Logic Concept 500 Power Supply

LOGIC

Logic 500 Power Supply equipped with 2x Serial-ATA power connector (for hard discs) and universal 20/24 pins main board connector in standard.

Very important features of the power supply are its incredible cooling ensured by 12 cm chromium grill fan and a stable operation guaranteed by passive PFC function (adjustment of power factor).

To prevent processor and main board damages the power supply is equipped with over voltage and short circuit filters.

SPECIFICATION

Features:
- ATX/ATX12V version 2.2 V
- 1 x 20/24-pin
- 2 x SerialATA (SATA) ,
- 1x PCI-E
- 4x molex, 1x FDD, 1x PS4,
- Passive PFC
- Thermal Fan-speed Control (AFC),
- Diimensions : 140(L)*150(W)*86(H)mm
- MTBF:>100K hours at 25°C & 80% load
- Efficiency: 70% at full load, nominal line
- Certificates: CE

Warranty: 24 months

RMA procedure: replacement
