VOLCANO BOW

GAMING HEADPHONES

MODECOM Volcano MC-859 Bow headphones are one of several models of Volcano Gaming series headphones dedicated to gamers.

Created for maximum comfort of use and many hours of fun during all kinds of adventures in computer games. Light and pleasant to use, they do not tire the ears, and the 50-millimeter pickups increase the pleasure of listening to music and sounds of the virtual world.

Thanks to MODECOM Volcano MC-859 Bow, your sense of hearing will be filled with the details of multimedia entertainment. All the advantages are complemented by a sensitive microphone for communication while playing favorite games.

Sound of gaming in MODECOM VOLCANO MC-859 BOW

MODECOM VOLCANO BOW headphones are intended mainly for gaming, but they are universal enough to be suitable both for listening to music and during work or study.

What you will use them for is your choice, we only gave you the tool.

5 REASONS WHY YOU SHOULD HAVE IT

01. COMFORT

Comfortable headphones that will let you play for hours without getting tired.

02. SOUND

Good quality, clear sound that will allow you to enjoy virtual entertainment.

03. LED

LED backlight emphasizes the gaming purpose of the headphones.

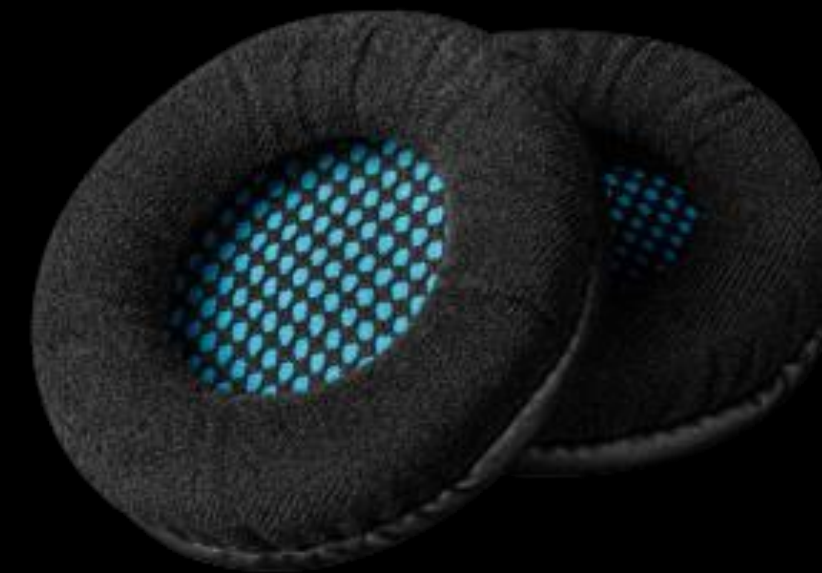

04. CABLE

The long (2.2 meters) cable allows for comfortable gaming - the cable does not interfere during long hours of sessions in front of the computer.

05. MICROPHONE

Adjustable and sensitive microphone that picks up your voice well.

ADDITIONAL AND VERY COMFORTABLE EAR PADS ARE INCLUDED.

We realize that gaming requires concentration and good isolation of the virtual world from the real world.

Therefore, the eco-leather material used in the earmuffs adheres well to the gamer's ears and blocks the sounds coming from the outside. There is an extra pair of cushions in the box that you can replace by yourself. Additional, soft ear pads are made of breathable material and are perfect while gaming during hot days.
