MODECOM MC-CU2K-09-MICRO

MODECOM MC-QCU2-07 is a car charger, that will charge your mobile devices such as smartphones or tablets. The charger is very compact and comes with two charging ports, with one of them being Micro USB.

Key features

- ✓ One USB ports
- ✓ One cable with USB Micro USB connector.
- ✓ Charger works not only with cars but also with trucks.
- ✓ Made with high quality materials.

USB Car Adapter

Practical uses

Charger is equipped with one USB type A port and one built in cable with Micro USB connector. The cable is of „spring” type, which helps to keep your vehicle clutter free while not using.

High quality

Our charger is made to survive being on constant move and vibrations while using in the car
