## **MODECOM ROYAL MC-KULU-01**

The USB power supply for the MODECOM ROYAL MC-KULU-01 car is a charger that will quickly and efficiently charge a portable device such as a tablet or smartphone, and other devices equipped with a battery such as a camera or wireless headphones. The compact size adapter is equipped with a USB socket and a microUSB type cable. MODECOM ROYAL MC-KULU-01 has a built-in LED indicator, which signals the operation of the adapter. LED lamp at the end of the cable can be used as a mini flashlight. The adapter has a MAX power - 17.5W. Thanks to advanced technological solutions, connected mobile devices are charged in the most effective way.

## Key features

- ✓ Designed for devices such as: smartphone, tablet, and other devices equipped with a battery such as a camera or wireless headphones
- ✓ The charger works not only in cars, but also works well in trucks and delivery vans
- ✓ Made of high quality materials, dedicated for use when traveling by car
- ✓ LED indicator on the charger informing about the device's operation
- ✓ LED light at the end of the cable can be used as a mini flashlight
- ✓ Cable with microUSB tip, 120 cm long

## USB car adapter

### Practical solutions

The adapter is equipped with a USB socket and a microUSB cable. A special "straight cable" design protects device port from damage and is the most practical solution.

### High quality

The adapter is made in technology adapted to frequent handling and connection. Adapter is also resistant to shocks occurring while driving a car.

### LED Light

LED indicator on the charger informing about the device's operation. LED light at the end of the cable can be used as a mini flashlight.

### Quick Charge

The adapter has a MAX power - 17.5W. Thanks to advanced technological solutions, connected mobile devices are charged in the most effective way.
