## MOUSE AND KEYBOARD PAD

MODECOM VOLCANO AIRA is a pad for people who appreciate LED illumination. A large, smooth surface in black perfectly fits into any gaming stand. LED RGB edges emphasizes its gaming purpose.

The smooth material from which it is made increases the precision of the mouse and the pleasure of playing. In addition, it is very easy to keep clean - all you need is a damp cloth to get rid of dirt.

The large size of the pad allows you to cover a large part of the desk with high-quality material, which not only improves the aesthetics and comfort of work, but also protects it from minor damage.

## DESIGN

The design of the pad will be appreciated by people who like elegance, minimalism and clarity at the same time.

The pad is black, without graphics. This minimalist but elegant approach emphasizes the same gaming accessories as the mouse and keyboard. After all, they play the main role on the gamer's desk.

The expressive RGB LED backlight around the pad looks especially good in a dark room, delimiting the gamer's space.

MODECOM VOLCANO AIRA RGB was designed to emphasize the role of gaming accessories, increase the precision of the mouse and protect the desk. It fulfills these tasks perfectly.

## LARGE SIZE

The large size (900 x 400 x 4 mm) of the pad is undoubtedly its advantage. You can place the keyboard and mouse on it, while maintaining a large working space and improving the stability of the keyboard and the precision of the mouse.

# Meet MODECOM Volcano AIRA RGB PAD

The pad is made of a durable material, the structure of which allows you to increase the precision of the mouse sensor or reduce keyboard movement. It enhances the enjoyment of the game, allowing you to get even better results in games that require quick response, reflexes and precision.

The underside of the pad is a rubberized non-slip material that keeps the pad on your desk even during intense gaming. Regardless of whether a gamer is engaged in FPS games or calm simulation games - the pad will be perfect for any task.

## 5 REASONS WHY YOU SHOULD HAVE IT

01.

### CONVENIENCE

This pad is comfortable and practical. It is easy to keep the gaming desk clean, it protects the desk against scratches, increases the precision of the mouse.

02.

### FOR YEARS

High-quality material will allow you to use it for years.

03.

### DESIGN

Minimalistic but elegant design with RGB LED backlight. For gamers who want to clearly define the boundaries of the gaming space and emphasize the appearance of the keyboard and mouse.

04.

### LARGE SIZE

A large gaming pad (900 x 400 x 4 mm).

05.

### EASY TO CLEAN

Due to the fact that it is made of material, it is very easy to keep it clean. A damp cloth is enough for this. Spilled drink? Chip leftovers? This is not a problem - just wipe the pad with a wet cloth.

## EASY COLOR CHANGE

The backlight of the pad can be changed very easily. A touch button on the shorter corner of the pad is used for this. Since there is no graphics on the pad, the backlight power element, together with the button for changing the operating modes, can be located on the left or right side of the desk (just turn the pad).

The detachable two-meter cable is enough to connect to a free USB port on your computer.

# PLAY FREELY

Choose the best color and enjoy playing games.

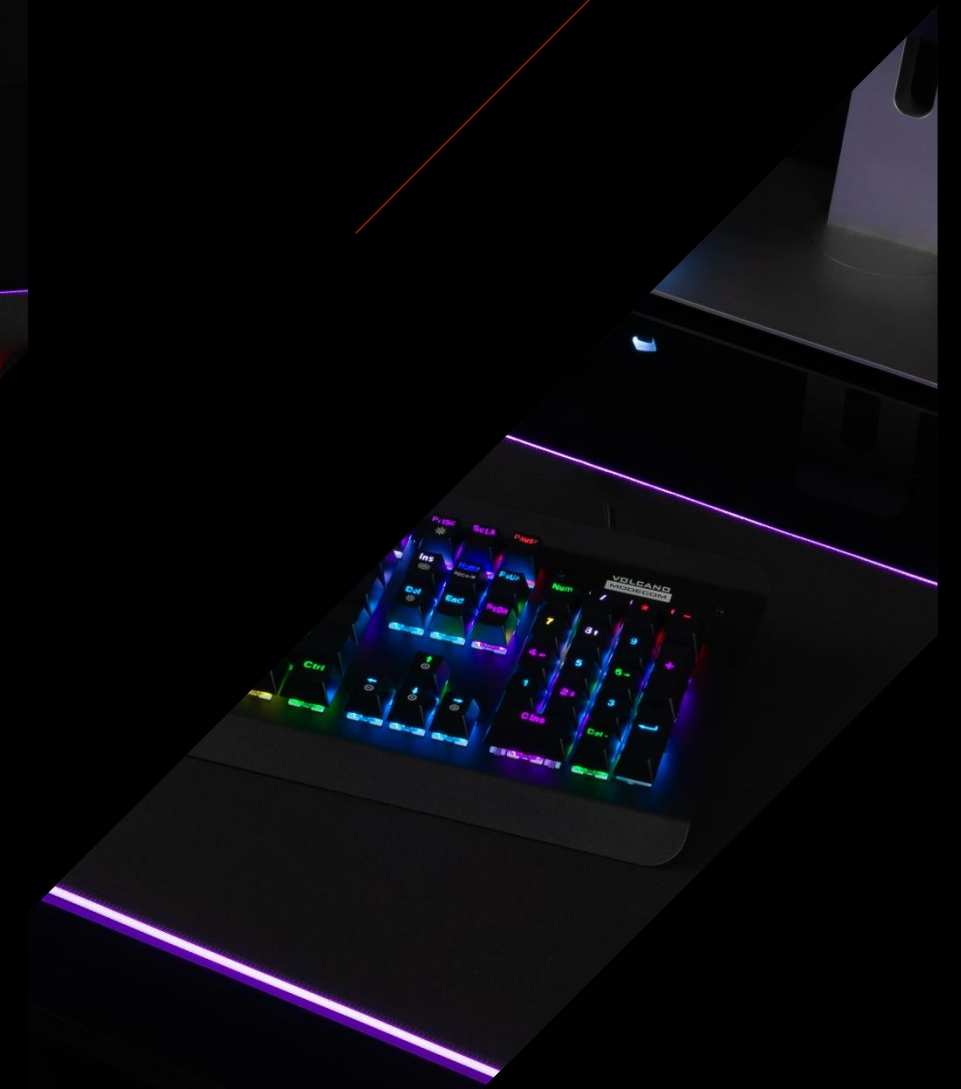

Let yourself be elegant too. A black pad with a subtle but distinctive backlight perfectly complements the gaming stand.
