### **Convenient**

---

The classic design of the mouse allows you to work comfortably for many hours without the feeling of hand fatigue.

### **Perforated sides**

---

They provide a better grip of the mouse, increase comfort while studying and working.

## Classic and proven solutions

MODECOM MC-M4.1 is a comfortable and universal computer mouse. The design of the mouse is based on many years of experience in designing office mice. It is a wired optical mouse that offers good ergonomics for working with a computer. Thanks to its USB interface and a wide range of supported operating systems, it can be used with most computers available on the market. At the same time, the installation of the device is very simple and comes down to connecting the mouse to one of the free USB ports, without the need to install additional drivers or software. The device is available in two color versions: black (matte) and dark gray (metallic). The MODECOM MC-M4.1 model is equipped with a 1200 DPI sensor.

# Perforated sides

The perforated sides of the device, additionally covered with a special matte paint, ensure a secure and comfortable grip of the mouse.

# Universal means good

The MODECOM MC-M4.1 mouse was designed mainly for work and study. Thanks to the classic design, it does not tire your hands and allows you to work for many hours without unpleasant discomfort. Perfect for working in MS Office programs, for browsing the Internet or studying.

Benefits of using a mouse:

- Convenient to use
- Good materials and workmanship
- The perforated sides of the device, additionally covered with a special matte paint, ensure a secure and comfortable grip
- Interface: USB 1200 DPI optical sensor
- Color versions: matte black or metallic dark gray

# Design

The classic design of the mouse is its advantage - the hand is comfortably placed on its surface, ensuring the appropriate comfort of work.
