MODECOM MC-CF21 RGB SILENT FAN

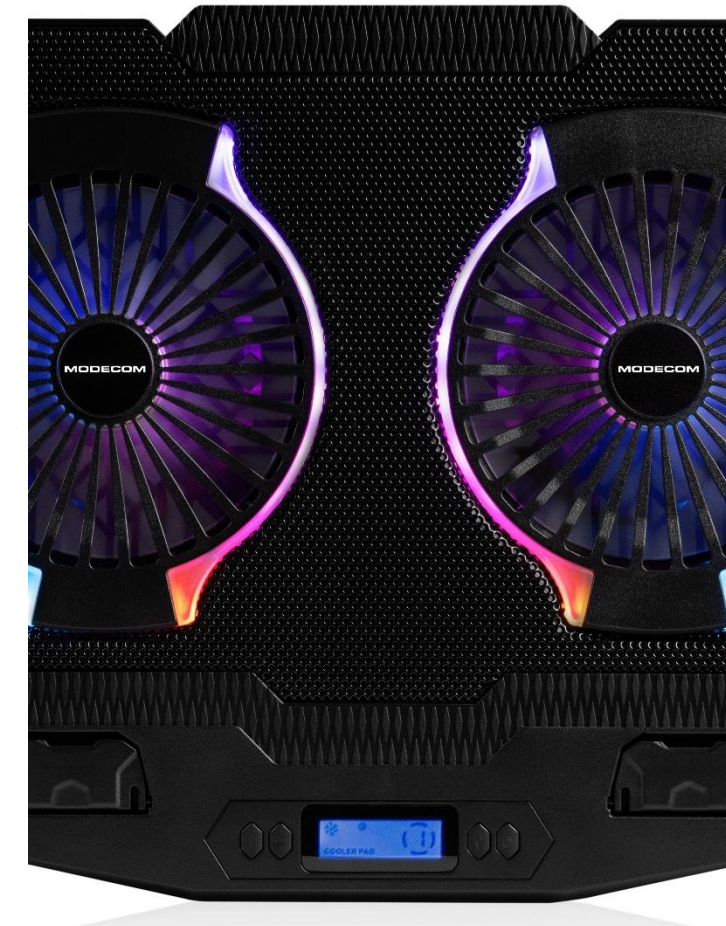

Two high-performance fans

Cooling pad is equipped with two 120mm high-performance fans with RGB backlight. They not only cool your laptop, but also provide an effective visual experience.

Quality

The stand is equipped with a metal mesh that securely supports the laptop. The rest of the structure is made of lightweight but durable plastic.

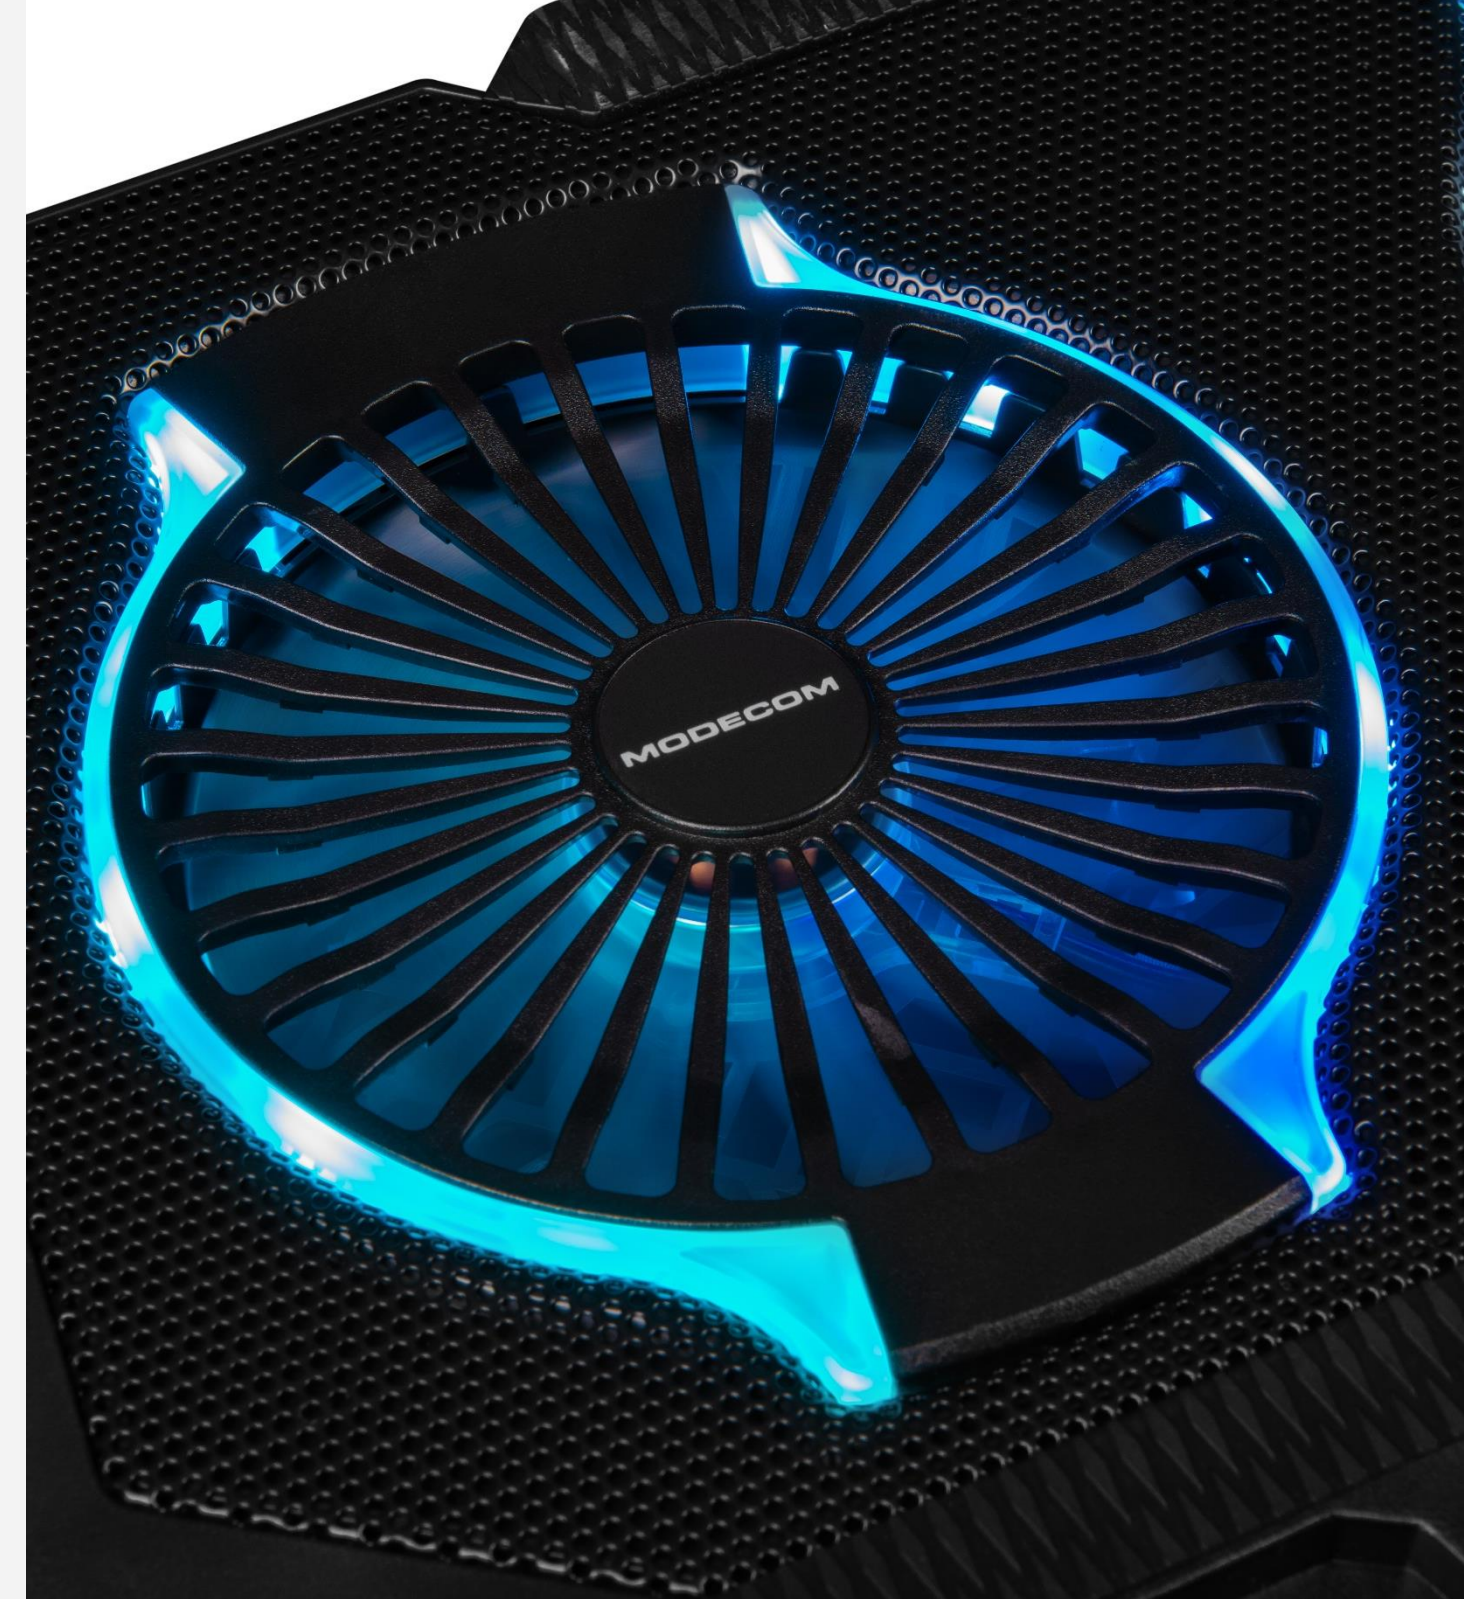

Control panel

The control panel with LCD display allows you to control the speed of the fans. You can also turn them off from the panel console. One of the buttons is used to change the backlight operation mode.

³Cooling is the most important thing

When creating the MC-CF21 RGB Silent Fan stand, our main goal was to keep the laptop temperature as low as possible. Two high-efficient fans with 120 CFM airflow, allow you to cool hot laptop components even during intensive work.

In addition, the control panel allows you to conveniently control the fan speeds (up to 1400 RPM), adjusting the optimal flow of cool air to your own needs. This cooling pad is perfect for both gaming and office laptops.

USB ports and other features

The pad has two USB ports. You can connect a mouse or keyboard to it - USB ports can be used as a hub for connecting accessories. Thanks to this, you have even more free USB ports.

Special tilt feet prevent the laptop from slipping, so you can set the pad at a large angle without worrying about damaging your laptop.

Special tilts
protecting laptop.

Two USB ports.

Light construction

The cooling pad is so light (1245 grams) that you can easily take it on any journey. It will be useful especially on hot days when the temperature may affect the performance of laptop components.

Light but durable materials (metal mesh, plastic structure) are the perfect solution to maintain the optimal weight of the cooling pad.

Smartphone in sight

MODECOM MC-CF21 RGB Silent Fan has a detachable stand for supporting a smartphone. While working or playing on a laptop, your smartphone is always in sight and you can conveniently answer an incoming call or read an SMS.

Laptop tilt adjustment

The large tilt angle (4.5 - 45 degrees) allows you to set the laptop according to your preferences. Working on a laptop is even more pleasant and ergonomic - the hands are less tired and the feeling of discomfort is significantly reduced.

Special mechanism prevent the laptop from slipping, keeping your equipment safe and not damaged.

Control panel

Enjoy, play, work, watch.

LCD

The LCD screen shows the selected fan mode, and the control panel is located on the front of the stand, so you can change the settings in a convenient and quick way. Want to change the backlight color or increase the speed of the fans? Nothing simpler - you have everything at hand.

RGB

Do you love the effective RGB LED backlight? That's great because we too! That is why the MODECOM MC-CF21 RGB Silent Fan cooling pad has 10 RGB backlight modes. You are not a fan of RGB backlight? You can turn off the backlight completely.

MODECOM MC-CF21 RGB Silent Fan

Model	MODECOM MC-CF21 RGB Silent Fan
Type	Cooling pad
Material	Metal mesh, plastic
Dimensions	460*296*50mm
Voltage	DC 5 V
HUB USB	2 x USB1.1
Cable lenght	70 cm
Angle tilt	4,5-45 degree
Weight	1245g
Fans	2 x 125 mm RGB

Logistics

Product code: PL-MC-CF-21-RGB

EAN: 5903560980261

Number of cooling pads in collective package: 8

Dimensions of collective package : 54,5 x 49,5 x 32,1 cm

Weight of collective package brutto 13,5 kg
