- ✓ Minimalistic and modern design
- ✓ RMS 50W (2 x 25W)
- ✓ Two speakers 5" (woofer) + 1" (tweeter)

Speakers 2.0

Perfect acoustics

The set was enclosed in MDF cabinets providing perfect acoustics.

Sound parameters regulation panel

The set was equipped with sound parameters regulation panel. Thanks to the panel, you can adjust the sound parameters to your own preferences.

External subwoofer input

The set is equipped with external subwoofer input for more intense sensations.

Wide frequency range

The speakers have wide frequency range. You can be sure to hear every sound, from the lowest woofs to the highest tweets.

What does "active" speakers mean?

MODECOM MC-HF50.2 is a set for the most requiring users. Its construction provides incredibly high sound quality. Its classic design makes it universal and perfect for every interior. Magnificent sound is provided thanks to the audio crossover system. This system consists in crossovers splitting the audio signal into separate frequency bands that can be separately routed to loudspeakers optimized for those bands (from low frequencies to high frequencies). The application of this system requires two independent equalizers in each set, however, each of them deal with the signal processing better than just one equalizer responsible for the whole range of frequency.

Technical specifications

MODECOM MC-HF50.2

MODECOM MC-HF50.2

Model	MODECOM MC-HF50.2
Dimensions	170 x 190 x 270 mm
Speakers	5" + 1"
Watts	2 x 25 W
