- ✓ Wireless technology
- ✓ Convenient design

- ✓ Silent switches
- ✓ Different colors

- ✓ Classic but elegant design
- ✓ 800/1200/1600 DPI optical sensor (adjustable)

WIRELESS

The product is easy to use and transport.

The MODECOM MC-WM9.1 mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work. In the middle of the mouse there is a place for the nano receiver, which allows it to be safely transported without fear of losing it.

Long range thanks to wireless radio technology.

The MODECOM MC-WM9.1 mouse is based on wireless radio technology operating at 2.4 GHz frequency. The radio technology ensures a reliable connection and a long range of up to 7 meters*. Thanks to this, you will be able to move freely around the room and change the place of work without restrictions.

* The range depends on the operation of other devices at home that may affect the signal strength.

Convenience of work and study

The modern MODECOM MC-WM9.1 optical mouse is the latest wireless technology solutions based on many years of experience in providing computer accessories to the market.

Our main goal in creating a mouse is comfort and practicality. The shape of the mouse is designed to reduce hand fatigue and ensure comfort while working or studying in front of the computer. While creating the universal and practical MC-WM9.1 mouse, we have not forgotten the importance of button durability and ergonomics of use.

Its classic look in the available color palette will appeal to the tastes of demanding users who appreciate classics in a modern edition. MODECOM MC-WM9.1 combines the best features of classic, solid and ergonomic design with modernity, quality of workmanship and high durability of microswitches.

The mouse uses wireless, and the energy-saving technologies allowing for long operation without changing the battery. The MODECOM MC-WM9.1 wireless mouse is a great choice for work and study.

Material

The surface of the mouse is made of a synthetic material that is pleasant to the touch.

Palette of colours

The mouse not only has to function reliably and not tire your hands. It must also please the eye and that is why we offer it in one of the three available colors.

Wireless

The large range of wireless technology allows you to work with device up to 7 meters (depending on the conditions).

Energy saving technology

The mouse has an automatic energy saving function, which allows you to enjoy its work for longer.

Optical sensor

The 800/1200/1600 DPI optical sensor (adjustable) ensures precise use on most surfaces.

Wireless and practical solutions

Choose high work comfort

Design

The interesting, modern and symmetrical design.

Batteries

The mouse works on one easily replaceable AA DC 1.5V battery.

Ergonomics

For years, we have been supplying mice for the market - MODECOM products are characterized by high ergonomics, so you can spend many hours in front of the computer without feeling tired.

Versatile use

MODECOM MC-WM9.1 will be perfect for work, study and web browsing. Wireless solutions maximize the practicality of its use, while high ergonomics and interesting design complement the long list of its advantages.

Office

Comfortable work at the computer every day.

Home

Thanks to the optical sensor, the mouse works on most surfaces - you do not need a mousepad.

Business trip

The product is perfect for a business trip - light, handy and practical. Moreover, it enables wireless operation.
