MODECOM MC-CU2K-09-TC

MODECOM MC-QCU2-07 is a car charger, that will charge your mobile devices such as smartphones or tablets. The charger is very compact and comes with two charging ports, with one of them being Type-C.

USB Car Adapter

Practical uses

Charger is equipped with one USB type A port and one built in cable with Type-C connector.
The cable is of „spring" type, which helps to keep your vehicle clutter free while not using.

High quality

Our charger is made to survive being on constant move and vibrations while using in the car
