✓ Optical sensor

WIRELESS

The product is easy to use and transport.

The MODECOM MC-WM9 mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work. In the middle of the mouse there is a place for the nano receiver, which allows it to be safely transported without fear of losing it.

Long range thanks to wireless radio technology.

The MODECOM MC-WM9 mouse is based on wireless radio technology operating at 2.4 GHz frequency. The radio technology ensures a reliable connection and a long range of up to 7 meters*. Thanks to this, you will be able to move freely around the room and change the place of work without restrictions.

* The range depends on the operation of other devices at home that may affect the signal strength.

Convenience of work and study

The modern MODECOM MC-WM9 optical mouse is a wireless technological solution based on many years of experience in providing computer accessories to the market.

Our main goal in creating a mouse is comfort and practicality. The shape of the mouse is designed to reduce hand fatigue and ensure comfort while working or studying in front of the computer. When creating the universal and practical MC-WM9 mouse, we have not forgotten the importance of button durability and ergonomics of use.

Its classic look in the available color palette will appeal to the tastes of demanding users who appreciate classics in a modern edition. MODECOM MC-WM9 combines the best features of a classic, solid and ergonomic design with modernity, quality of workmanship and high durability of the microswitches.

The mouse is wireless, and the energy-saving technologies used allow for long work without changing the battery.

The MODECOM MC-WM9 wireless mouse is a great choice for any work and study.

MODECOM   5

Wireless

The large range of wireless technology allows you to work with devices up to 7 meters (depending on the conditions).

Material

The surface of the mouse is made of a synthetic material that is pleasant to the touch.

Energy saving technology

The mouse has an automatic energy saving function, which allows you to enjoy its work for longer.

Palette of colours

The mouse not only has to function reliably and not tire your hands. It must also please the eye and that is why we offer it in one of several available colors.

Perfect for any work

www.modecom.com

Work in the highest comfort
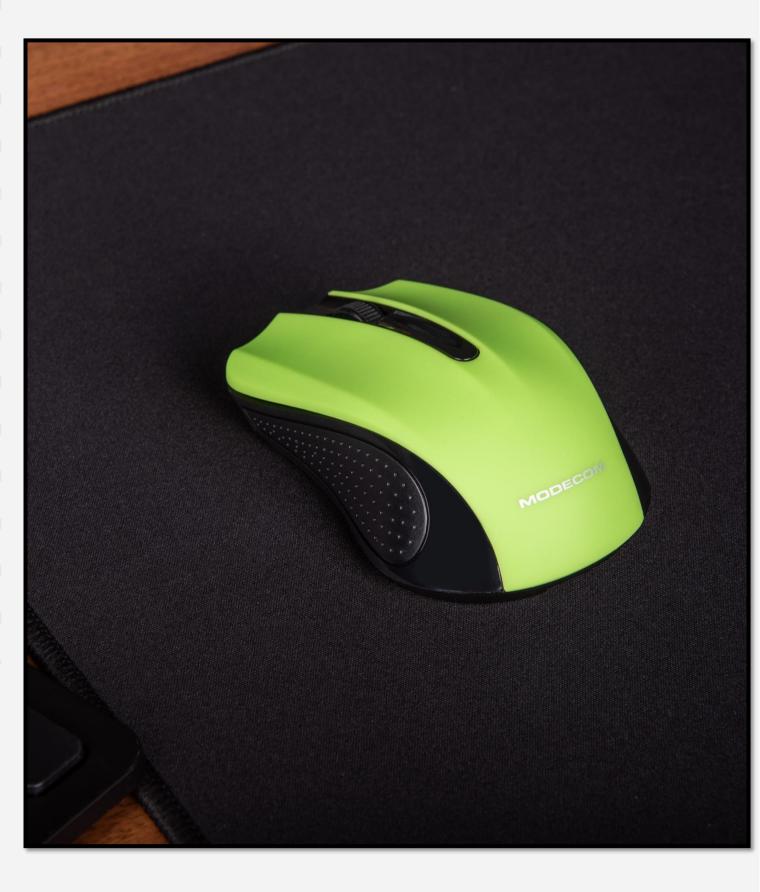

Fashionable design
