CAR CAMERA MODECOM REC MC-CC15 FHD X2

Two built-in cameras

MODECOM REC MC-CC15 FHD X2 is equipped with two cameras: front and rear. The front camera records in FHD and the rear one - in HD. Thanks to additional swivel head rear camera, you can not only record what's ahead of you, but also what's happening behind your car or next to it.

USB slot charging

Built-in microUSB slot for charging. 3-metres-long USB cable enclosed to the set enables convenient use even in big cars. You can copy the videos to your computer thanks to USB slot.

Rotary car holder

The camera can be attached to the windscreen with the use of convenient silicone pad. Thanks to rotary mounting, you can set the right angle in order to obtain optimum visibility.

MicroSD card reader

The camera is equipped with microSD card reader supporting cards up to 64 GB.

CAR CAMERA MODECOM REC MC-CC15 FHD X2

High-quality photos

Thanks to MODECOM REC MC-CC15 FHD X2 you can also take high-quality photos with maximum resolution of 12Mpix.

Built-in capacious battery

Built-in 600 mAh battery enables recording videos and taking pictures even without plugged charger.

Simultaneous view from two cameras

MODECOM REC MC-CC15 records two separate videos at the same time. These kinds of files will let you analyse everything deeply.

Big and sharp 3" screen

MODECOM REC MC-CC15 FHD X2 is equipped with a big and sharp 3" screen. You can watch the video recorded by both cameras in real time. You can also choose only one camera in order to check on what's happening behind you. This function is very helpful for those who transport passengers.
