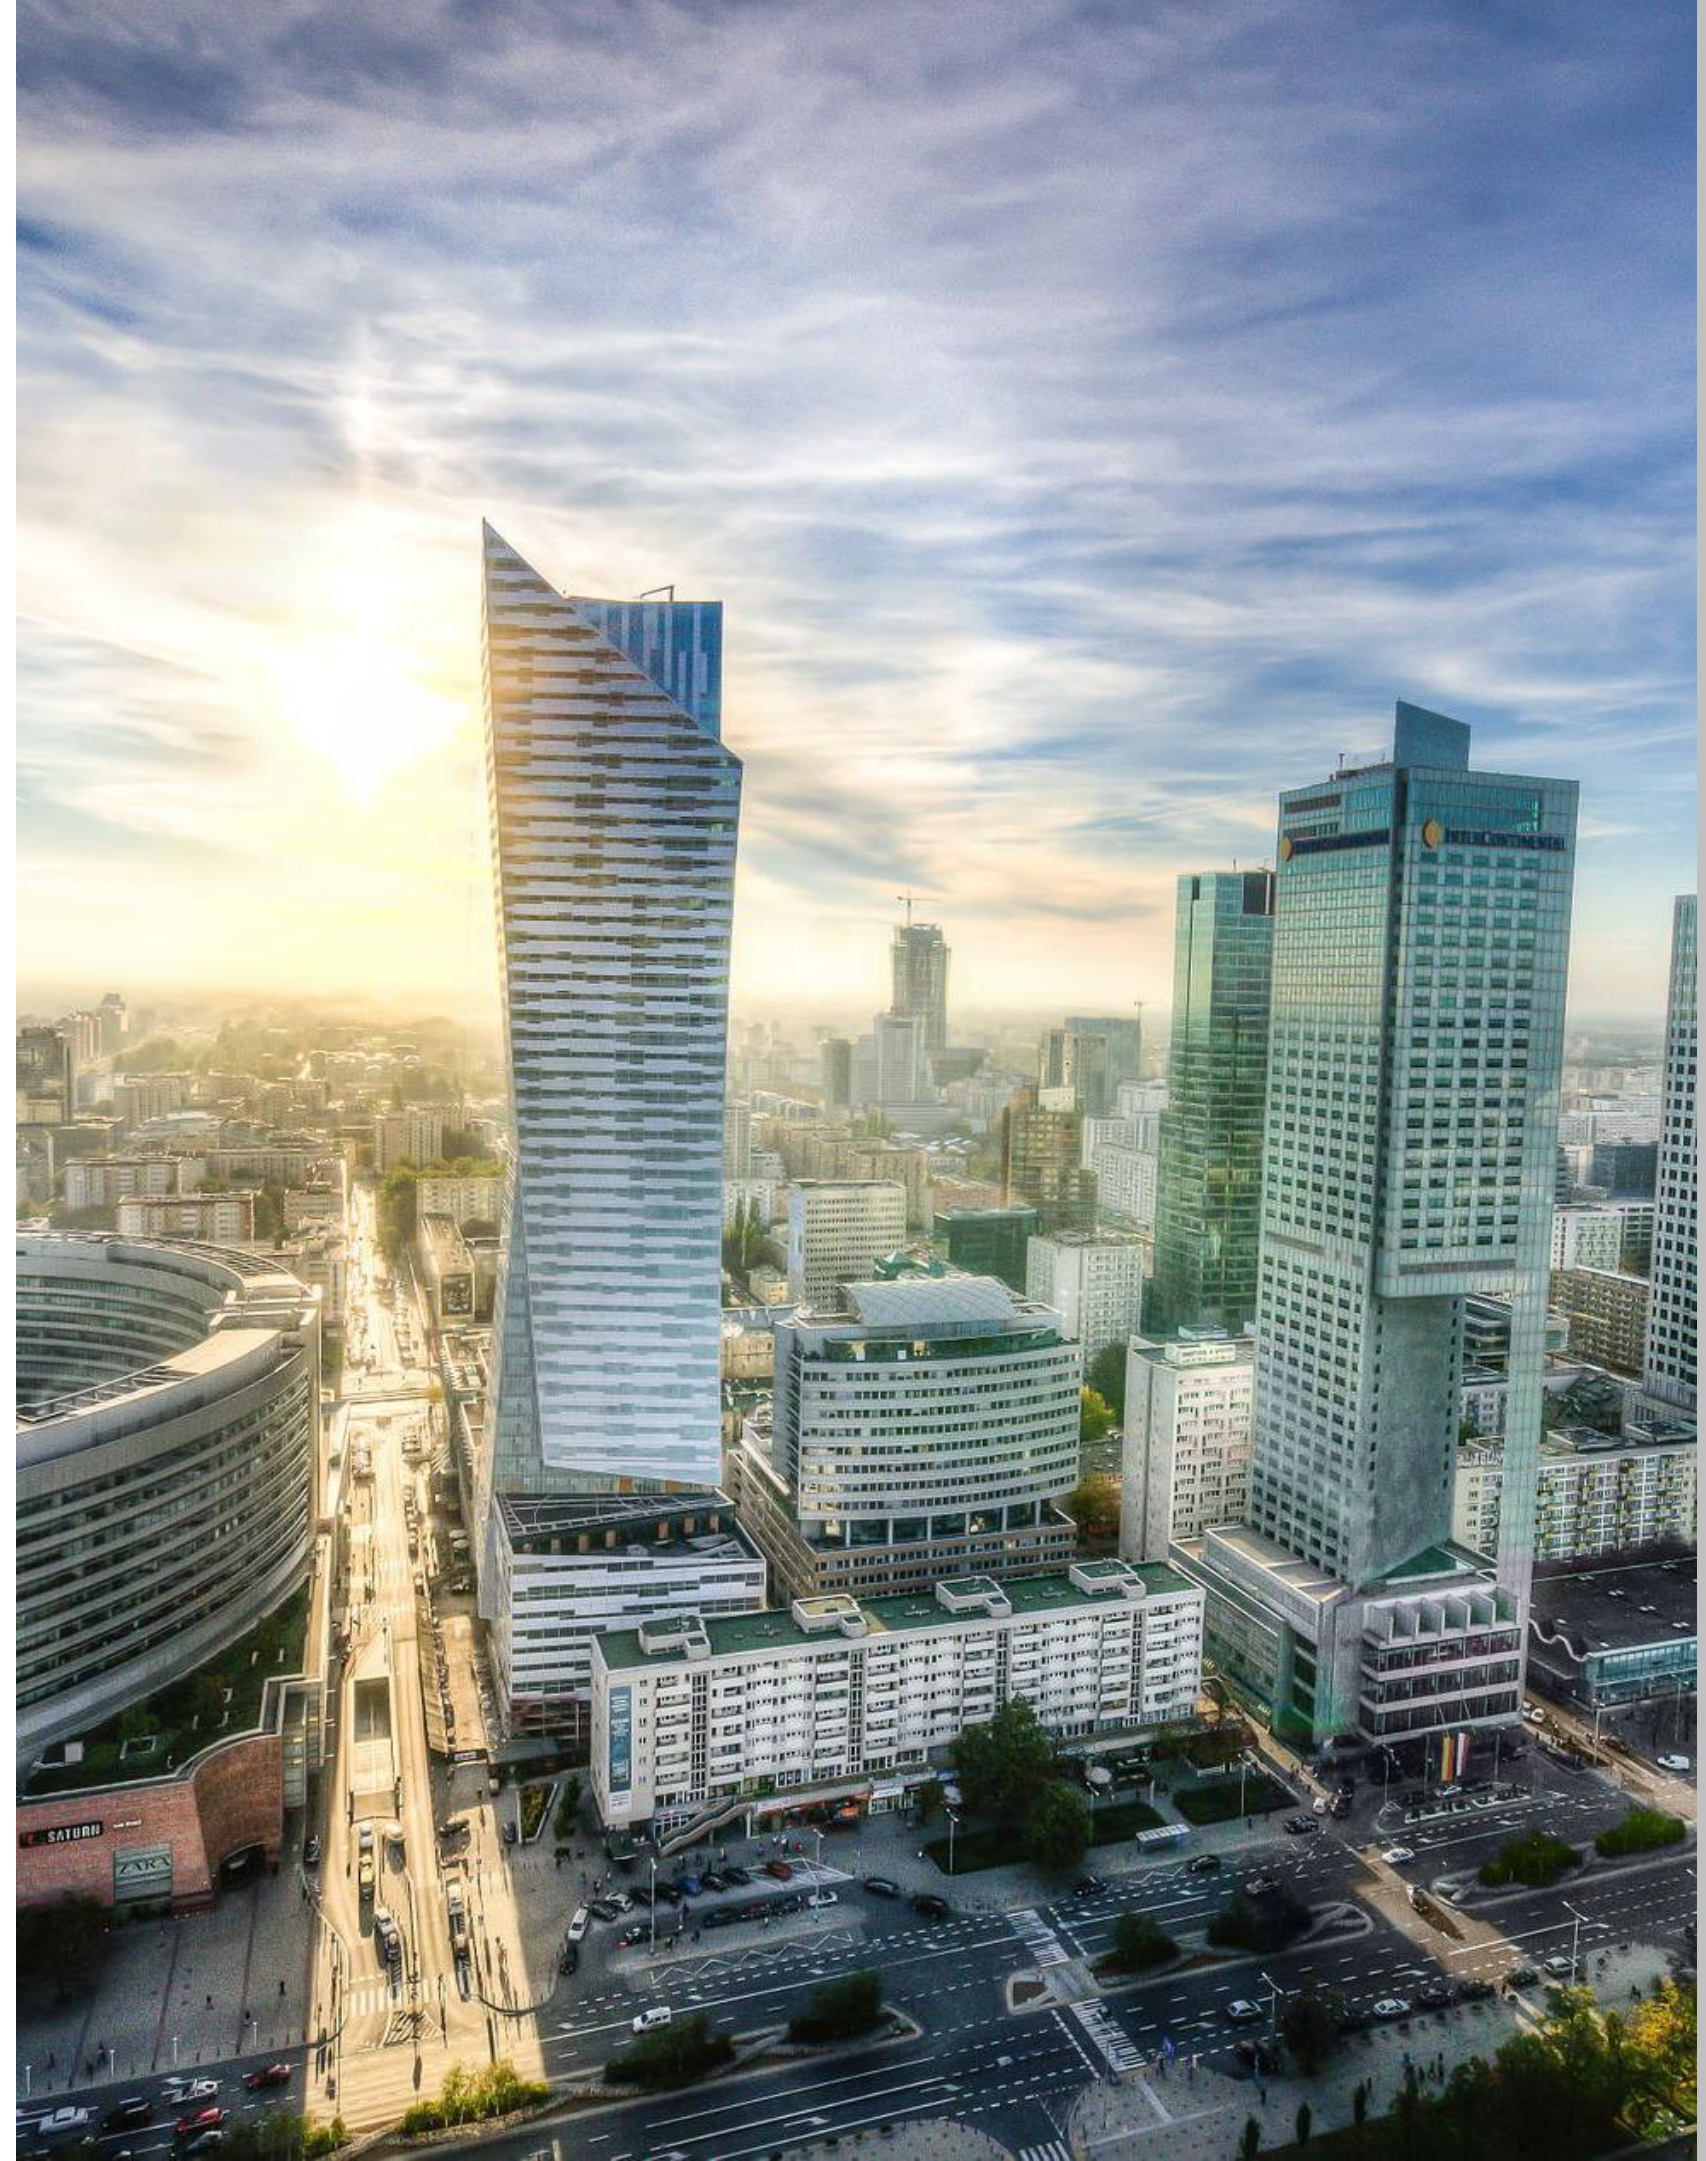

SIZE DOES MATTER

The 7" TFT LCD display is a huge advantage of the FreeWAY SX 7.0 model. A large and clear screen makes reaching your destination easier and more enjoyable. At the same time, you can clearly see marked roads or changes in lanes.

MODECOM FREEWAY SX 7.0

PERFECT SCREEN ANYWHERE

The large screen will work anywhere. Both in the wilderness and in the maze of city streets. It makes it easier to navigate and follow the mapped traffic route.

MODECOM FREEWAY SX 7.0

POWERFUL PROCESSOR Mstar MSB2531 800MHZ

MODECOM FreeWAY SX 7.0 is navigation with high-class components.

It is equipped with an efficient and modern Mstar MSB2531 800MHZ processor, which is characterized by low power consumption and high efficiency, allowing for quick calculation and route tracking.

The processor cooperates with the software enabling smooth operation, also allowing the use of multimedia solutions offered by the device.

256 MB RAM

Modern software requires advanced and reliable device components. Navigation is equipped with 256 MB of RAM which ensures optimal operation of navigation programs.

Navigation available in the version with: AutoMapa Europa license with a 12-month subscription for updates, AutoMapa Polska license with a 12-month subscription for updates, MapFactor Europe.

CUSTOMIZE GPS AS YOU LIKE

Thanks to the large amount of memory and efficient components, the navigation quickly and efficiently cooperates with various map producers. Nothing prevents you from uploading your favorite map and enjoying the advantages of this solution.

You can also choose version with pre-installed MapFactor Europe.

MODECOM FREEWAY SX 7.0

ADVANTAGES OF USING NAVIGATION

Some of the advantages of using navigation depending on the map:

- Intuitive voice navigation in different languages.
- Planning of the "door to door" route.
- Routing modes for car, truck, bus, pedestrian, bicycle.
- Cross-border routing without switching between countries.
- Optimization of waypoints.
- Route Avoidance - block a specific road.
- 2D / 3D mode enables realistic display of visual maps.
- GPS maps rotate in the direction of travel or north up.
- Ability to add your own favorite locations and routes.

A good map is essential. Thanks to its functions, you will reach your destination safely and choose the shortest route.

SAFETY AND ECONOMY

A good car map is packed with security and time-saving features.

- Speed camera warnings.
- Audible alerts when approaching speed cameras.
- The day / night modes change the color schemes for day or night driving.
- Preview of the upcoming maneuver and the distance displayed on the screen.

The world has become a global village, filled with new kilometers of roads and highways every year. Often we are not even aware of what road works are carried out on the other side of the city, not to mention other cities. There is a simple solution for this - MODECOM car navigation with a good map, that will set the optimal route, saving time and fuel.

FOR LONG AND NEW ROUTES

MODECOM FREEWAY SX 7.0

PROFESSIONALS WILL APPRECIATE SAVINGS

Buying navigation in the era of smartphones and free online maps? Yes, it makes sense as long as you are a professional driver, you drive abroad and you appreciate the additional advantages of using navigation, such as the possibility of integrating it with the car.

What's more? You do not use your smartphone's battery, you do not worry about places with less cellular network coverage, you have a reliable device with a large screen.

GPS MOUNT ARM

Navigation is made of high-quality materials. Thanks to this, you can be sure that it will serve for a long time.

Accessories, such as the GPS mount arm, made of durable materials, hold the device, protecting it from damage.

MODECOM FREEWAY SX 7.0

QUALITY.

The high quality of the product determines its longevity.

MODECOM FREEWAY SX 7.0

RELIABILITY.

Efficient components means high reliability and speed of the device. Nothing will surprise you on the way!

MODECOM FREEWAY SX 7.0
