

Freetab 7001 – firmware update by OTA (from SD CARD)

http://serwer1358296.home.pl/archive/Tablets/FreeTAB_7001_HD_IC/Software/

File: **FT7001_1.2_OTA_BLACK_WIPE_SD.zip**

Copy downloaded software (zip file) on to SD memory card (max capacity 8GB) formatted in FAT32

Turn off your tablet

- Put SD card into SD slot of your device (must be charged a minimum 50%)
- Press and hold “VOLUME –” button and next Press and hold “POWER” button

When you see android logo release “VOLUME –” button and still hold “POWER” for 3s.

Screen navigation:

Select – VOLUME UP or VOLUME DOWN buttons

Execute – POWER or CAMERA button

- From the menu list choose **RECOVERY**
- On next screen choice **FT card update**
- Choice zip file from SD card
- Wait for “**Install from sdcard complete**”.
- Remove SD Card
