SCREEN

BIG SCREEN 7"

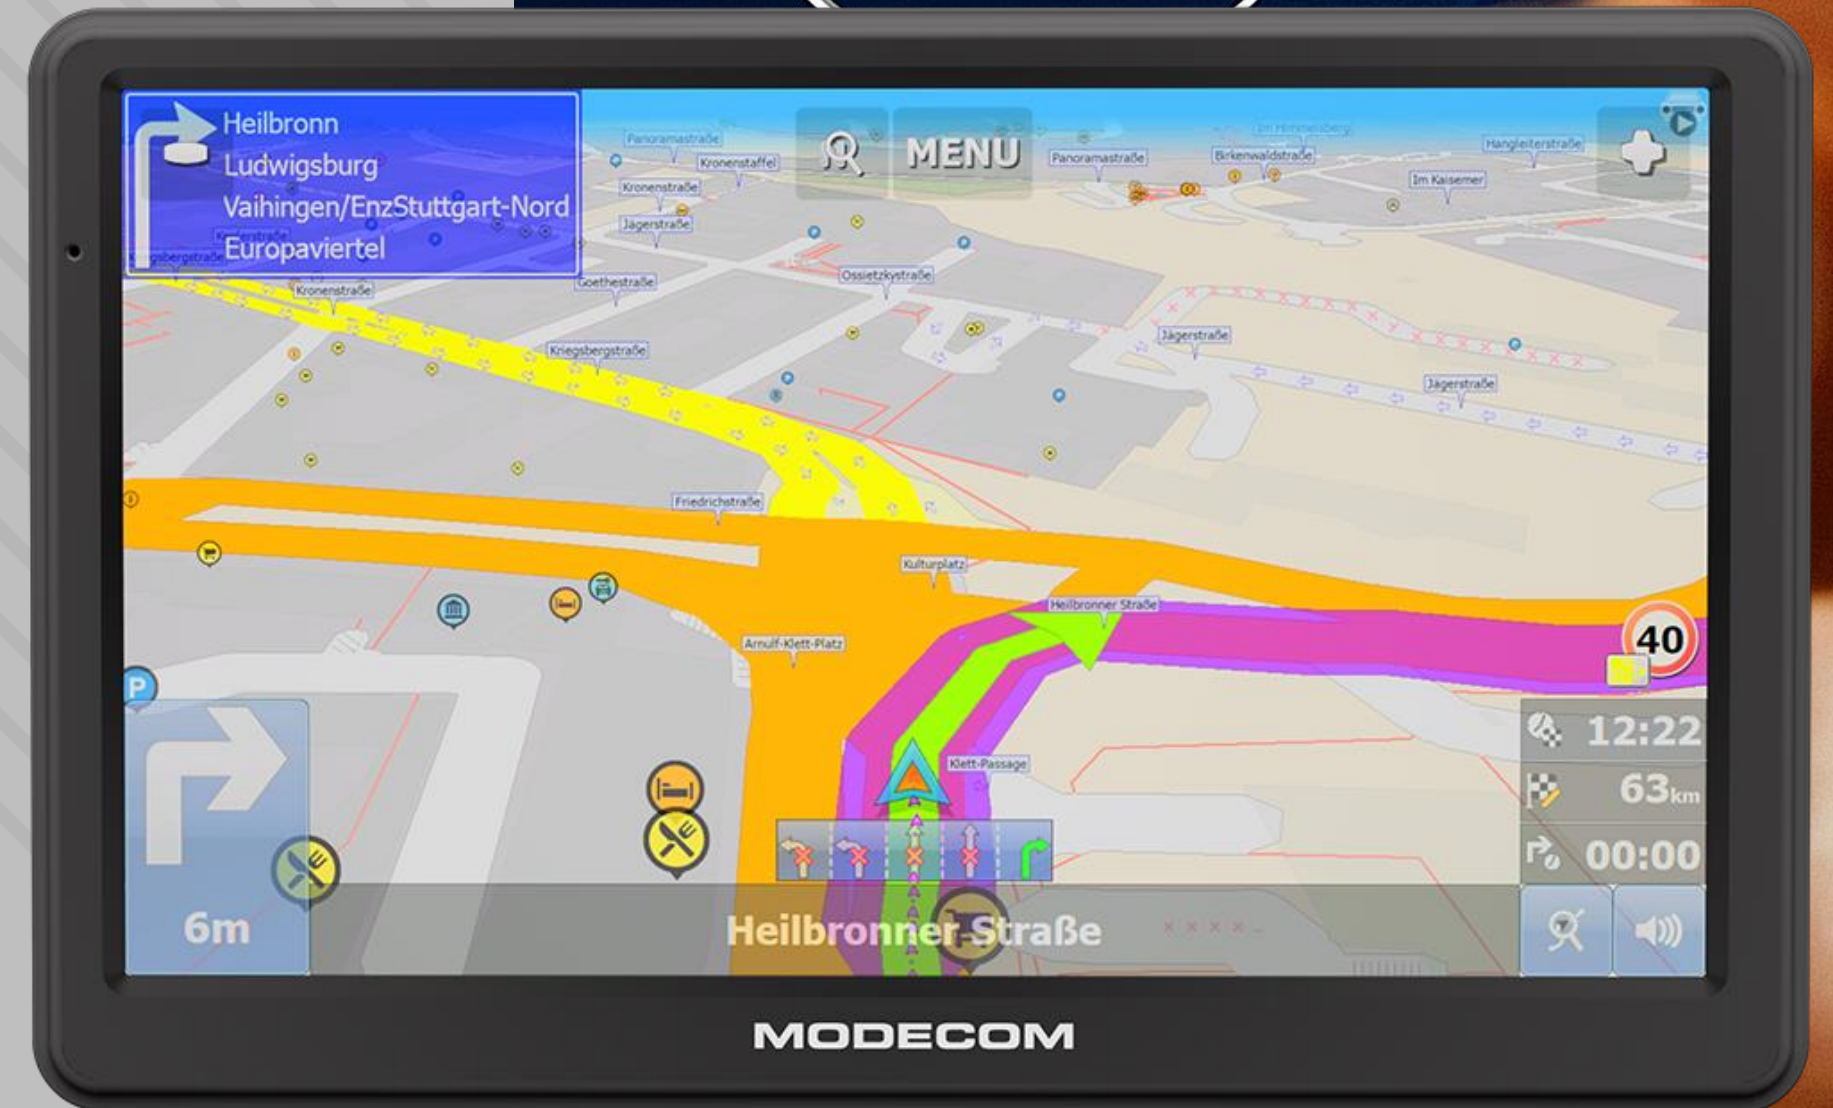

IPS QUALITY

The 7" IPS display is a huge advantage in the FreeWAY CX 7.2 IPS GPS model. Better colors, wider viewing angles, brighter images - all this makes it easier to use GPS. The IPS screen means high readability.

CAPACITIVE TOUCH PANEL WORK LIKE ON SMARTPHONE

GPS is equipped with a capacitive touch panel. This means that the screen works by touching with your finger. The use of a touch panel significantly facilitates the use of navigation - you do not need to look for a stylus pen to enter the desired route. You work like on a smartphone.

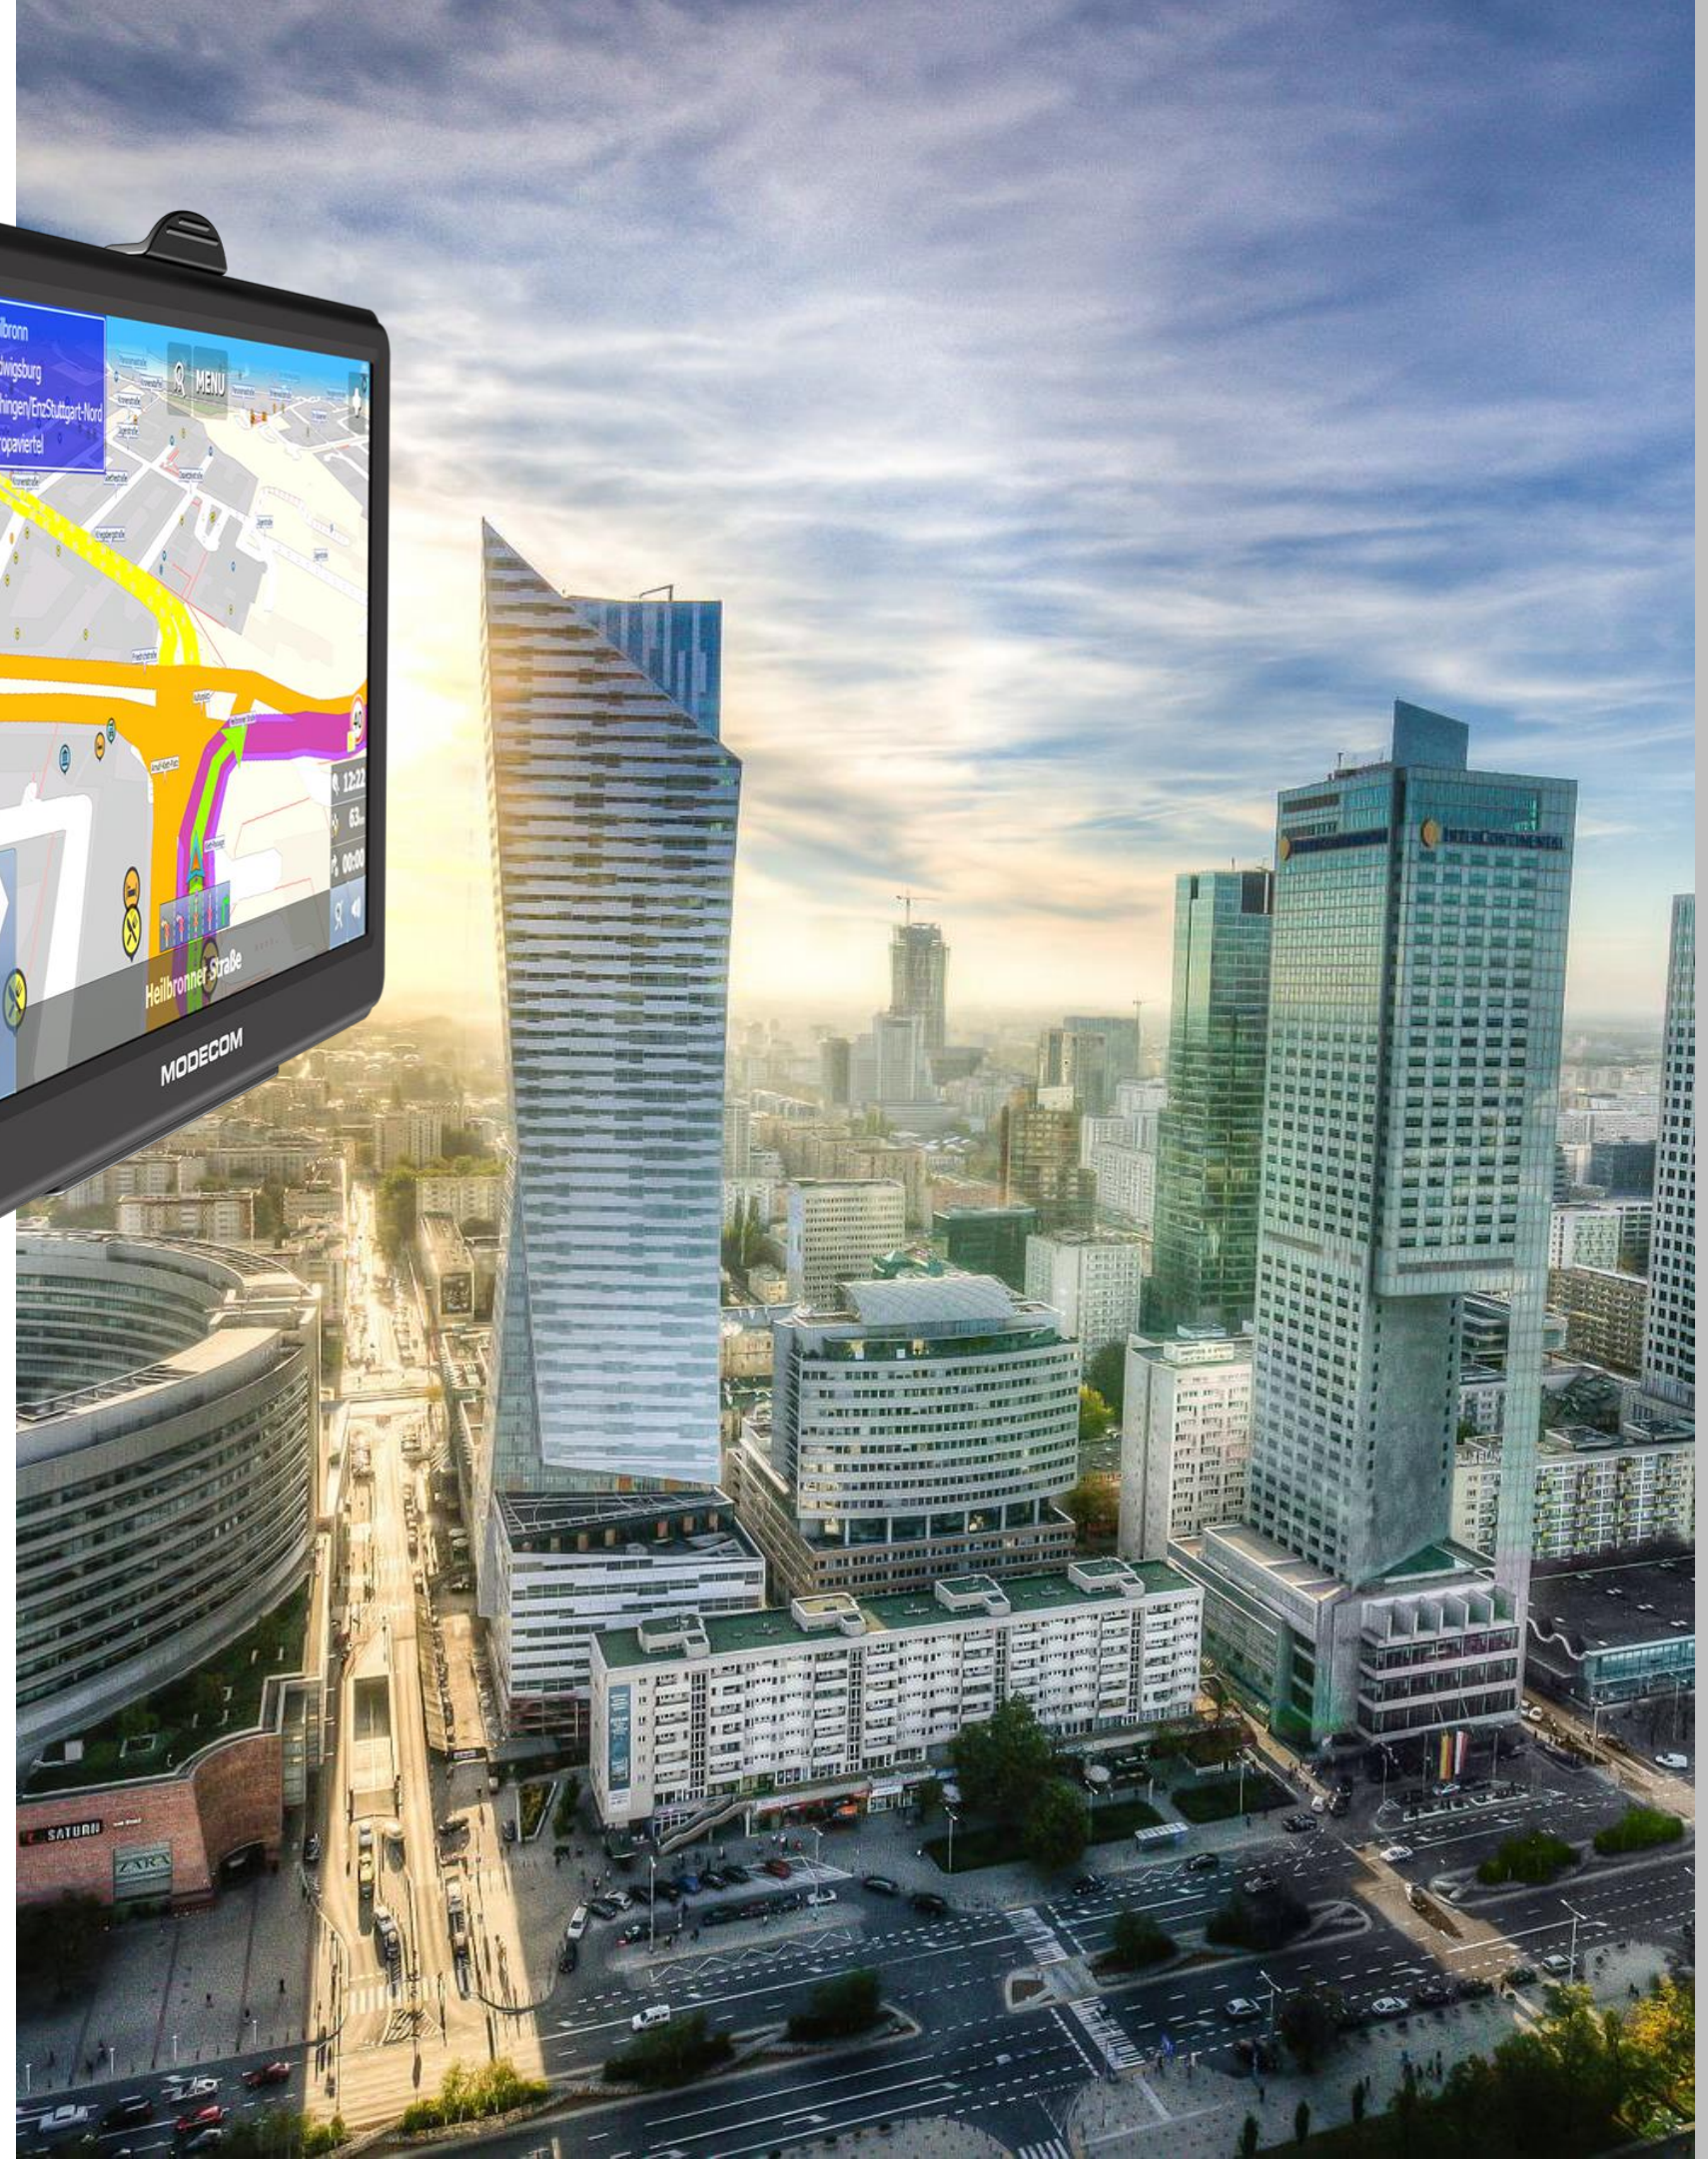

MODECOM FREEWAY CX 7.2 IPS

PERFECT ANYWHERE

The large screen in IPS quality will work on any road. Both on highway and in the maze of city streets. The IPS quality works great regardless of the position of the sun in the sky - screen panel is bright and allows you to navigate anytime, anywhere.

MODECOM FREEWAY CX 7.2 IPS

POWERFUL PROCESSOR Mstar MSB2531 800MHZ

MODECOM FreeWAY CX 7.2 IPS is navigation with high-class components.

It is equipped with an efficient and modern Mstar MSB2531 800MHZ processor, which is characterized by low power consumption and high efficiency, allowing for quick calculation and route tracking.

The processor cooperates with the software enabling smooth operation, also allowing the use of multimedia solutions offered by the device.

256 MB RAM

Modern software requires advanced and reliable device components. The navigation has been equipped with 256 megabytes of RAM, which ensures optimal operation of navigation programs.

USB-C

The navigation is equipped with a USB-C port. The standardization in USB-C technology allows to reduce the number of cables, affecting the comfort of using the device.

CUSTOMIZE GPS AS YOU LIKE

MODECOM FREEWAY CX 7.2 IPS comes preloaded with MapFactor Europe navigation. However, if you decide that you want a different map, you can adapt it to your needs.

Thanks to the large amount of memory and efficient components, the navigation quickly and efficiently cooperates with other map producers.

MODECOM FREEWAY CX 7.2 IPS

MAPFACTOR EUROPE

Why use MapFactor?

- Intuitive voice navigation in different languages.
- Planning of the "door to door" route.
- Routing modes for car, truck, bus, pedestrian, bicycle.
- Cross-border routing without switching between countries.
- Optimization of waypoints.
- Route Avoidance - block a specific road.
- 2D / 3D mode enables realistic display of visual maps.
- GPS maps rotate in the direction of travel or north up.
- Ability to add your own favorite locations and routes.

A good map is essential. Thanks to its functions, you will reach your destination safely and choose the shortest route. MapFactor is an excellent choice for any driver - smooth operation of the application, fast response time and high reliability.

SAFETY AND ECONOMY

MapFactor Europe is packed with security and time-saving features.

- ✓ Speed camera warnings.
- ✓ Audible alerts when approaching speed cameras.
- ✓ The day / night modes change the color schemes for day or night driving.
- ✓ Preview of the upcoming maneuver and the distance displayed on the screen.

The world has become a global village, filled with new kilometers of roads and highways every year. Often we are not even aware of what road works are carried out on the other side of the city, not to mention other cities. There is a simple solution for this - MODECOM navigation with MapFactor, which will set the optimal route, saving time and fuel.

FOR LONG AND NEW ROUTES

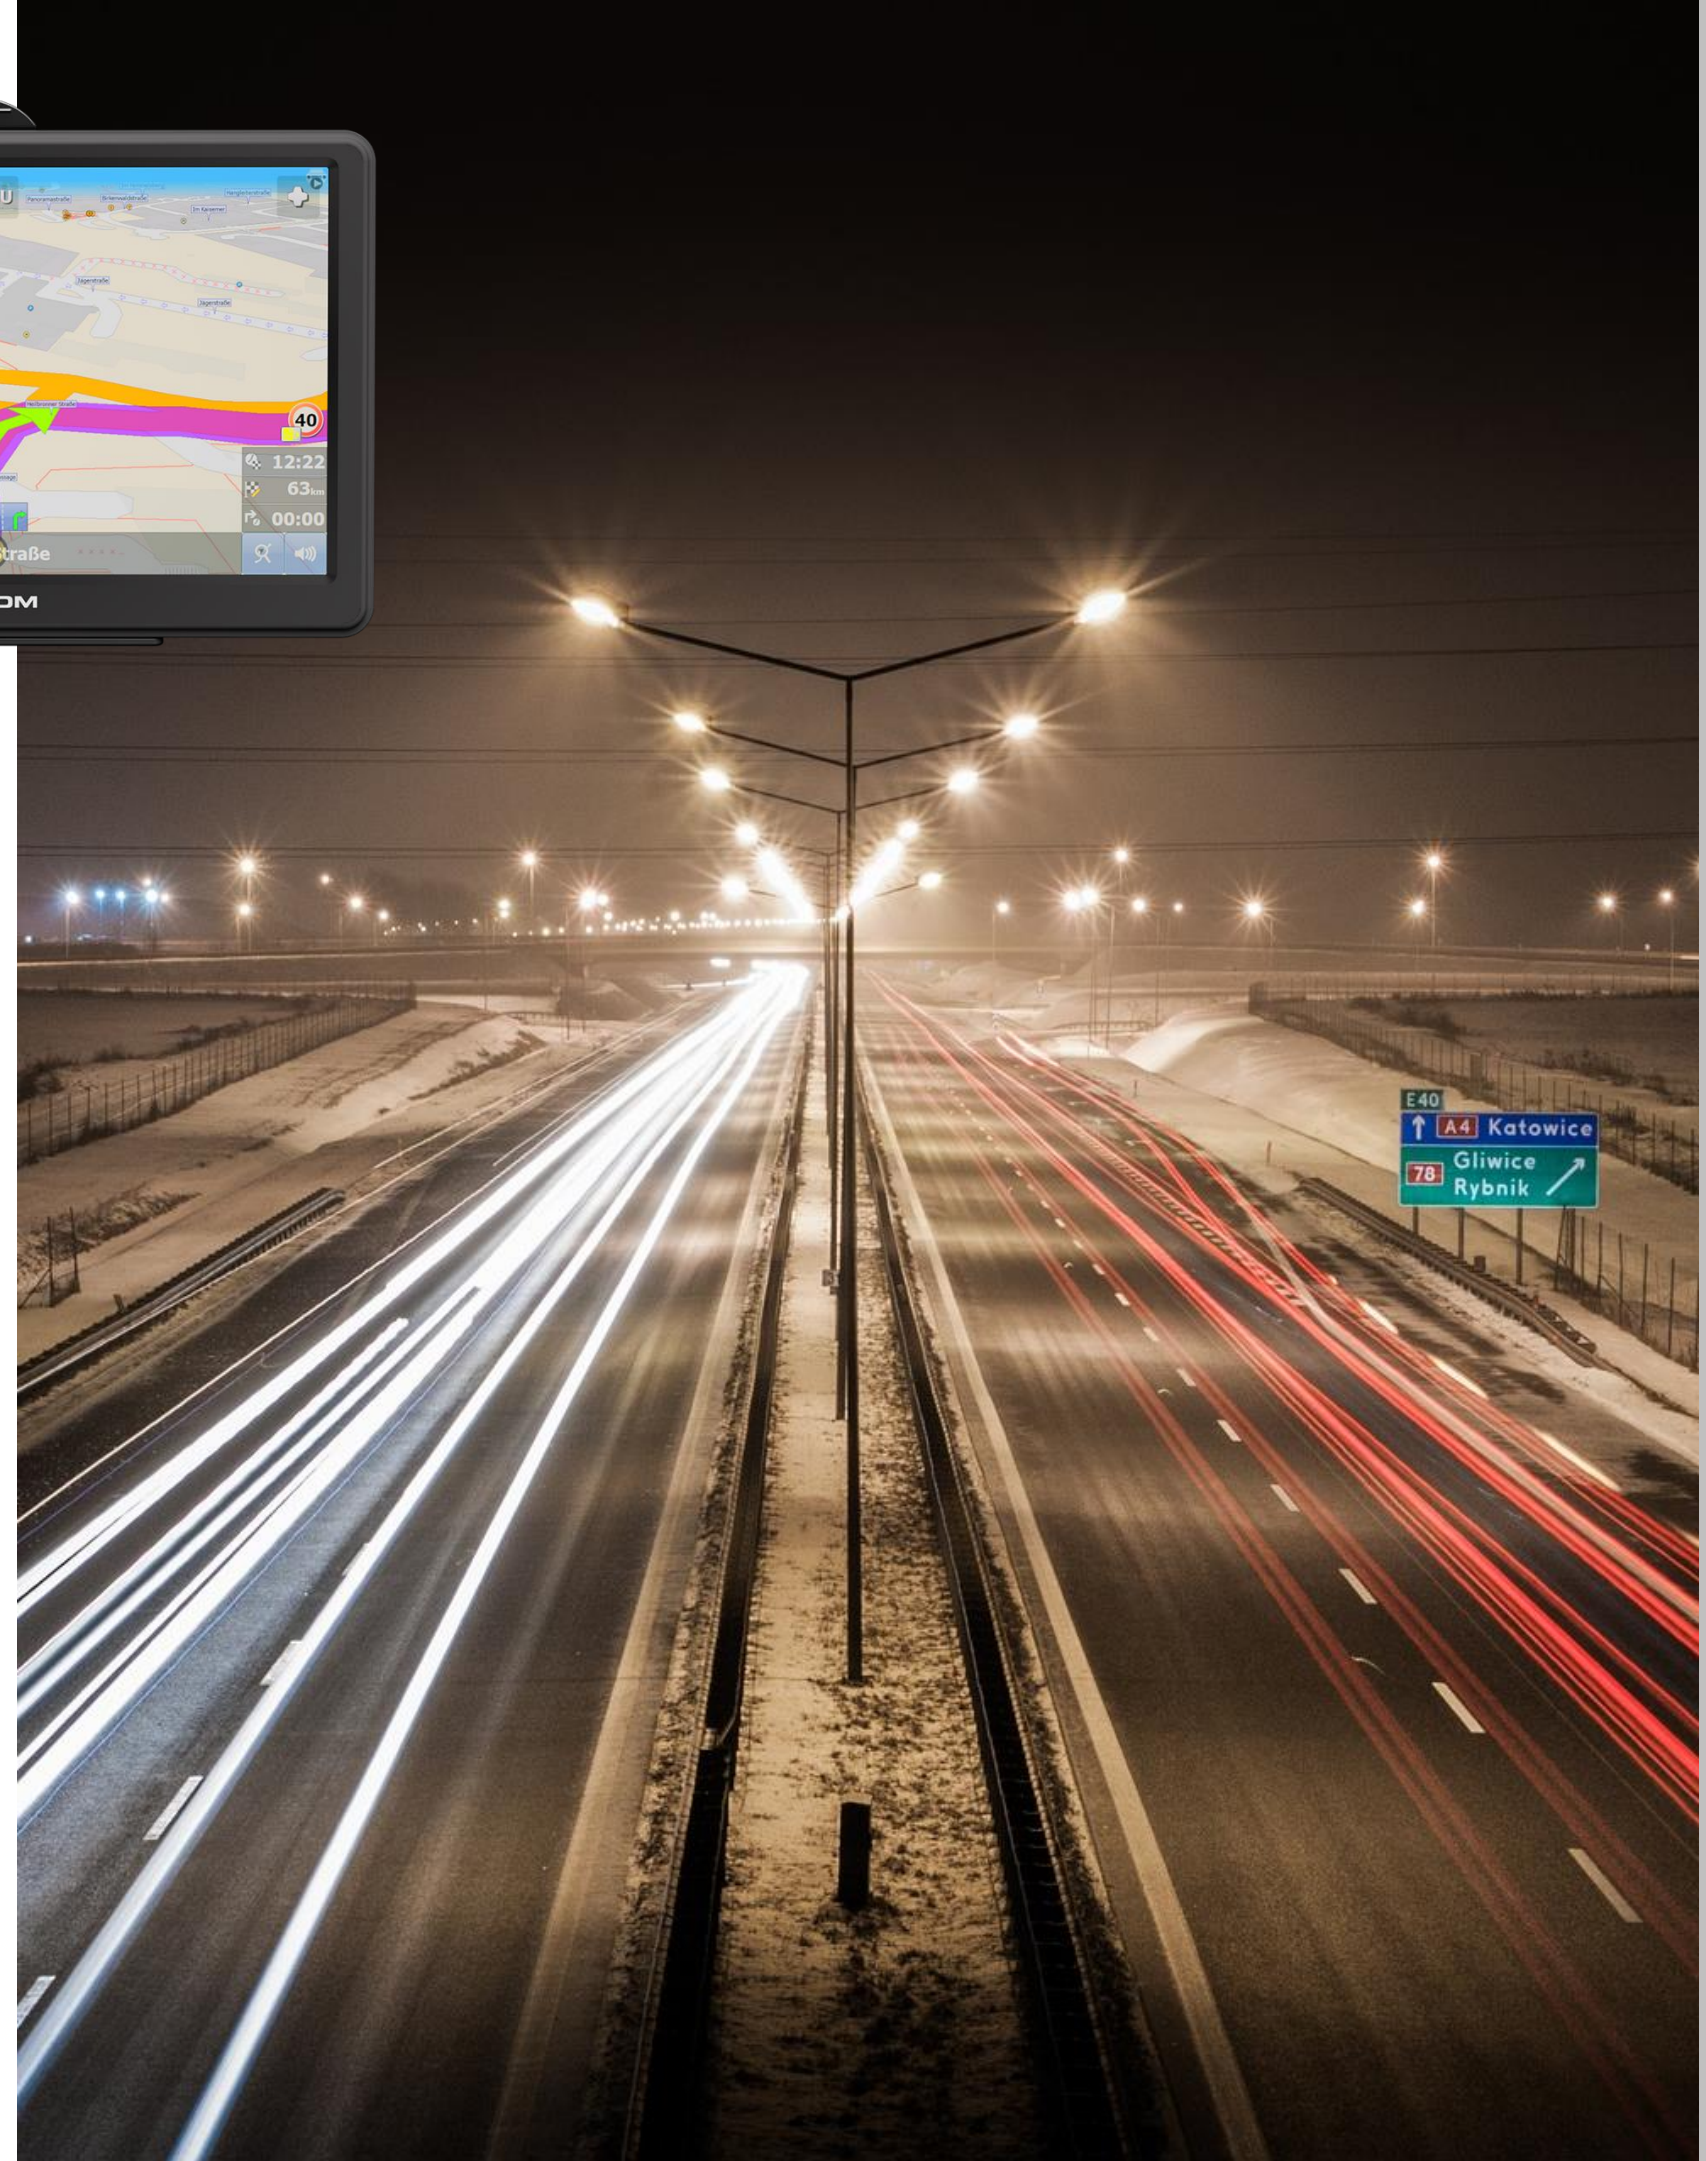

MODECOM FREEWAY CX 7.2 IPS

PROFESSIONALS WILL APPRECIATE SAVINGS

Buying navigation in the era of smartphones and free online maps? Yes, it makes sense as long as you are a professional driver, you drive abroad and you appreciate the additional advantages of using navigation, such as the possibility of integrating it with the car.

What's more? You do not use your smartphone's battery, you do not worry about places with less cellular network coverage, you have a reliable device with a large screen.

STRONG MOUNT

The navigation is made of high-quality materials. Thanks to this, you can be sure that it will serve you for many years.

Strong mount to handlebar (included in the set), securely holds the device, protecting it from damage.

MODECOM FREEWAY CX 7.2 IPS

QUALITY.
