- ✓ Illuminated logo.

- ✓ Elegant and minimalist design.
- ✓ Low profile.
- ✓ Possibility to work on a removable battery or on a rechargeable battery.

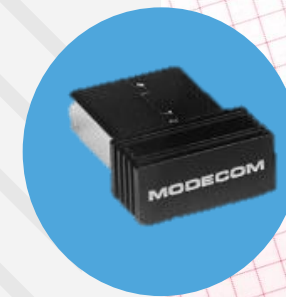

- ✓ Energy optimization technology.
- ✓ 1600 DPI optical sensor.

WIRELESS

The product is easy to use and transport.

The MODECOM MC-WRM113 mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work.

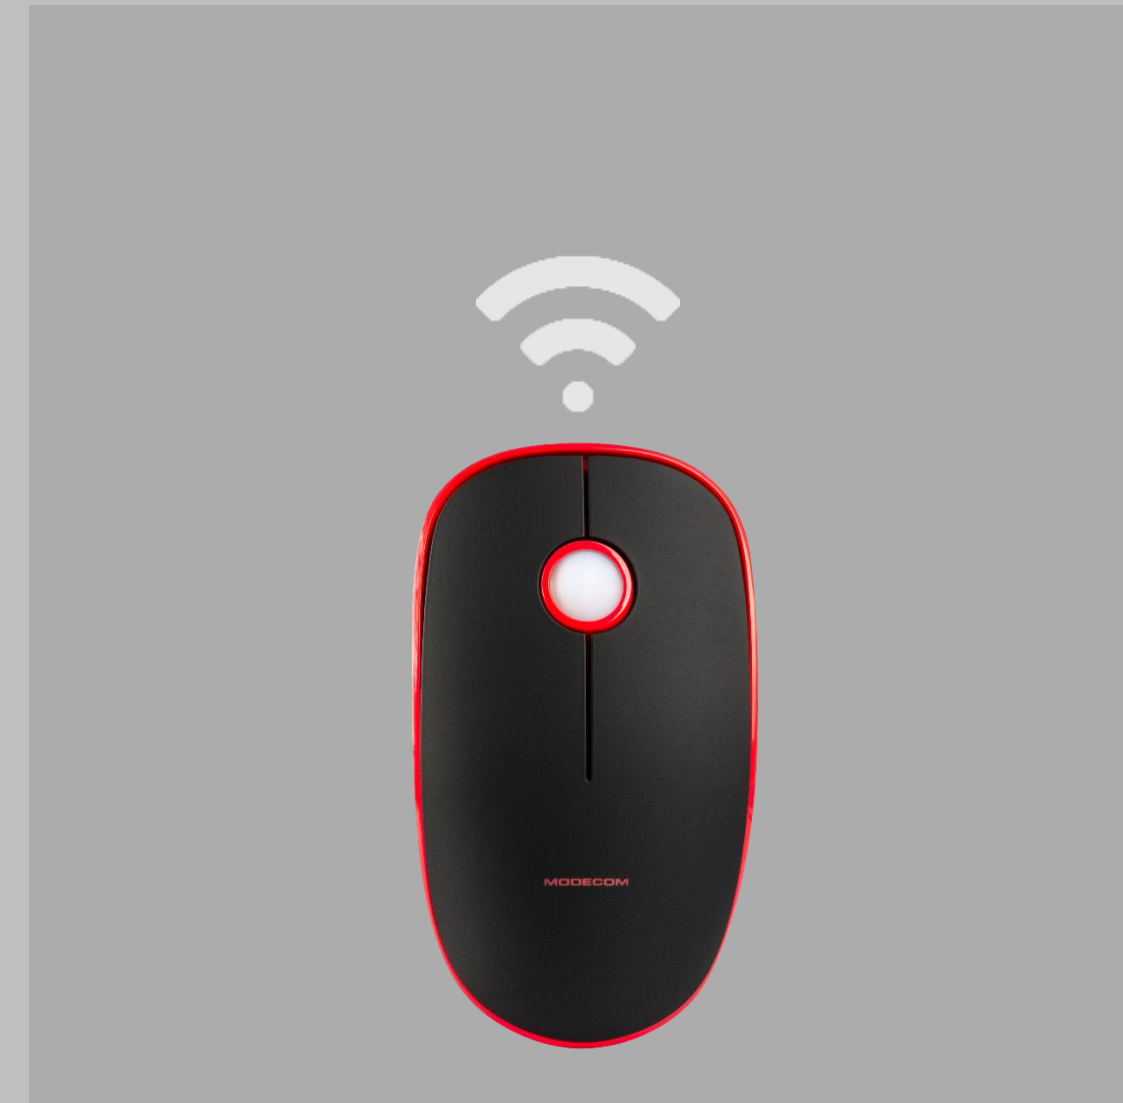

MODECOM MC-WRM113

Long range thanks to wireless radio technology.

The MODECOM MC-WRM113 mouse is based on wireless radio technology operating at 2.4 GHz frequency. The radio technology ensures a reliable connection and a long range of up to 10 meters*. Thanks to this, you will be able to move freely around the room and change the place of work without restrictions.

* The range depends on the operation of other devices at home that may affect the signal strength.

Low-profile mouse for comfortable work and study

The MODECOM MC-WRM113 mouse is a harmonious combination of modern, minimalist design with high quality and comfort of use. At the first contact with the MC-WRM113 mouse, you will be charmed by its design with a characteristic, lowered profile. The design of the MODECOM MC-WRM113 mouse in a vivid red color and elegant black gives it a unique look.

Vivid black and red color mouse

Materials.

The materials from which the mouse is made not only give the product an attractive appearance. They also cause that the hand placed on the surface of the MC-WRM113 meets a pleasant to touch material with a matte surface.

MODECOM MC-WRM113

Ergonomic.

The MODECOM MC-WRM113 mouse is also comfortable to use. Its ergonomic design fits perfectly in the hand and minimizes fatigue even during long hours of use.

Low profile.

Low profile shape perfectly fits the user's hand.

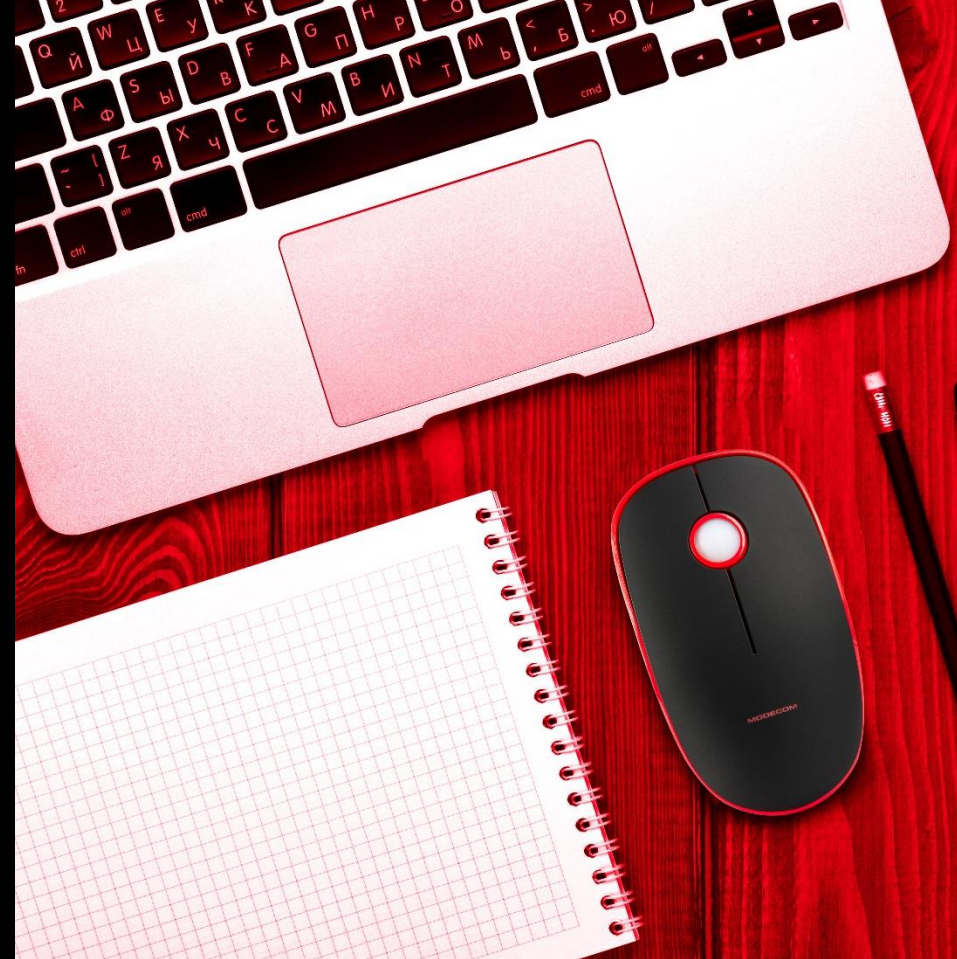

MODECOM MC-WRM113

Wireless.

The large range of wireless technology allows you to work with devices up to 10 meters (depending on the conditions).

Energy saving technology

The mouse has an energy saving optimization function, which allows you to enjoy its work longer.

Work on a battery or accumulator, or in a situation without charged batteries - on a wire

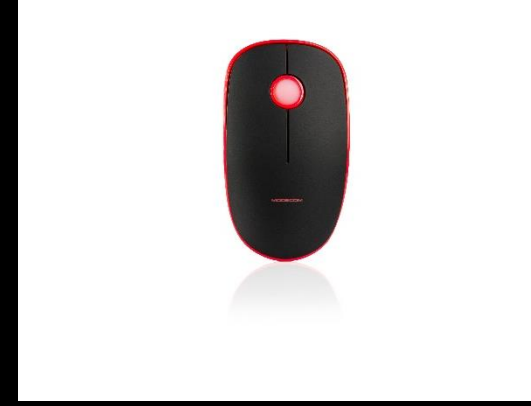

Choose power source.

The mouse can work on a replacable battery or rechargeable battery. The cable (82 cm) available in the package allows you to charge the battery (available in the set) and provide the necessary power for further work in the event that the battery runs out. Thanks to the technology used, you can also work on the cable. Just plug it into a free USB port. This allows you to keep working on the cable and charge the battery at the same time - you don't have to wait for it to fully charge if you have an urgent project to do.

Modern, wireless and convenient solutions

MODECOM MC-WRM113 will be perfect for work, study and web browsing. Wireless solutions maximize the practicality of its use, while high ergonomics and interesting design complement the long list of its advantages. Modern design in a vivid red color will perfectly fit into any workplace.

Office

Comfortable work at the computer every day. Thanks to the optical sensor, the mouse works on most surfaces - you do not need a mousepad.

Business trip

The product is perfect for a business trip - light, handy and practical.

Why you should buy it?

- ✓ Wireless mouse - work without a cable.
- ✓ The ability to work on the cable included in the package - work when the battery power runs out.
- ✓ Energy-saving - long operation.
- ✓ Modern design - a mouse for everyone who appreciates a modern and tasteful style.
- ✓ High ergonomics of use - less fatigue after many hours of work or study.
- ✓ Optical mouse with a 1600 DPI sensor - works on most surfaces, it is precise and durable.
