

MODECOM VOLCANO JAGER

Swappable covers.

Swappable switches.

Button spacers.

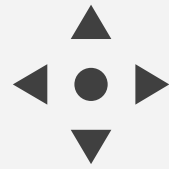

LED RGB backlight.

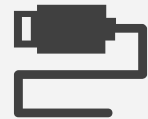

SWAPPABLE COVERS

You can change the front and back panels yourself and adjust the mouse to your preferred shape.

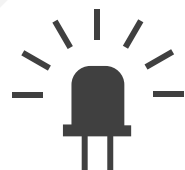

SENSOR PIXART

High-quality Pixart® PAW-3327 sensor for precision in games.

WIRED MOUSE

USB cable 180 cm long.

LED RGB

Effective RGB LED backlight with 16.7 million colors.

BUTTON SPACERS

They help change the feel of the clicks.

ONLY 69 g

The low weight of the mouse - only 69 grams, is something that gamers like. The lightweight design allows you to play your favorite games for hours.

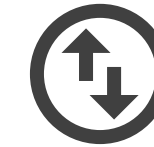

ERGONOMY

A very comfortable mouse that allows you to work and play for many hours.

SOFTWARE

Dedicated software can be downloaded from the manufacturer's website www.modecom.com

SWITCHES HOT-SWAP

The left and right mouse button switches can be replaced with silent switches (included in the set), or others according to your own preferences.

7 BUTTONS

The mouse has 7 buttons (6 programmable and 1 on the bottom) that can be programmed to suit your needs.

QUALITY

The use of high-quality materials during production determines its durability.

DESIGN

Interesting and original design. A combination of bold colors to better emphasize the character of the mouse.

BUTTONS

The mouse has 7 buttons (6 programmable and 1 on the bottom), thanks to which you can set it to your needs.

ERGONOMY

The design of the mouse goes with high ergonomics.

LED RGB

Effective RGB LED backlight with 16.7 million colors.

SWAPPABLE SWITCHES
SILENT SWITCHES INCLUDED

You can replace the left and right mouse buttons (Huano) by yourself. The set includes silent switches (Kailh), which can be replaced in a very simple way without the use of tools (hot-swap).

CABLE

Long, 180 cm braided cable.

COLORS

A black mouse with buttons in a bold, vivid color. This is a mouse with character.

SWAPPABLE COVERS

The front and back panels of the mouse are swappable. The set includes panels thanks to which you can optimally adjust the mouse to your preferences. By changing the game, you can change the mouse for the best fun and comfort.

CHANGE GAME, CHANGE MOUSE

Swappable panels (included in the box) will allow you to customize the mouse to your preferences.

You can replace both panels and play as you like. All this in a simple way without the use of tools.

The extensive functionality of the design will allow you to adjust the shape of the mouse to several game genres.

Palm grip or claw grip is your favourite? You can now adjust shape to your gaming style.

FIND YOUR FAVORITE SWITCH THANKS TO HOT-SWAP TECHNOLOGY

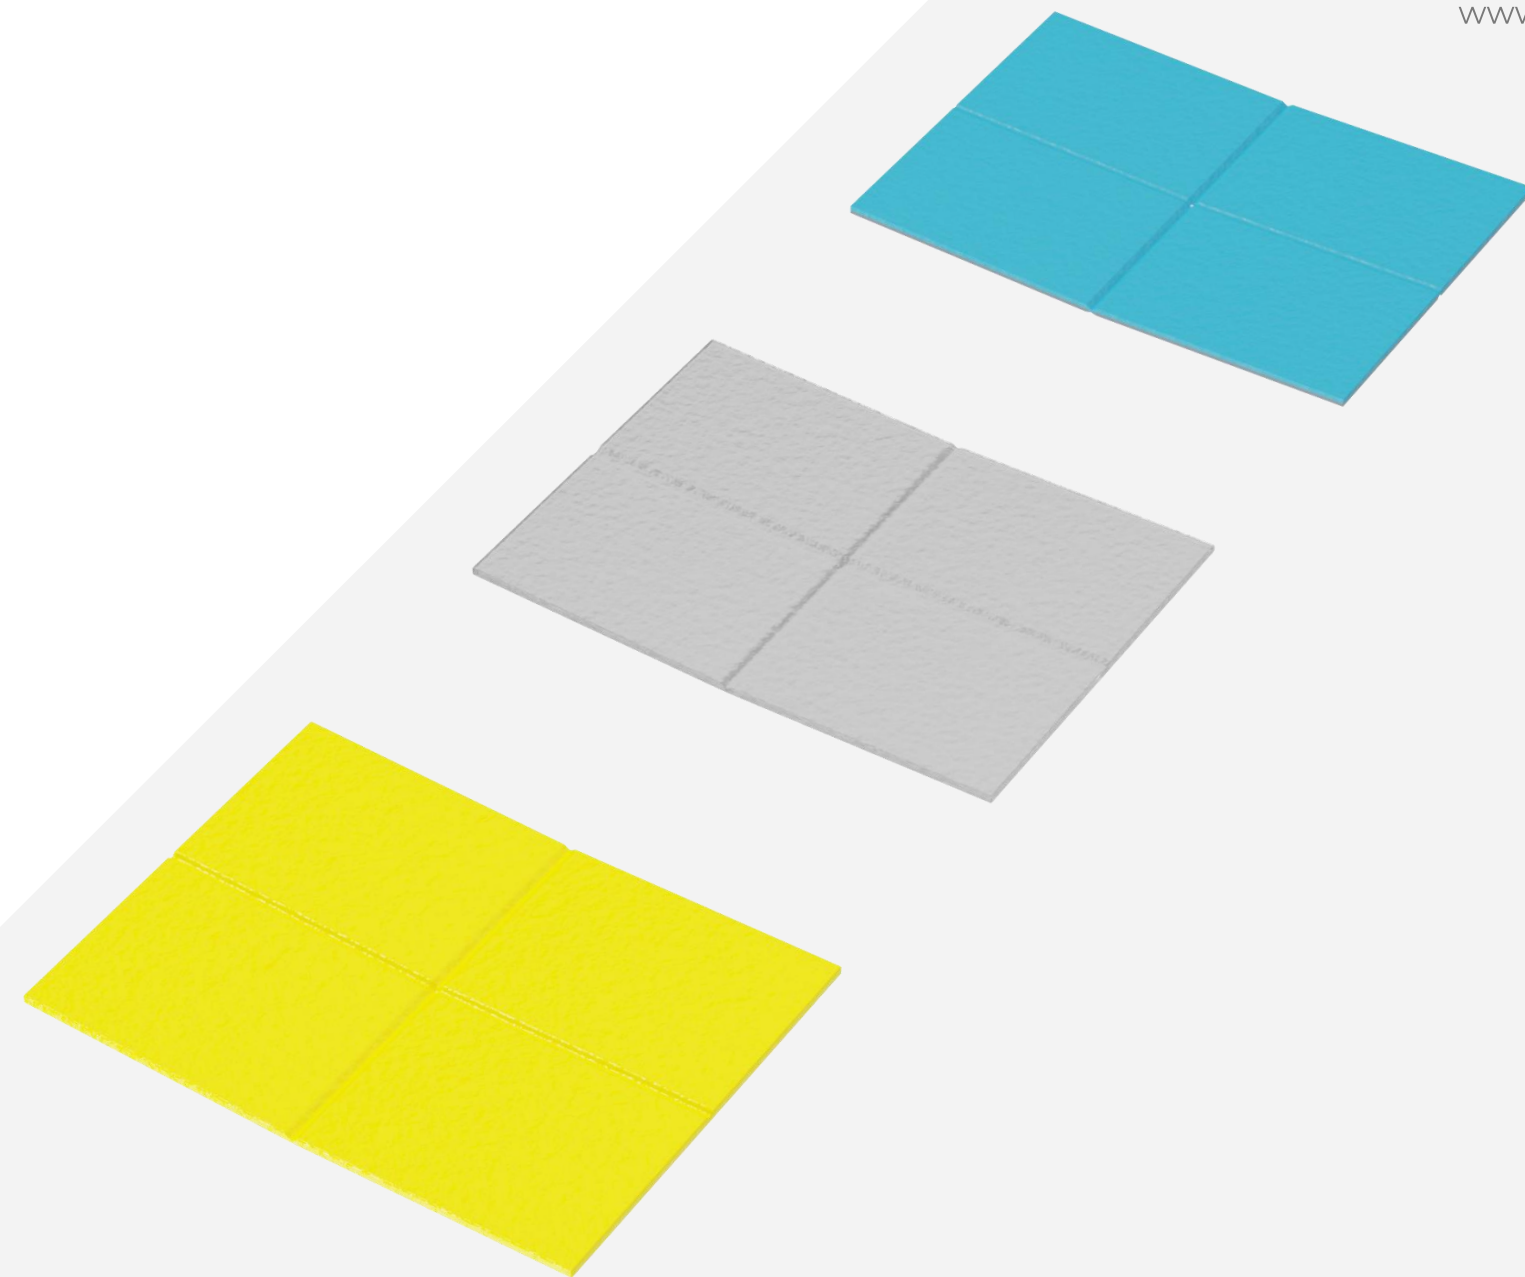

Thanks to the hot-swap technology, you can replace the switch in the left and right mouse buttons by yourself without using tools.

You'll find an extra pair of silent switches in the box, but there's nothing stopping you from starting your adventure with true mouse customization and finding a switch on the market that suits your needs.

What's more, the possibility of replacing the switch increases the life of the entire mouse, allowing you to enjoy your device for a long time.

**CHANGE THE
DISTANCE,
INCREASE
YOUR SKILL,
CHANGE THE
FEEL OF THE
CLICKS.**

The box contains a set of spacers:

- Transparent 0.5 mm thick
- Yellow 0.6 mm thick
- Blue 0.7 mm thick

The use of pads shortens the switch activation route and allows you to customize the mouse even better for your own needs to achieve the best gaming results.

SILENT SWITCHES INCLUDED

The mouse allows you to replace the switches for the left and right buttons on your own. A set of silent switches is included - you can easily install switches in a quick and easy way without using any tools.

If you decide that you want to work on silent switches - there is nothing easier to configure the mouse yourself as you wish.

10 MILLION 5 MILLION CLICKS

By default, the installed Huano switches have a life expectancy of up to 10 million clicks.

ⓘ On the other hand, ultra-quiet Kailh switches available in the set is specified for 5 million clicks.

YOU ARE IN CHARGE!

CHANGE COVER

And adapt the shape of the mouse to your hand or game for even better results.

CHANGE SWITCHES

Install silent switches and play silently after dark, or find the switch that gives you the most pleasure.

CHANGE DISTANCE

Thanks to button spacers.

CHANGE RGB

A full palette of colors - choose your favorite backlight. Or turn them off. You rule here!

DESIRED LIGHTNESS 69 GRAMS.

69 grams. This is the weight of the MODECOM Volcano Jager mouse. As it turns out, the mouse does not have to have a honeycomb structure and "holes" in the covers to lower weight. This light weight will allow for pleasant and long hours of playing in front of the computer, minimizing hand and wrist fatigue.

MULTIPLE MICE IN ONE

MODECOM Volcano Jager is a unique mouse. And actually not one, but several. The set includes not only replaceable upper panels of the covers (front and rear), but also two silent switches (for the left and right mouse buttons).

So you can not only change the size of the mouse, but also turn it into a silent "rodent" for games. And it's all available in one box, without the need for using tools - you can adjust the mouse as you wish. And when you decide it's time to change the game, you also change the mouse. And all the necessary things are always at hand in the box.

FULL LED RGB

16.7 MILLION COLORS

Effective RGB LED backlighting with 16.7 million colors can be adjusted to your preferences. Choose your favorite color and enjoy a beautiful looking gaming station.

COMFORT

A very comfortable design that allows you to play or work at the computer for many hours. Thanks to swappable panels, you will ensure optimal ergonomics.

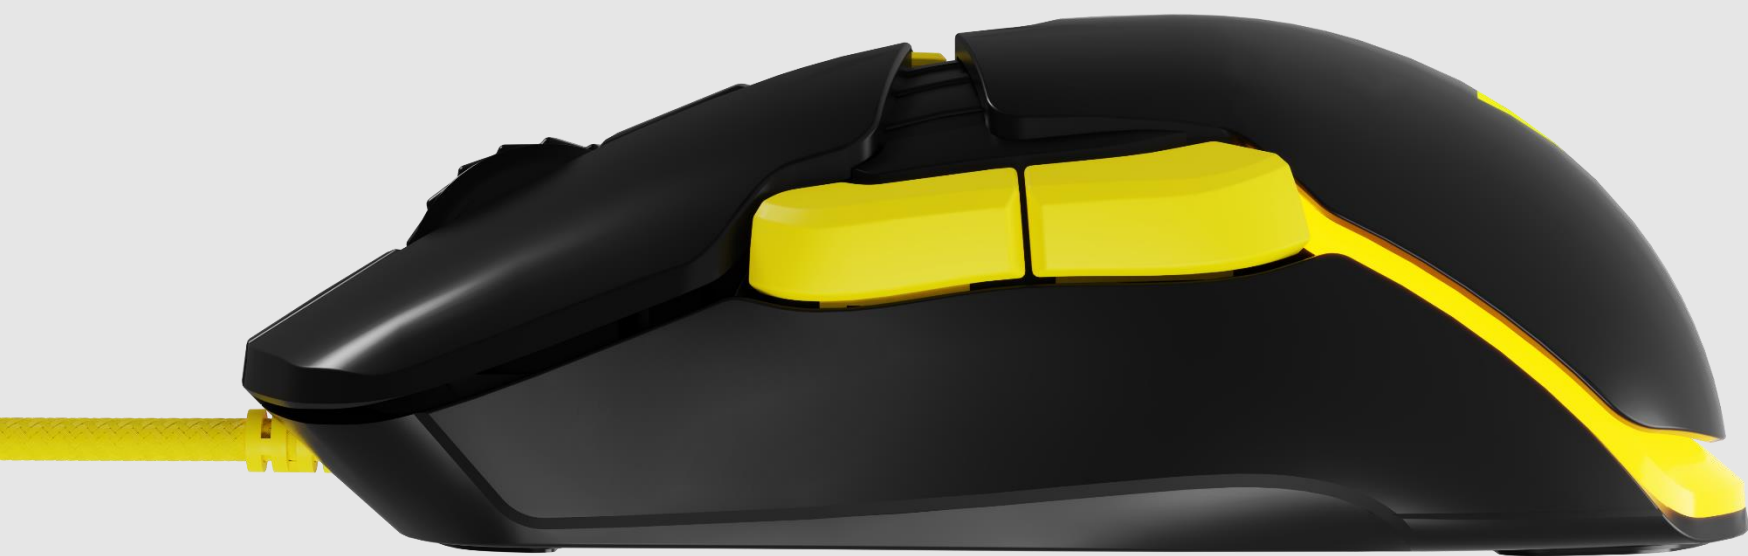

7 BUTTONS

The mouse has 7 buttons (6 programmable and 1 on the bottom). Thanks to dedicated software, the buttons can be configured according to your preferences, which makes it a great choice not only for gaming, but also for working or web browsing.

DESIGN

Original and bold mouse design. It will perfectly fit into any gaming station thanks to the original combination of bold colors with an elegant black.

LED strips in the mouse and the illuminated Volcano logo emphasize the gaming purpose of the "rodent".

SENSOR

High-quality Pixart® PAW-3327
sensor for high precision in games.

BACKWARD

Play in a best way using software.

Configure your mouse and play freely - enjoy every minute spent at the computer and relax playing your favorite games.

Dedicated software allows you to program and save macros for any button. We give you a wide range of choices, thanks to which the mouse will serve you the way you like.

MODECOM VOLCANO JAGER

not only for
gaming.

Modern and attractive design, effective backlight, 6 programmable buttons - all this allows you to enjoy hours of fun with your favorite games.

Or maybe you want to use it for work? Don't let its gaming character fool you - the mouse is perfect not only for fun, but also for study and work.

LONG BRAIDED CABLE.

MODECOM VOLCANO JAGER is a wired gaming mouse. The long, 180 cm and lightweight braided cable reduces the resistance to mouse movement and ensures high comfort. Thanks to this, working with the mouse is very pleasant, and the cable does not interfere even during intensive gaming.
