WIRELESS MOUSE

MODECOM MC-WRM1

Wireless technology

A wireless mouse that allows you not only to work without being "tied" to the cable, but at the same time provides adequate comfort and maintains more order on the desk.

Design

The appearance of the mouse was inspired by products from the Volcano Gaming series. If you are looking for a mouse for the office or study that will look more "extravagant", the MC-WRM1 meets these expectations.

LED backlight

Delicate, subtle LED backlight in one color.

Inspired by gaming designs

MODECOM MC-WRM1 BLACK is a wireless optical mouse designed for people looking for computer equipment with an original and modern design.

The visual design of the MC-WRM1 BLACK mouse was inspired by products from the MODECOM VOLCANO line dedicated to gamers, which is why its design was created in cooperation with the department of products for gamers. The MC-WRM1 mouse will catch your eye with a slim LED strip on the both sides, filled with a pleasant, warm LED light.

Using the DPI change button located under the scroll, you can choose one of the three resolutions supported by the optical sensor: 1000/1200/1600, and thanks to the built-in 350 mAh battery, you will forget about the need for spare batteries once and for all. You can charge the battery at any time using the microUSB socket on the front of the mouse.

WIRELESS

Easy to use and transport

The MODECOM MC-WRM1 mouse is a "plug and play" device. After connecting the nano receiver to the USB port, you only need to wait a few moments after which the product will be ready for work.

Attention to details

The materials from which the mouse is made not only give the product an attractive appearance. They also mean that the hand placed on the surface of the MC-WRM1 meets a material with a matte surface that is pleasant to the touch.

Based on gaming designs

Side buttons

There are two buttons on the left side of the mouse, which you can use to in various multimedia programs.

MODECOM MC-WRM1

Ergonomic

The MODECOM MC-WRM1 mouse is also comfortable to use. Its ergonomic, gaming-like design fits perfectly in the hand and minimizes fatigue, even after long hours of use.

Wireless

The large range of wireless technology allows you to work with devices up to 10 meters (depending on the conditions).

Efficient built-in battery
350 mAh

The MC-WRM1 BLACK mouse has a built-in battery with a capacity of 350 mAh. When fully charged, it will provide approximately 80 hours of continuous work.

With the help of the microUSB port on the front, you can charge the battery at any time and, importantly, still use the mouse.

Technologically advanced

The MC-WRM1 mouse connects to the computer via radio receiver. The receiver, operating in the frequency ranges of 2402-2480 MHz, ensures a stable, undisturbed range of other equipment.
Benefits of using a wireless mouse:

- The cord does not restrict you when working or studying

- Greater convenience

- Order on the desk

- You don't have to work only at a desk - you can comfortably sit on an armchair or a sofa.

Design

he design of the MC-WRM1 BLACK mouse is based on products for gamers. Its design, distinguished by its modern appearance, has been enriched with illuminated elements.

The mouse is profiled on both sides for maximum comfort.
