WIRELESS

The product is easy to use and transport.

The MODECOM MC-WM10S mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work. You can also hide nano receiver inside the mouse, which allows it to be safely transported without worry of losing it.

MODECOM MC-WM10S

Long range thanks to wireless radio technology.

The MODECOM MC-WM10S mouse is based on wireless radio technology operating at 2.4 GHz frequency. The radio technology ensures a reliable connection and a long range of up to 10 meters. Thanks to this, you will be able to move freely around the room and change the place of work without cable restrictions.

** The range depends on the operation of other devices at home that may affect the radio signal strength.*

Silent switches.

In MC-WM10S model, we focused on the comfort of use using ultra-quiet microswitches. This significantly increases the comfort of use in relation to mice with traditional switches. Thanks to the use of this technology, you can use the mouse silently in public places such as a reading room or at home, with 100% certainty that working on the MC-WM10S will not disturb the surrounding silence.

MODECOM MC-WM10S

Universal.

MODECOM MC-WM10S combines the best features of classic, solid and ergonomic design with modernity, quality of workmanship and high durability of microswitches. The mouse is wireless and equipped with a powerful battery that ensures many hours of uninterrupted work.

Convenience of work and study

The modern MODECOM MC-WM10S optical mouse is the latest wireless technology solutions based on many years of experience in providing computer accessories to the market. When creating the universal and practical MC-WM10S mouse, we have not forgotten the importance of buttons durability and ergonomics of use.

Its classic appearance in the available palette of colors (black, white, red, blue) meets the tastes of demanding users who appreciate classics in a modern edition. The surface of the mouse is made of a pleasant-to-touch material, the advantage of which is that no fingerprints are left after use.

The quiet and wireless MODECOM MC-WM10S mouse is a great choice for any work and study.
