WIRELESS

The product is easy to use and transport.

The MODECOM MC-WM6 mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work.

MODECOM MC-WM6

Long range thanks to wireless radio technology.

The MODECOM MC-WM6 mouse is based on wireless radio technology operating at 2.4 GHz frequency. The radio technology ensures a reliable connection and a long range of up to 10 meters*. Thanks to this, you will be able to move freely around the room and change the place of work without restrictions.

* The range depends on the operation of other devices at home that may affect the signal strength.

A compact mouse for work and study.

The MODECOM MC-WM6 mouse is a small device for work and study. The sides of the MC-WM6 mice are covered with a special matte material that improves the grip of the device, and thus optimizes the work.
