- ✓ Low profile

- ✓ 800/1200/1600 DPI optical sensor
- ✓ Aluminum elements and high-quality plastic

WIRELESS

The product is easy to use and transport.

The MODECOM MC-WM101 mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work.

Long range thanks to wireless radio technology.

The MODECOM MC-WM101 mouse is based on wireless radio technology operating at 2.4 GHz frequency. The radio technology ensures a reliable connection and a long range of up to 10 meters*. Thanks to this, you will be able to move freely around the room and change the place of work without restrictions.

* The range depends on the operation of other devices at home that may affect the signal strength.

Optical sensor and elegant design.

The MODECOM MC-WM101 mouse is a harmonious combination of modern, minimalist design with premium quality and high comfort of use.

At the first contact with the MC-WM101 mouse, you will be charmed by its slim design with a characteristic lowered profile. The design of MODECOM MC-WM101 mouse is a harmonious combination of plastic and aluminum. The materials from which the mouse is made not only give the product an attractive appearance. They also make the hand placed on the surface of the MC-WM101 meet a pleasant-to-touch material with a matte texture. The whole structure is made with great precision, such as the scroll or the DPI change button. The MODECOM MC-WM101 mouse is also comfortable to use. Thanks to the ergonomic, low-profile design, the mouse fits perfectly in the hand, and the user will not feel tired even after several hours of use. Advanced and sensitive optical sensor allows you to work in three resolutions 800/1200/1600 DPI.

Material - plastic and aluminum

The surface of the mouse is made of a pleasant-to-touch synthetic material and aluminum elements.

Low profile

The mouse is characterized by a low profile design that perfectly fits the user's hand.

Wireless

The large range of wireless technology allows you to work with devices up to 10 meters (depending on the conditions).

Power

Despite the fact that the mouse has compartments for two batteries, it can only be powered by one if necessary. However, the use of two batteries will significantly extend the operating time of the device.

Optical sensor

The 800/1200/1600 DPI optical sensor ensures precise use on virtually any surface.

Practical minimalism

Choose the comfort of working in a minimalist style

Modern low profile

The low profile of the mouse is comfortable to use and has a more interesting look of the device.

Design

The modern and elegant design of the mouse reflects the business nature of the device.

Ergonomics

For years, we have been supplying market with mice for the office, study and work - MODECOM products are characterized by high ergonomics, so you can spend many hours in front of the computer without feeling tired.

Elegant, wireless and convenient solutions

MODECOM MC-WM101 will be perfect for work, study and web browsing. Wireless solutions maximize the practicality of its use, while high ergonomics and interesting design complement the long list of its advantages. The elegant and minimalist design will perfectly fit into any workplace.

Office

Comfortable work at the computer every day. Thanks to the optical sensor, the mouse works on most surfaces - you do not need a mousepad.

Business trip

The product is perfect for a business trip - light, handy and practical.

Why you should buy it?

- ✓ Wireless mouse - work without a cable.
- ✓ Energy-saving - long battery life.
- ✓ Elegant design with an aluminum accent - a mouse for everyone who appreciates a modern and tasteful style.
- ✓ High ergonomics of use - less fatigue after many hours of work or study.
- ✓ Optical mouse with 800/1200/1600 DPI sensor - works on most surfaces, is precise and durable.
