

LOGIC LM-STARR-ONE GAMING MOUSE

Logic Concept presents its newest LM-STARR-ONE wired gaming mouse.

The 3200 DPI optical sensor provides perfect reproduction of movements and the specially profiled design improves ergonomics, making it easier to make quick movements. The above makes the mouse a unique and reliable tool during the most difficult games. The LED lighting in 7 colors attracts the attention of many gamers. Thanks to the DPI button, you can gain the ability to customize the mouse to suit your needs. The rubber coating surface makes mouse grip extremely reliable and the use of LM-STARR-ONE is a pleasure.

Right, and left buttons have a higher lifetime compared to the standard one, guaranteeing long, unfailing working.

SPECYFIKACJA
