MODECOM MC-WM4.1

MODECOM MC-WM4.1 is a wireless optical mouse offering excellent ergonomics when working on a computer. Thanks to equipping it with a wireless radio interface using a nano receiver and a wide range of supported operating systems, it can be used practically with any computer available on the market. The mouse is equipped with a high-resolution optical sensor. You can easily switch between 800, 1200 and 1600 DPI with a button located in a convenient place on the top cover of the device. MC-WM4.1 is powered by two AAA batteries and these batteries are included in the box with the device. At the same time, the installation of the device is very simple: all you have to do is connect mouse to one of the free USB ports, without the need to install additional drivers or software. The device is available in five color versions: black, white, red, gray and blue. The MODECOM MC-WM4.1 mouse has been upgraded to its predecessor by using better materials and implementing the latest technological solutions. MODECOM MC-WM4.1 will be a perfect solution for those who are looking for ergonomic, wireless and high quality mouse, especially when spending a lot of hours working on a computer.
