Active 2.0 speakers

Remote control

You'll be able to lay back and enjoy any music you want without the need to stand up in order to play the next track.

Sound regulation

The speakers are equipped with bass and treble regulation to your own preferences.

D-class amplifiers

These amplifiers have high efficiency, which makes them prevent sound deformation.

Frequency range

Frequency range of the set is 35Hz-22kHz. This will give you extraordinary sensations.

D-class amplifiers

D-class amplifiers are characterised by high efficiency - they lose very little energy in the form of heat. There are D-class amplifiers reaching above 90% efficiency. High efficiency enables us to limit cooling systems and miniaturise D-class amplifiers.

Matt finishing

The housing has matt finishing. Consequently, you won't leave your fingerprints on it.

Technical specifications

MODECOM Eclipse 180
